To the Honorable Gary R. Herbert, Governor
And members of the Utah State Legislature:

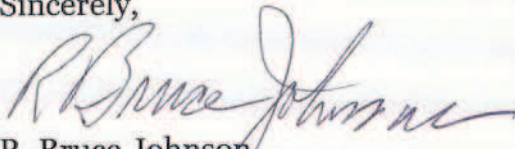

On behalf of the Utah State Tax Commission, we are pleased to submit to you the annual report for the fiscal year ending June 30, 2009.

Total collections from all sources administered by the Tax Commission during the 2009 fiscal year totaled \$6,511,492,872. This represents a decrease of \$762,412,531 or -10.5 percent in total collections from fiscal year 2008. The Education Fund decreased \$412,459,250 or -13.68 percent; the Transportation Fund decreased \$77,507,173 or -9.67 percent; and the General Fund (not including restricted amounts) decreased \$193,155,802 or -9.68 percent.

The Tax Commission is in the fifth year of a multi-year project to upgrade the State's tax computer system. The project has integrated systems in order to enhance tax compliance, improve customer service and provide flexibility for changes in the state's tax laws. Our dedicated staff along with system contractors have successfully replaced and upgraded the core tax systems.

We remain steadfast in our mission of serving the people of Utah through fair administration of state tax and assigned motor vehicle laws.

Sincerely,

R. Bruce Johnson
Tax Commission Chair

The Utah State Tax Commission functions in two separate, distinct roles:

- 1) The Office of the Commission and
- 2) Administration

The Governor, with concurrence from the Utah State Senate, appoints four state tax commissioners.

Pam Hendrickson retired in December 2009 following more than 12 years of service as a Utah State Tax Commissioner. She served the past seven years as chair of the Tax Commission. Governor Gary R. Herbert appointed Michael J. Cragun to succeed Commissioner Hendrickson and designated Bruce Johnson as chair.

The Commissioners, in consultation with the Governor, hire an executive director to oversee the administrative functions of the agency.

The primary role of the Office of the Commission is to hear and rule on tax appeals, supervise

and administer the State's tax laws and promulgate rules to administer those tax laws. Tax commissioners, administrative law judges, economists, internal auditors, a public information officer and appeals support staff comprise the Office of the Commission. During the past fiscal year 3,810 appeals were filed with the Commission. Administrative law judges and commissioners hear these appeals.

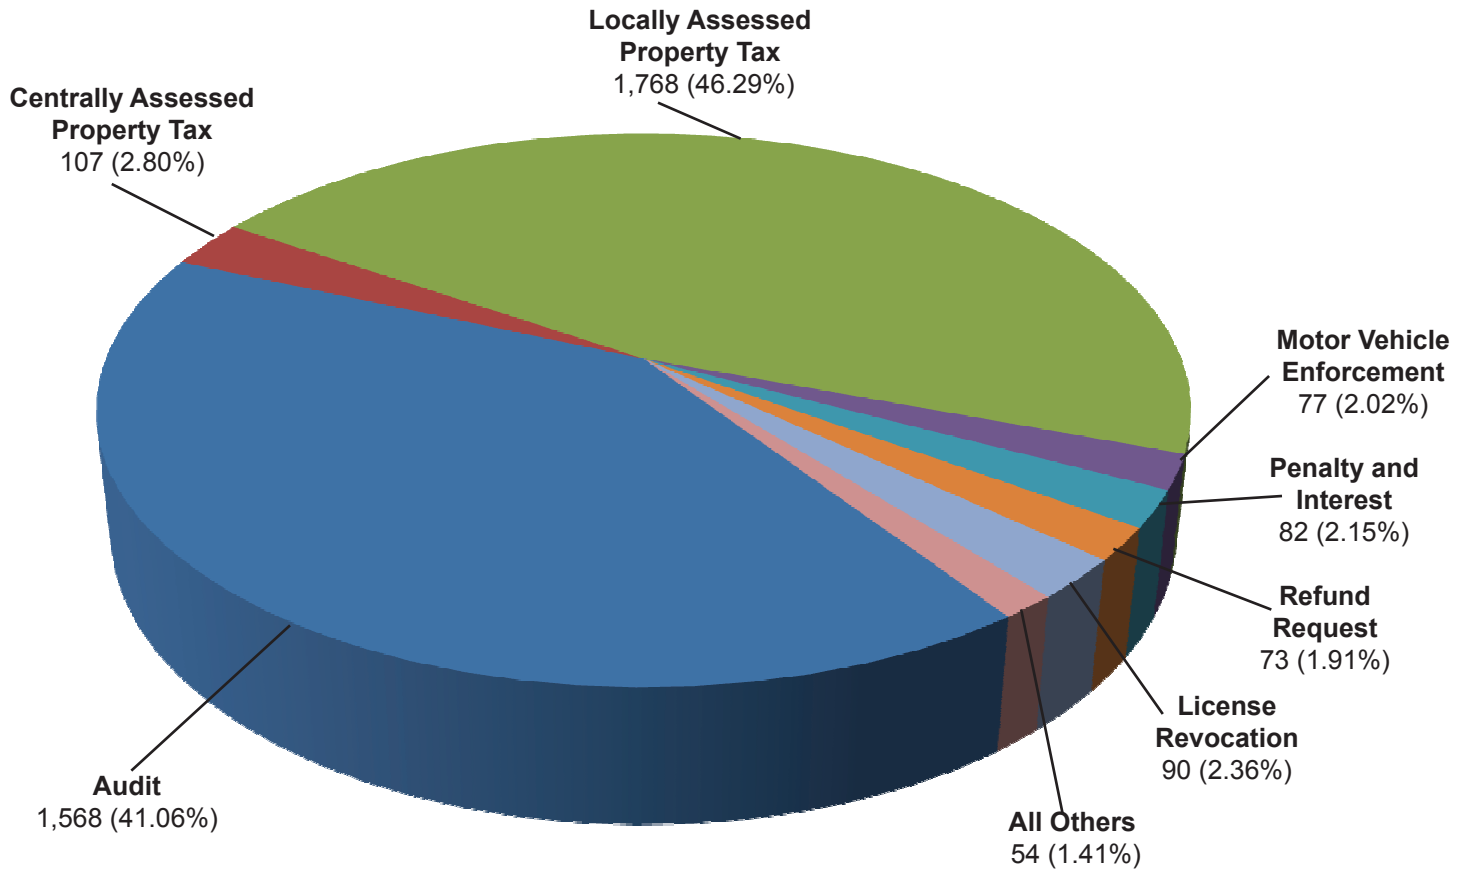

The Economic and Statistical unit provides analyses from various data sources for the Commission, Legislature and public agencies. The public information officer works with the media and represents the Commission on public issues.

Rules and Commission decisions provide taxpayers written guidance on how tax laws will be interpreted, administered and applied by the Commission. Taxpayers can view rules and redacted Commission decisions at <http://tax.utah.gov/research>.

In the past fiscal year the number of closed cases increased from 1,616 cases to 2,985, an 85 percent increase.

This chart shows the type, percent and number of tax appeals filed with the Tax Commission from July 1, 2008 to June 30, 2009.

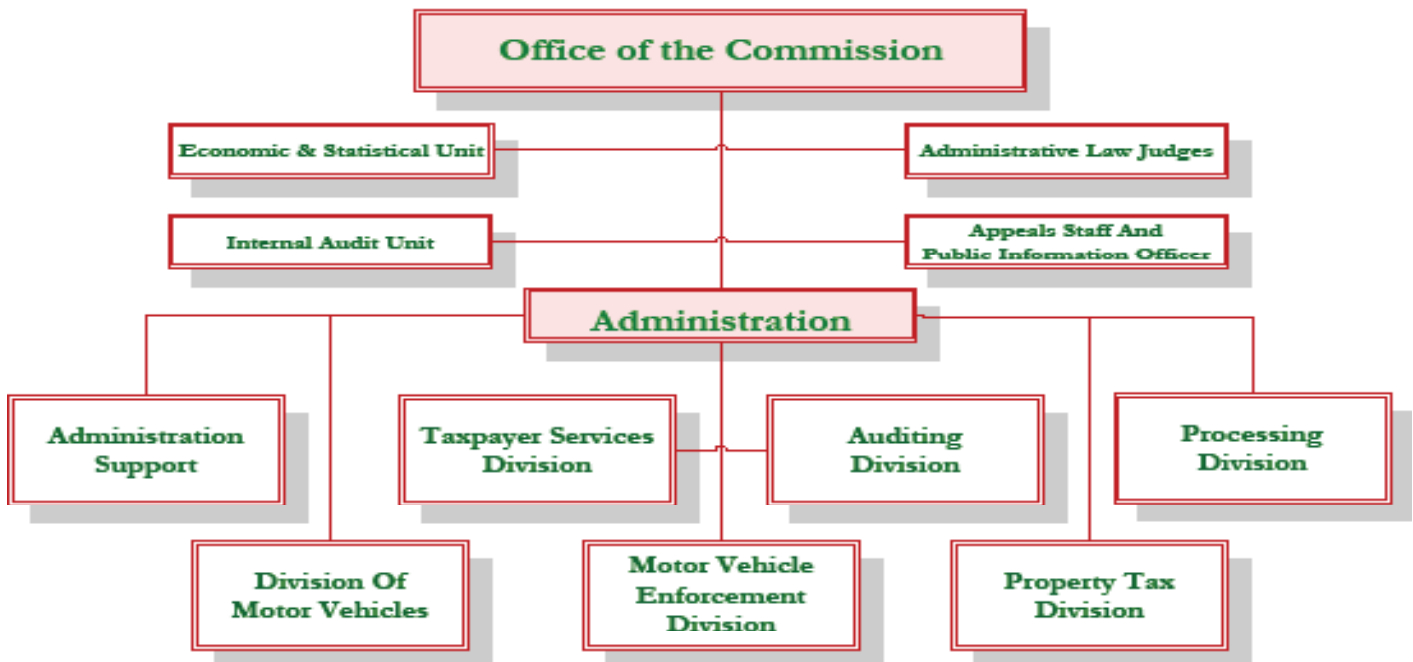

NUMBER OF TAX CASES APPEALED

This chart shows the number of tax appeals submitted to and processed by the Office of the Commission for each fiscal year since 2000. In the past two years, the number of appeals nearly doubled while the size of the staff remained the same.

ADMINISTRATION

Utah State Tax Commission

MISSION

Our mission is to collect revenue for the State of Utah and local governments and to equitably administer tax and assigned motor vehicle laws.

Do it Right the First Time

Effectively communicate and build working relationships with all customers

Better Tools for Better Results

Deliver quality products and services

Allow Great People to do Great Work

Create and maintain a work environment where people excel and productivity is enhanced

Make Compliance Easier, Evasion Harder

PURPOSE

We administer the following taxes and fees:

- Sales and use taxes, including numerous local option taxes
- Personal income, corporate income and gross receipts taxes
- Tobacco, telecommunications, insurance and other miscellaneous taxes

- Determines that taxes due have been reported properly
- Provides education to taxpayers in proper tax accounting methods
- Enhances voluntary taxpayer compliance

Processing Division

- Designs and prints publications and forms
- Deposited over \$7 billion in gross revenues received by the Tax Commission
- Processes, enters data, scans or microfilms and archives 2.3 million paper and electronic returns annually

KEY PERFORMANCE MEASURES

The Utah State Tax Commission strives with diligence to maximize our resources and streamline our processes as we face the impacts of declining state and national economic conditions. Improved customer service is achieved through employee development and technological advancements. Tax Commission services to Utah's residents, businesses and government agencies continue to be more accurate, quick and convenient than in previous years. The costs of these services remain low while Tax Commission employees continue to be more efficient in carrying out their responsibilities.

Our employees focus on three main areas to improve service:

- 1) Quality systems and business processes
- 2) Timely service, and
- 3) Electronic filing and payment options

Quality Systems and Business Processes

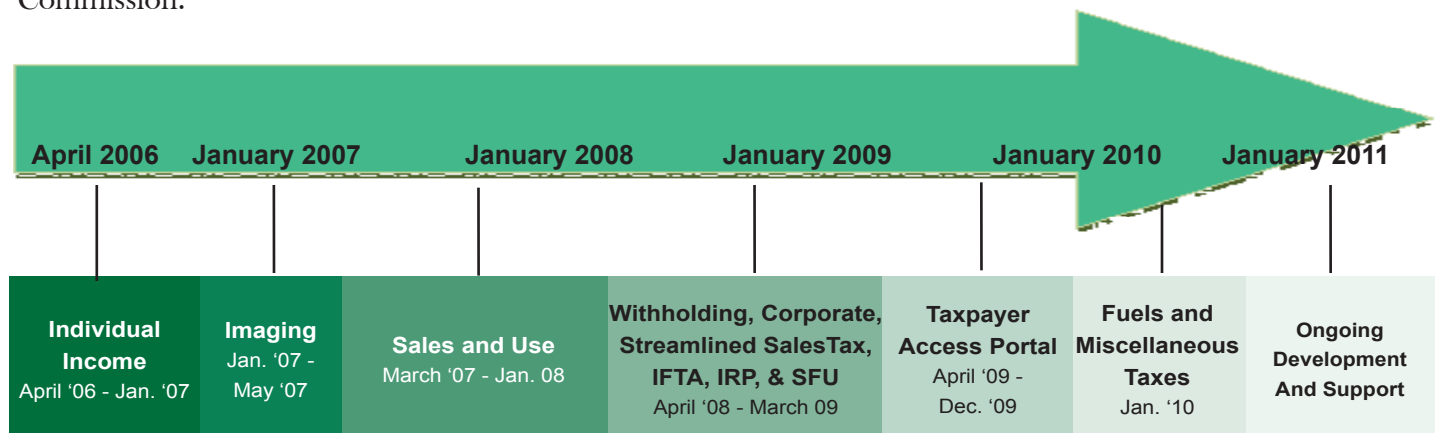

Tax and motor vehicle administration processes rely heavily on automated computer systems to accurately record and retain citizen information on millions of transactions annually. These systems are used extensively to ensure that citizens pay their fair share of financing the cost of operating state and local governments. Tax systems provide information for audits and identify delinquent account balances. Tax evaders are more easily identified using new technologies.

In response to these needs, the Tax Commission is in the fifth year of a multi-year project to upgrade our tax computer system. The project has integrated systems to enhance tax compliance, improve customer service, and provide flexibility for changes in the state's tax system.

This tax modernization project is a joint effort of the Tax Commission and the State Department of Technology Services to replace aged computer tax systems. We have replaced the core tax systems and will continue to replace other miscellaneous systems with available resources. The results will serve as a foundation for the future and provide continued improved customer service and tax administration at the Utah State Tax Commission.

TIMELY SERVICE

Revenue Deposits

The timely collection and deposit of revenues in state accounts is critical for state investment purposes and to provide funds for government services.

State guidelines require all deposits of funds within 72 hours of receipt. Our goal is to deposit funds within 24 hours during non-peak hours of receipt, and within 72 hours during peak return deadlines.

Income Tax Refunds

The public expects and relies on timely income tax refunds. Technological advancements and employee training have reduced the time taxpayers wait to receive state income tax refunds.

Timeliness of refunds generally depends on how early the taxpayer files the return and if they file electronically or by paper. Income tax refunds are targeted to be processed within 15 days of receipt, which occurs most of the time. Exceptions occur when there is an error or unusual item. Those returns are marked for review and will take longer to process.

Citizen Assistance

Since citizens are required to file tax returns and register their vehicles, the Tax Commission strives to provide timely and quality responses to all telephone inquiries in order to assist the people in completing their transactions.

The Division of Motor Vehicles and Taxpayer Services Division continue to provide assistance to the large number of citizens who contact the Tax Commission by telephone. When a customer discontinues a phone inquiry before contacting an employee, it is classified as an abandoned call. Abandoned calls have been maintained at low levels in recent years.

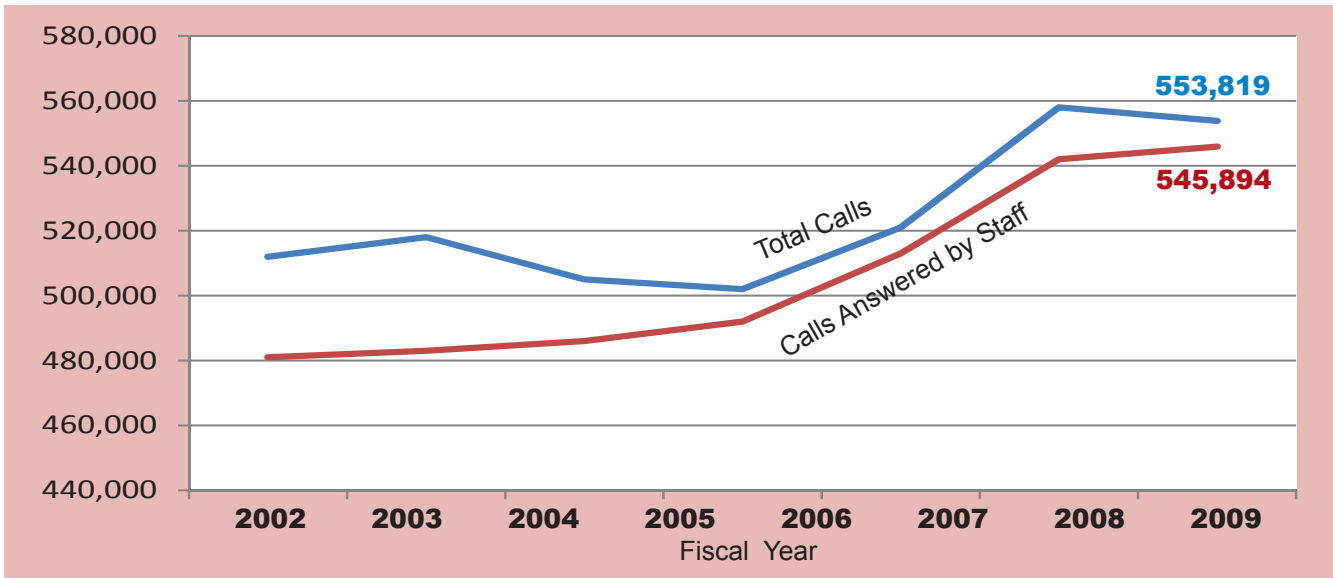

The Taxpayer Services Division is at the center of addressing and solving specific taxpayer questions. Employees provide customer service and maintain front-line contact with the public on tax issues. This division also collects delinquent taxes and encourages future compliance with tax laws. The Division of Motor Vehicles answers all vehicle-related questions from citizens. The charts below and on the following page show the results made in the timely responses to those calls.

TAXPAYER SERVICES TELEPHONE ASSISTANCE

This past year, division management made changes to allow our highest level, most skilled employees staff the frontline call center. This has resulted in more efficiency and resolution of taxpayer issues with one call. As a result of providing better service, we believe this has resulted in a reduction in the volume of incoming calls.

DMV TELEPHONE ASSISTANCE

This chart shows improvements during recent years of customers calling DMV and talking directly with an employee.

Wait Times

Citizens visiting the Division of Motor Vehicles office expect efficient service in the least amount of time. This chart shows the average wait times for large state operated motor vehicle offices. These include all Wasatch Front offices and the Washington County office. Wait times vary significantly from office to office depending on the day of the week, day of the month and time of day. Due to these considerations, the Division of Motor Vehicles continues to focus on wait

time trends rather than specific daily wait times.

The goal of the Division of Motor Vehicles is to keep average wait times shorter than 20 minutes. To reach this goal, the division utilizes seasonal employees to meet customer service demands during peak periods. Average wait times have not increased since the implementation of the 4-10 work week in August 2008. Monthly wait times recorded by office automated systems are used to calculate the average quarterly wait times as indicated on the chart below.

DMV WAIT TIMES

This chart shows the average times in minutes by quarter in the Wasatch Front DMV offices for the past six years.

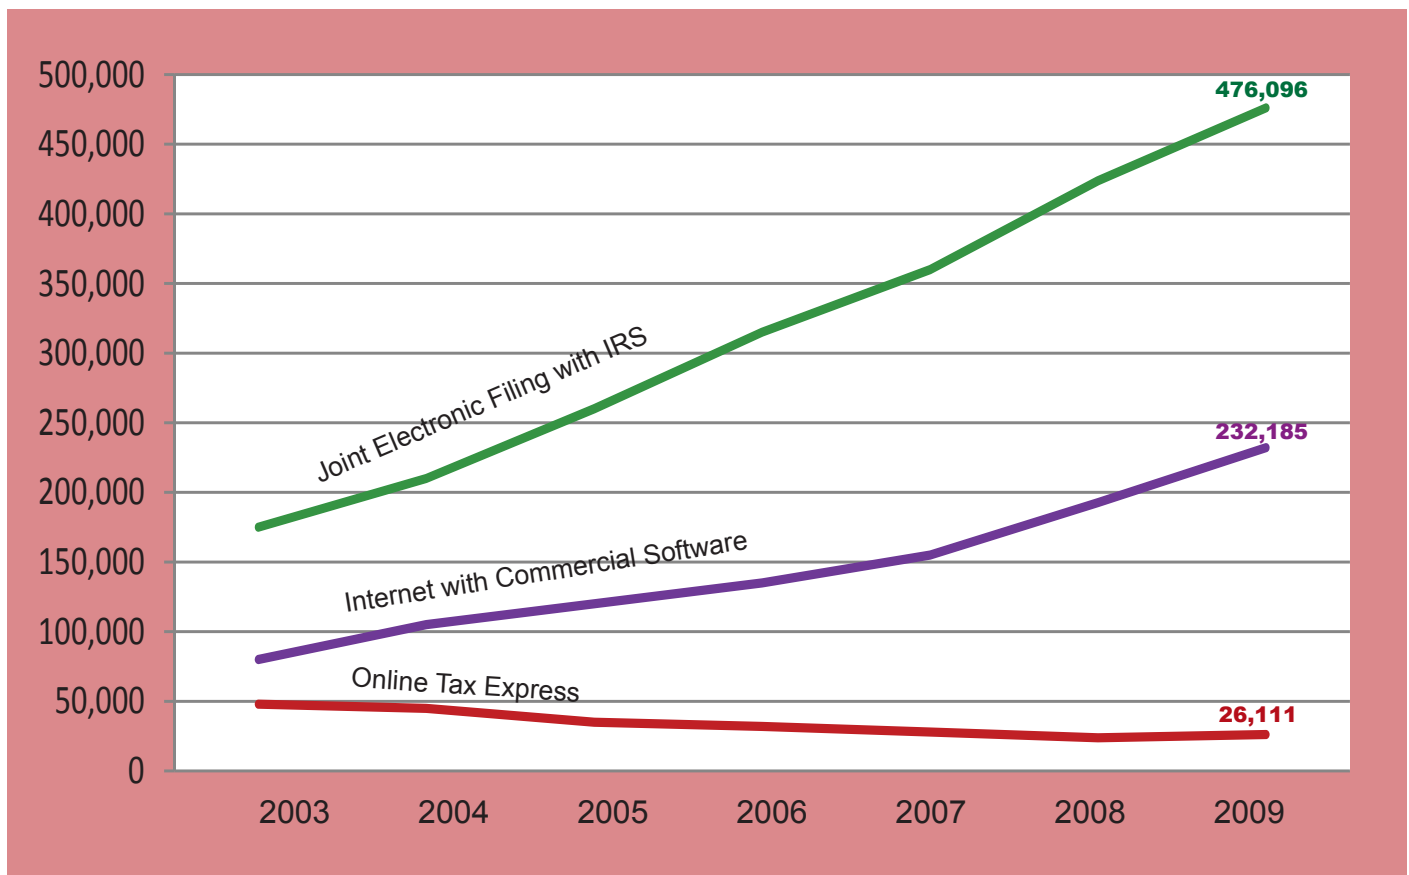

Electronic Filing and Payment Options

The Tax Commission continues to use technological advancements and alternative methods of filing income tax returns to keep pace with a growing population and economy. Over 1.1 million state income tax returns are filed annually and we continue to encourage taxpayers to use electronic filing. Utah taxpayers have three electronic filing options available: 1) commercial software packages; 2) Joint electronic

filing (JELF) with the IRS; and 3) TaxExpress, the online option for Utah taxpayers. Electronic filing is faster, more accurate, and saves taxpayers' dollars.

As we continue to promote the use of electronic filing options, the percent of traditional paper returns filed decreases, which helps us keep pace with growth. We expect the popularity of these options to continue in upcoming years.

ELECTRONIC FILING OF INCOME TAX RETURNS

This chart shows the popularity of electronic filing options by fiscal year as the number of income tax returns continues to grow.

All motor vehicles, off-highway vehicles and boats operating in Utah must be licensed and registered by the Division of Motor Vehicles. Since documentation is required for some transactions, such as titles required for new vehicles, these transactions must be completed in a DMV office. However, many transactions, including most registration renewals, can be completed electronically or by contracted private companies (often referred to as third parties). Third

parties include authorized vehicle dealers, and licensed inspection or emission stations.

The Tax Commission encourages citizens to complete renewal transactions through the Internet, mail and authorized third parties. As more citizens complete transactions through these options, the current staff is able to meet the demands of a growing population that needs to visit an office. Please see chart on the following page.

DMV RENEWALS BY FUNCTION

This chart shows that the number of DMV transactions conducted through our Internet options and third-party providers continues to grow, while office transactions remain about the same. Third-party transactions include those completed by commercial contractors or other agencies outside of DMV offices.

MOTOR VEHICLE ENFORCEMENT

The Motor Vehicle Enforcement Division (MVED) is responsible for investigating violations of the Motor Vehicle and Motor Vehicle Business Regulation Acts. MVED licenses and regulates motor vehicle dealers, dismantlers, body shops and other related businesses.

The division also investigates complaints against motor vehicle dealers which include: odometer roll backs, salvage violations, and title fraud.

MVED investigators are experts in the field of Auto Theft. Law Enforcement agencies throughout the state request assistance and training from division investigators. MVED actively investigates theft rings, chop shops, and other crimes involving motor vehicles. MVED uses the latest technology to recover several hundred stolen vehicles a year, making numerous arrests. The division is also responsible for enforcing motor vehicle registration and insurance laws.

REVENUE COLLECTION AND DISTRIBUTION

FISCAL YEAR 2009 TAX REVENUE SUMMARY

Tax Revenues

Decreases in major state revenue sources coincided with declines across all sectors of Utah's economy. Net tax revenues, collected by the Tax Commission, fell from \$7.3 billion in FY2008 to \$6.5 billion in FY2009, a loss of 10.5 percent.

General and Education Fund

Revenues derived from the major nine sources of revenue (sales, income, corporate franchise, insurance, beer, cigarette, tobacco, oil and mining severance taxes), comprising 95 percent of the General and Uniform School Fund, dropped from \$4.99 billion to \$4.38 billion between FY2008 and FY2009, a 12.2 percent decrease.

Income and Corporate Taxes

Individual income tax collections declined by 10.4 percent to \$2.3 billion. Withholding on wages decreased by \$173 million (8.1 percent) and final payments fell by \$100 million (22.1 percent). Mineral production tax withholding increased by \$8.6 million (36.3 percent).

The corporate franchise and income tax, including mineral production withholding, decreased from \$418 million to \$275 million between FY2008 and FY2009, a 34.3 percent decrease.

Sales Tax

Sales and use taxes, net of restricted funds, decreased by 11 percent. When restricted revenue is included, particularly transportation earmarks, state sales and use taxes dropped by 9.4 percent.

There was a decline in taxable sales and purchases, between 2008 and 2009, the most recent full year that data is available. This is attributable to reduced consumer and business spending due to increasing unemployment, declining wealth and increasing credit restrictions, particularly during the fourth quarter of 2008. Although mining showed a large increase of 91.3 percent, construction, manufacturing and wholesale all experienced losses between 18 and 26 percent. Retail sales fell by 0.1 percent, where only the general merchandise category registered positive growth at 7.3 percent.

Transportation Fund

The three major transportation fund revenue sources fell from \$397 million to \$372 million, a decrease of 6.3 percent between FY2008 to FY2009. Individually, revenues from the special fuel taxes declined by 13.3 percent, motor fuel tax by 3.8 percent and motor vehicle registration fees 1.3 percent.

GENERAL FUND

TOTAL COLLECTION - \$1,802,268,733

The Legislature appropriates monies for general government and higher education from the General Fund. Some General Fund revenue is also used to fund the public school system. The largest single source of revenue comes from the State sales and use tax.

TRANSPORTATION FUND

TOTAL COLLECTIONS - \$724,220,982

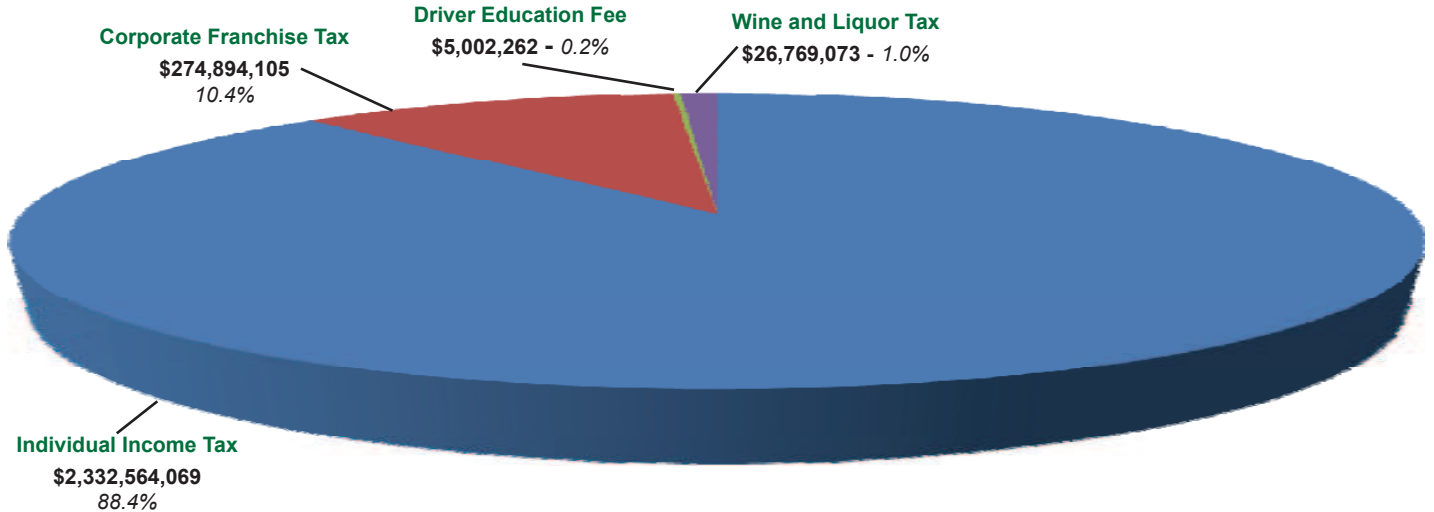

The Utah Constitution requires taxes imposed on sales of motor fuel only be used for specific highway purposes.

EDUCATION FUND

TOTAL COLLECTIONS - \$2,639,229,508

The Utah Constitution requires the state income tax only be used to fund the state's public education and higher education systems. As shown in this chart, the Education Fund is largely composed of revenues generated by individual income and corporate franchise taxes. Gross receipts taxes and radioactive waste taxes are included in those amounts.

TRUST AND AGENCY FUND

TOTAL COLLECTIONS - \$1,211,584,103

The Trust and Agency Fund includes taxes collected on behalf of public and private entities outside of Utah State government. City and County sales taxes, pensions, and trust funds are examples of the accounts in this fund.

INCOME TAX

Individual income taxes, corporate income taxes and franchise taxes in Utah are based on income. As specified in the Utah Constitution, all these revenues are used strictly for public and higher education.

The Legislature made significant changes to the individual income tax during the past four years.

For the 2008 tax year, with returns generally filed by April 2009, the traditional income tax rate using multiple rates was no longer imposed. The tax rate under the “single rate” is 5 percent and most taxpayers are able to claim one or more new non-refundable credits, including a taxpayer tax credit and a retirement tax credit.

The taxpayer credit calculation incorporates a taxpayer’s federal personal exemptions and standard deduction or itemized deductions. The retirement tax credit applies to those age 65 or older or those under age 65 with certain retirement income. Above certain income levels, these credits phase out as income increases. Existing tax credits available under the individual income tax - such as low income housing, historic preservation and at-home parent, etc. - continue under the new single rate individual income tax.

FY2009 Revenues: \$2,332,564,069

(Individual income tax revenues include withholding amounts and \$12,991,983 in mineral production withholding taxes.)

Corporate Income Taxes

The corporate franchise and income tax rate is 5 percent of Utah apportioned net income, with a \$100 minimum tax per corporation included in a combined report.

The gross receipts tax is an in-lieu tax imposed on gross receipts of corporations other than religious or charitable institutions operating in the state that are not otherwise required to pay income or franchise taxes. The Legislature also imposes the gross receipts tax on electrical corporations whose property tax liability was decreased as a result of property tax reductions authorized by the 1995 Legislature.

A percentage of gross receipts at commercial radioactive waste facilities is imposed on the specific types of waste. These percentages range from 5 to 12 percent, depending on the specific type of waste received.

FY2009 Revenues: \$274,894,105

(Corporate franchise tax, gross receipts tax, and the radioactive waste tax revenues include \$19,487,974 in mineral production withholding taxes.)

Individual Income Tax Withholding

An employer must withhold state income tax from employee earnings if the employer:

- 1) Does business in Utah or obtains any income from Utah sources; and
- 2) Pays wages to individuals who perform services for that employer in the State of Utah.

Employers are liable to withhold taxes on employee wages using Tax Commission schedules.

2007 CORPORATE INCOME TAX

In fiscal year 2009, \$274,894,105 in corporate franchise tax, gross receipts tax, and radioactive waste revenues were received by the State. These sources of revenue were down 34 percent compared to fiscal year 2008. All corporate taxes are directed to the Education Fund which is used to finance public schools and higher education.

The charts below show the number of corporations classified by their economic presence in the state and their share of taxes paid. The statistics are for 2007 tax year returns for businesses who filed as C-corporations. The top chart shows the number of businesses and the percent of business they do in Utah defined as the average share of the sales made,

property owned, and wages paid within the state. The bottom chart shows the share of taxes paid for each business share category.

A fairly large share of the number of corporations conduct a relatively small percentage of their business in Utah. For tax year 2007, 36 percent of filers reported less than five percent of their business activity taking place in Utah, but paid 54 percent of total corporate taxes. Corporations operating solely in Utah accounted for 57 percent of total businesses and paid only 10 percent of total corporate taxes. A significant share of Utah corporate taxes are paid by large multistate corporations.

SALES TAX

Sales taxes were first introduced in Utah as a revenue source in 1933 when property tax collections dropped dramatically because of the Great Depression. The use tax was added in 1937 to complement the existing sales tax. Use tax is imposed on taxable transactions involving tangible personal property purchased outside Utah that the purchaser stores, uses or consumes within the state.

STATE SALES AND USE TAX

The Utah State Tax Commission administers all state and local sales and use taxes. The state sales and use tax of 4.7 percent applies to sales of tangible personal property made within the state and retail sales of meals, admissions to places of amusement, intrastate communication and passenger service, gas and heat utility service, commercial electric, hotel and motel accommodations and certain other services.

Retailer licenses are issued without a fee and retailers are required to collect the tax from customers. The Tax Commission collects the tax from retailers. Charges for residential use of electricity and fuel are taxed at a rate of 2 percent.

Use tax is imposed on taxable transactions where the purchaser remits the tax directly to the Tax Commission. The two taxes are compensating taxes, one supplementing the other, but cannot be applicable to the same transaction. The rate of the tax is the same.

PUBLIC TRANSIT TAX

There are several components to this tax, including the following:

1) The 0.25 percent public transit tax that applies to the purchase price on transactions subject to the state sales tax. This applies only in localities where voters have approved the tax.

2) Salt Lake, Davis, and Weber counties have approved the 0.25 percent additional public transit

sales tax to fund a fixed guideway and expand the mass transit transportation system.

3) The 2007 Legislature passed a bill which repealed the 0.25 percent public transit tax and replaced it with a new public transit tax effective Jan. 1, 2008 at a rate of up to 0.30 percent.

COUNTY OPTION SALES TAX

A county that reduces its certified property tax rate by the same amount it expects to gain in sales tax, may impose a county option sales and use tax of 0.25 percent. Public hearings, advertising and voter approval are required. Retailers are liable to collect the tax under the same conditions as the sales and use tax. The Tax Commission acts as the agent for the participating localities. All counties impose this tax.

BOTANICAL, CULTURAL, RECREATIONAL AND ZOOLOGICAL TAX

The botanical, cultural and zoological tax, often referred to as ZAP and other various acronyms, may be imposed at the rate of 0.10 percent (1/10th of 1 percent of the purchase price on transactions taxed under the state's sales and use tax law. This tax may be adopted in any county or city in which voters have approved the tax to fund recreational facilities and botanical, cultural and zoological organizations. Retailers are liable to collect the tax under the same conditions as applicable for sales and use tax. The Tax Commission acts as the agent for the participating localities. The cities of Woods Cross, West Bountiful, Duchesne, and Cedar Hills, imposed this tax for the first time beginning April 1, 2009. This followed November 2008 elections in each of those municipalities.

COUNTY TRANSIENT ROOM TAX

The transient room tax is applied to the rental charge for any suite, room or rooms in a motel, motor court, inn, campground, or similar public accommodation for fewer than 30 consecutive days. This tax is in addition to the applicable sales tax. The Tax Commission acts as the agent for the counties, but 1990 legislation allows counties to collect the tax themselves. Davis, Duchesne, Emery, Garfield, Grand, Utah and Rich counties collect their own transient room tax. Effective Oct. 1, 2006, the tax changed from a rate not to exceed 3 percent to a rate not to exceed 4.25 percent.

RESORT COMMUNITIES TAX

A municipality may levy the resort communities tax if the transient rooms capacity of the municipality is greater than or equal to 66 percent of its Census population.

Qualifying municipalities may impose a tax levy of up to 1.1 percent of the purchase price on a transaction in the state sales tax. An additional 0.50 percent may be imposed upon voter approval, or if a municipality imposes a license fee or tax based on gross receipts under Section 10-1-203 on or before Jan. 1, 1996. Those municipalities may impose the additional 0.50 percent with voter approval if they meet certain statutory criteria. Retailers are liable for the collection of the taxes. The Commission collects and distributes the tax for local governmental units.

MUNICIPAL HIGHWAYS TAX

A municipality in which the public transit tax is not levied may impose a sales and use tax of 0.30 percent of the purchase price on transactions subject to the state sales tax. Voter approval may be required under certain circumstances. Revenues from this tax must be used for the construction and maintenance of highways under the jurisdiction of the municipality. Retailers are responsible to collect the tax under the same conditions as the sales and use tax. The Tax Commission collects and distributes this tax for participating localities. Since this option tax was first approved in 1998, 25 cities and towns have imposed it.

RURAL HOSPITAL TAX

A county of the fourth, fifth or sixth class (or city within those classes of counties) may impose a sales tax of up to 1 percent to fund rural county or city health care facilities. Facilities located in fourth (population 11,000 to 31,000), fifth (population 4,000 to 11,000) or sixth class (population less than 4,000) that are not in Standard Metropolitan Areas are eligible to impose the tax. Daggett, Garfield, Kane, and Uintah counties as well as Beaver City impose this tax.

PROPERTY TAX

Property taxes are levied at the local level based on valuations set by county assessors and, in the case of certain properties, by the State Tax Commission. Counties collect the taxes and distribute them to the individual taxing entities. The Tax Commission values centrally assessed

REAL AND PERSONAL PROPERTY TAXES AND RATES

Property tax rates are set by local entities, such as counties, cities, towns, school districts, and special taxing districts. A statewide rate is also levied to help finance schools in Utah. Those rates are applied against the taxable value of real and personal property, with the exception of motor vehicles.

property, which includes mines, railroads, and utilities that cross county lines. All monies collected from property tax are distributed to school districts, local government entities, and special districts.

MOTOR VEHICLE FEES

Utah motor vehicles - including most boats, recreation vehicles and trailers - are subject to a fee-in-lieu of the personal property tax. Passenger vehicles are assessed using a fee schedule based on the age of the vehicle.

Boats, trailers, and recreational vehicles are subject to fees based on age, length, and other factors.

This chart summarizes the distribution of property tax revenue in 2008.

PROPERTY TAX VALUES AND RATES

With the exception of some state assessed properties, county assessors value all taxable real property, personal property, and motor vehicles. These classifications are referred to as locally assessed property. The Property Tax Division of the State Tax Commission values centrally assessed property which includes utilities, mines, and railroads.

All taxable property in Utah is valued at 100 percent of its fair market value, based upon its status as of January 1 of each year. Fair market value, less any exemptions, equals taxable value. Taxable value is the value against which the tax rate is applied to compute taxes charged. Agricultural land is taxed at the value for agricultural purposes.

By state law, primary residential properties receive a 45 percent exemption. Primary residential property is any dwelling used as a person's primary residence.

These include homes, condominiums, apartments, rental properties, and up to one acre of land. The taxable value of all other properties, except agricultural land, is 100 percent of fair market value.

Utah motor vehicles are charged a fee-in-lieu of property taxes. The fees for most vehicles are based on the age of that vehicle.

Tax rates are expressed as a percentage of taxable value. Tax rates are set by local governments and special districts under a statutory process known as "Truth in Taxation." This process requires public notice and hearings in the event a taxing entity plans to increase its budgeted revenues above the budget from the previous year, exclusive of tax revenue from new growth.

The table below summarizes taxes charged and average tax rates by class of property. Detailed information is available at www.propertytax.utah.gov.

CENTRALLY ASSESSED PROPERTY

The Property Tax Division of the State Tax Commission is responsible for the valuation of mines, utilities, airlines, telecommunications, and motor and rail carriers. The market value of multi-state utilities is determined by unit value. This approach values all intrastate or interstate properties as a unit. The value is allocated to the State of Utah, and then to the counties where the property is located.

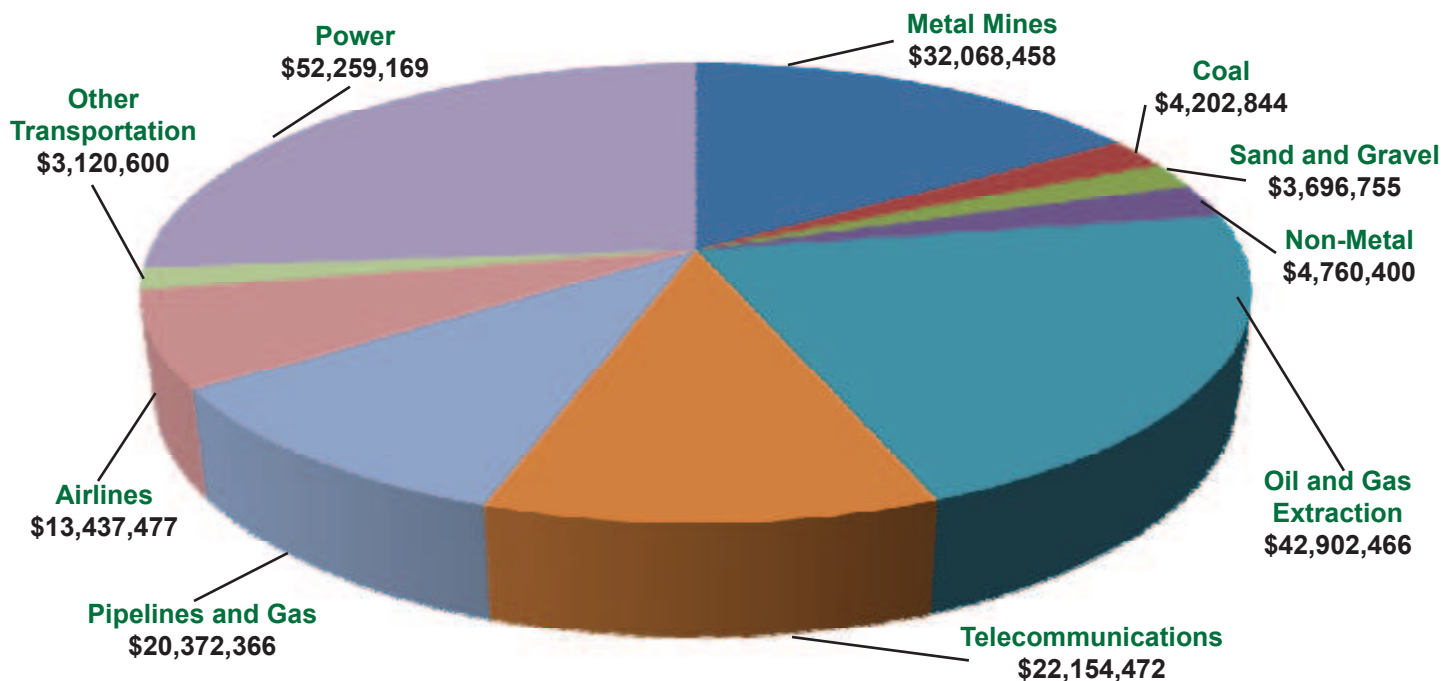

Properties of mining, gas, and oil companies are

physically valued to arrive at fair market present value or by capitalizing net revenue. Patented mining claims are valued at fair market value of the surface property. Listed below are the 24 largest centrally assessed companies for 2008 based on property taxes charged by the State of Utah. The ranking of the following centrally assessed property owners is as of May 1, 2008, and may change following an appeal.

PROPERTY TAX RELIEF

The State of Utah and county governments provided \$20,245,939 in property tax relief to 36,020 individuals in 2008. Tax relief is administered by county governments. About 28 percent of tax relief is state funded through the Circuit Breaker program. County government provides funds for tax relief to the indigent, blind, and veterans, and a portion of the Circuit Breaker program. (*Utah Code Ann. §59-2-1104 to 1109 and §59-2-1202 to 1220*)

Blind Up to \$11,500 taxable value of real and/or personal property owned by blind persons, their unmarried widow or widower, and/or minor orphan is exempt from property taxation.

Indigent An indigent abatement may be granted in an amount of 50 percent of the taxes levied, not to exceed \$816 for 2008. An indigent deferral may also be granted for all or any portion of the tax; however, interest accrues.

Disabled Veteran An exemption of up to \$219,164 in taxable value on a primary residence or non-business personal property may be granted to a disabled veteran, to the unmarried widow of the veteran or widower, and/or to minor orphans.

Low-Income Elderly Elderly and low income or widowed homeowners and mobile home owners may apply through the county for Circuit Breaker relief of up to \$816 for 2008. Elderly, low income renters may also be eligible and may apply for relief to the State Tax Commission.

OTHER TAXES AND FEES

The following taxes and fees are among the major revenue sources collected and distributed by the Utah State Tax Commission. Additional information on these and other taxes and fees is found on pages 16 to 18 of this report.

MOTOR FUEL TAX

FY2009 Revenue - \$235,481,153

Transportation Fund

Motor fuel is gasoline or gasohol used for any purpose other than the operation of aircraft. The motor fuel tax in Utah is 24.5 cents per gallon. There is an export exemption and an exemption or refund of tax on all government purchases. Importers, refiners and distributors are liable to report this tax. Refunds for off-highway agricultural use can be claimed as credit on Utah individual income or corporation franchise or income tax returns.

SPECIAL FUEL TAX

FY2009 Revenue - \$101,366,554

Transportation Fund

Special fuel is any fuel used to operate a motor vehicle on Utah public highways that is not taxed under the category of motor or aviation fuel. Diesel fuel is an example. The special fuel tax is 24.5 cents per gallon, the same as motor fuel. Beginning January 1, 2009, compressed natural gas is taxed at a reduced rate of 8.5 cents per gallon equivalent. Propane and electricity are exempt from the special fuel tax.

OIL AND GAS SEVERANCE TAX

FY2009 Revenue - \$70,995,789

General Fund

The oil and gas severance tax applies to all interest owners of oil, gas and natural gas liquids. It is based on the value at the well of oil and gas produced and saved, sold or transported from the field where it is produced. The tax rate ranges from 3 to 5 percent based on the value of the oil or gas and 4 percent for natural gas liquids.

PROPORTIONAL REGISTRATION FEE

FY2009 Revenue - \$14,113,596

Transportation Fund

Any resident or non-resident may proportionally register and license commercial vehicles. Vehicles that exclusively travel in Utah are not included in any proportional registration application. The formula for the fee is based on in-state and total fleet mileage.

AVIATION FUEL TAX

FY2009 Revenue - \$5,481,786

Transportation Fund - Restricted

Aviation fuel is fuel used exclusively for the operation of aircraft. The aviation fuel tax is 9 cents per gallon for non-federally certificated air carriers and 4 cents per gallon for federally certificated air carriers not purchased at an international airport and 2.5 cents per gallon if purchased at an international airport.

MINING SEVERANCE TAX

FY2009 Revenue - \$14,573,697

General Fund

The mining severance tax is 2.6 percent of the taxable value of metals or metalliferous minerals. The taxable value varies according to the type of mineral. This tax applies to extractors of gold, silver, copper, lead, iron, zinc, tungsten, uranium, vanadium and other metalliferous minerals.

MOTOR VEHICLE REGISTRATION FEE

FY2009 Revenue - \$34,917,295

Transportation Fund

Class B and C Road Funds

Fees are applicable for every motor vehicle, combination of vehicles, trailer, semi-trailer or vintage vehicle operated on public roads or highways. These fees apply to all motor vehicles unless they are specifically exempt.

HIGHWAY USE TAX (PROPORTIONAL REGISTRATION)

FY2009 Revenue - \$7,499,625

Transportation Fund

Proportionally registered vehicles based in a state other than Utah are subject to a highway use tax rather than county vehicle registration fees. The tax is based on registered weight.

OIL AND GAS CONSERVATION FEE

FY2009 Revenue - \$6,835,191

General Fund - Restricted

The oil and gas conservation fee is 0.2 percent of the value at the well of oil, gas and natural gas liquids produced and saved, sold, or transported from the production site. It applies to all interest owners in the well.

BEER TAX

FY2009 Revenue - \$8,567,379

General Fund

The beer tax is \$12.80 per 31 gallon barrel of beer. Bottled and canned beer are converted to barrel equivalents on returns. The Department of Alcoholic Beverage Control licenses distributors and local jurisdictions issue retail licenses.

WASTE TIRE RECYCLING FEE

FY2009 Revenue - \$2,609,478

Trust and Agency Fund

A \$1 recycling fee is imposed upon each purchase of a new tire 24.5 inches in diameter or less. The fee is paid by the consumer to the tire retailer at the time the new tire is purchased.

CIGARETTE AND TOBACCO TAXES

FY2009 Revenue - \$52,055,916

General Fund

Utah imposes a tax of 69.5 cents per package of 20 cigarettes and 86.875 cents per package of 25 cigarettes. An additional 35 cents per package of 20 cigarettes and 43.75 cents per package of 25 cigarettes is charged if cigarettes are from a non-participating manufacturer. The tax is generally paid by wholesalers and distributors who apply tax stamps to packages of cigarettes as payment of the tax. Cigarettes are also subject to regular state and local sales taxes.

All purchases of cigarettes and tobacco products over the Internet are subject to Utah state cigarette tax and sales tax. Cigarettes may only be purchased over the Internet by licensed individuals. Internet retailers are required to provide sales data to the Tax Commission detailing shipments of cigarettes and tobacco products to Utah consumers. Tobacco products, other than cigarettes, are taxed at 35 percent of the manufacturers sale price delivered to Utah. Moist snuff is taxed at 75 cents per ounce.

Cigarette licenses and fees are also included in the revenue total in this category.

INSURANCE PREMIUM TAX

FY2009 Revenue - \$82,979,386

General Fund

The Insurance Premium tax is:

- 2.25 percent of net premiums on property, casualty, life and other risks located in Utah.
- 5.50 percent of workers compensation insurance beginning January 1, 2009.
- 2.26 percent of motor vehicle insurance premiums for motor vehicle liability, uninsured motorist and personal injury protection.
- 0.45 percent of title insurance premiums.

Did you know . . .

that over 1 million people visited Utah DMV offices last year who could have handled their business by mail, the Internet or at one of the "On the Spot" renewal stations?
