Annual Report

On the Cover

Four 11-foot bronze sculptures, collectively called "The Great Utahns" grace Utah State Capitol

rotunda. Artists Eugene Daub, Robert Firmin, and Jonah Hendrickson created the unique pieces of art.

Arts and Education (top left) focuses on artistic and intellectual development in Utah. The adult muse offers educational guidance to the child, who represents the youth of Utah. Immigration and Settlement (top right) symbolizes the value of welcoming new Utah citizens from all backgrounds. The spirit barely touches the girl's shoulder, providing loving encouragement but leaving the girl to decide for herself whether she will settle in Utah. Science and Technology (bottom left) reminds us of the importance of past, present, and future scientific and technological growth in Utah. Land and Community (bottom right) is

unique among the niche sculptures as the youth is represented by a Rocky Mountain elk calf. The composition suggests that a community filled with the strength of industry and wisdom will be up to the task.

January 15, 2019

To the Honorable Governor Gary R. Herbert and members of the Utah State Legislature:

On behalf of the Utah State Tax Commission, we are pleased to submit to you the annual report for the fiscal year ending June 30, 2018.

The Tax Commission experienced another successful year in the collection and distribution of state taxes. We continue to progress in a multi-year modernization project to upgrade the State's tax computer system. The project has integrated systems in order to enhance tax compliance, improve customer service, and provide flexibility for changes in the state's tax laws. Our dedicated staff along with system contractors have successfully replaced and upgraded the core tax systems.

Total collections from all sources administered by the Tax Commission during the 2018 fiscal year totaled \$10,204,689,481. This represents an increase of \$858,146,132 or 9.2 percent increase in total collections from fiscal year 2017. The Education Fund increased \$518,587,747 or 13 percent; the Transportation Fund unrestricted revenues increased \$11,235,443 or 1.8 percent; and the General Fund (not including restricted amounts) increased \$180,571,855 or 8.3 percent.

We remain steadfast in our commitment of serving the people of Utah through fair administration of state tax and assigned motor vehicle laws.

Sincerely,

ohn L. Valentine

Tax Commission Chair

Executive Director

Commission Office

Commissioner Rebecca Rockwell, Commission Chair John L. Valentine, Commissioner Michael J. Cragun, and Commissioner Lawrence C. Walters are appointed by the Governor to administer and supervise the state's tax laws.

Utah State Tax Commissioners

The Governor, with the consent of the State Senate, appoints four state tax commissioners. The Constitution of Utah directs the Tax Commissioners to administer and supervise the state's tax laws.

To separate tax appeals and agency oversight from agency functions, the Tax Commissioners, in consultation with the Governor and with the consent of the State Senate, appoint an executive director to oversee the agency's day-to-day operations.

The Tax Commissioners primarily hear appeals on 37 different tax types. With the assistance of administrative law judges and the appeals support staff, the Tax Commissioners hold hearings and issue orders or final rulings on the various appeals before them.

Tax Commissioners hear quasi-judicial hearings on state tax matters. Taxpayers who disagree with tax decisions made by Commission employees and/or county boards of equalization may appeal to the Commission.

By statute, the Tax Commissioners also manage several other functions. These include the economic and statistical unit, internal auditing, and public information. Other commitments include coordination with the Utah State Legislature, local governments and participating in national organizations.

Appealed Cases by Type

Administration

The Utah State Tax Commission collects and distributes over \$10.2 billion in state and local revenues. The primary Tax Commission responsibilities include the following:

- Process revenue and tax returns and update taxpayer information
- Audit tax returns and other information for accuracy and compliance
- Collect delinquent taxes
- Assist taxpayers with compliance and resolve account issues
- Register and issue titles for Utah motor vehicles and motor carriers
- Regulate the automobile sales industry and enforce motor vehicle laws including vehicle fraud and stolen vehicles

The Tax Commission employs 752 people in seven divisions to carry out these responsibilities.

#1 Timely Service

A. Revenue Deposits

Importance: The timely collection and deposit of revenues in state accounts is critical for state investment purposes and to provide funds for government services.

Action: State guidelines require all deposits of funds within 72 hours of receipt. Our goal is to deposit funds within 24 hours receipt and within 72 hours during peak return periods. This goal is met 100 percent of the time.

B. Income Tax Refunds

Importance: The public expects and relies on timely income tax refunds. Technological advancements, including electronic filing options, have reduced the time taxpayers wait to receive state income tax refunds.

Action: Timeliness of refunds generally depends on how early the taxpayer files the return. Income tax refunds are targeted to be processed within 15 days of receipt which occurs 80 percent of the time. Exceptions occur when there are edits or errors. Those returns are then marked for review.

C. Citizen Telephone Assistance

Importance: Since citizens are required by law to file tax returns and register their vehicles, we provide timely quality responses to all telephone inquiries in order to assist people with their transactions.

Action: The Taxpayer Services and Motor Vehicles divisions assist citizens who contact the Tax Commission by telephone. Taxpayer Services is at the center of addressing and solving specific taxpayer questions. Employees provide customer service and maintain front-line contact with the public on tax issues. This division also provides phone assistance, collects delinquent taxes, and encourages future compliance with tax laws.

The Division of Motor Vehicles answers all vehicle-related questions from citizens. Charts on this and succeeding pages illustrate the number of calls and the response to those calls.

D. DMV Wait Times

Importance: Citizens visiting Division of Motor Vehicle offices deserve efficient service in a quick, friendly manner. Wait times vary significantly from office to office depending on the day of the week, day of the month, and the time of day. Due to these considerations, the Division of Motor Vehicles' focus continues to be on wait time trends rather than specific daily wait times.

Action: The Division of Motor Vehicles' goal is to keep the average wait time shorter than 20 minutes and no longer than 30 minutes during peak periods. To reach this goal, the division utilizes seasonal employees to meet customer service demands during peak periods. Monthly wait times recorded by electronic management systems are used to monitor the average wait time as well as the maximum wait time.

#2 Electronic Filing and Payment Options

A. Income Tax Returns

Importance: The Tax Commission continues to use technological advancements and alternative methods of filing income tax returns to keep pace with a growing population and economy. Over one million income tax returns are filed annually and the Tax Commission continues to encourage electronic filing. Utah taxpayers have these three electronic filing options available:

- 1) Commercial software packages
- 2) Modernized Electronic Filing (MEF) with the IRS and
- 3) Taxpayer Access Point (TAP), the state's free online option

The chart below shows changes in these three options over the past 12 years.

Action: We continue to promote the use of electronic filing options and expect the increased popularity of these options to continue. This helps offset the increase in the number of taxpayers filing returns due to Utah's population growth and other factors.

B. Motor Vehicle Transactions

Importance: All motor vehicles, off-highway vehicles and watercraft operating in Utah must be licensed and registered by the Division of Motor Vehicles (DMV). Some transactions, such as the issuance of a title on a new vehicle, must be completed in a DMV office since documentation is required. However, many transactions, including most renewals, can be completed electronically, by mail, or by contracted third parties.

Action: We encourage citizens to complete renewal transactions through the Internet, mail and authorized inspection stations. Use of these options has allowed the division to meet the demands of the growing population for a number of years. The charts on the following pages show growth in different types of renewal transactions and the increase in the total number of renewals.

#3 Quality Systems and Business Processes

Importance - The state's tax and motor vehicle administration processes rely heavily on automated computer systems. They are used to accurately record and retain information provided by citizens for millions of tax and motor vehicle transactions each year. On a daily basis these systems record large volumes of transactions and distribute multiple types of revenue and fees to hundreds of different state and local funds. Computer systems are used extensively by Tax Commission employees who help ensure that citizens pay their fair share of the cost of financing state and local government programs.

Action - With the support of the Governor and Legislature, the Tax Commission began a long-term project in 2006 to systematically replace its many old individually developed computer systems. This multi-year project has integrated agency systems using one core processing program, benefiting from use of the same core functionality as each of the systems is converted. The time line above shows the progress of the project.

This resulted in improved agency efficiency, improved customer service, enhanced citizen compliance and more flexibility to make system changes as the state's tax and motor vehicle system laws are modified. Imaging and payment processing updates and several property tax systems were updated during recent years.

The old computer systems have been converted to the new system in strategic phases. Benefits being realized from the systems already converted to the new core processing include the following:

- Consistent data entry, review and update screens across all converted systems
- Imaging options for improved customer service and internal review
- Image retention for all system communications to taxpayers
- One core system used for accounting, distributing, and billing
- Online citizen access for information updates
- Improved report and case management tools
- Consistent user view of account information
- Enhanced electronic filing options
- Real-time transaction processes and core system functions updated
- Improved employee training
- Tax evasion more easily identified and improved audit selection
- Citizen compliance enhanced

Citizen and Business Benefits

- Enhanced electronic filing options allow on-line access, review and update of accounts
- Returns and registration processes can be completed online
- Real-time process of most transactions
- Images of documents for improved customer service
- System retains functions of most transactions
- Effective government services are provided using one system for various functions

Operating Divisions

The Utah State Tax Commission collected over \$10.2 billion from a wide range of taxes of individuals and businesses in FY2018. The taxes include the following:

- Individual income tax
- Corporate franchise, income, and gross receipts taxes
- Sales and use taxes, including numerous local option taxes
- Beer, cigarette, and tobacco taxes
- Telecommunications, insurance premium and other taxes
- Oil, gas, and mining severance taxes
- Motor vehicle registration fees
- Employer withholding taxes
- Various fuel taxes

Administration

The activities of the administration division function as the hub of the Utah State Tax Commission. The following are the primary administrative components:

- Reviews legislation and drafts rules
- Oversees implementation of tax laws
- Investigates and prosecutes tax crimes
- Provides daily oversight and support of all other divisions
- Collects and distributes revenue to state and local governments in Utah
- Develops and manages budgeting and accounting functions of the agency
- Coordinates with the Department of Human Resource Management and Department of Technology Services regarding Commission issues

Auditing Division

- Audits all state and local taxes as administered by the Tax Commission
- Determines that taxes due have been reported properly
- Provides information to taxpayers on proper tax reporting
- Enhances voluntary taxpayer compliance

Taxpayer Services Division

- Maintains front-line contact with the public
- Provides direct customer service to individuals and businesses
- Collects delinquent taxes and encourages compliance
- Administers waiver of penalty/interest and offers-in-compliance programs
- Offers tax education classes and workshops on state taxes to businesses and other state agencies

Processing Division

- Designs all Tax Commission, publications, forms, and instructions for Internet
- Deposited over \$10 billion in gross revenues received by the Tax Commission
- Processed 2,074,975 electronic tax returns, 479,213 paper returns, and imaged 7,034,975 motor vehicle documents

Property Tax Division

- Appraises and audits all centrally-assessed properties including mines, utilities, airlines, railroads, motor carriers, and telecommunication providers
- Administers Truth-in-Taxation law among counties, cities, towns and special service districts
- Works with local officials to assure equitable and accurate assessments and taxation

Division of Motor Vehicles

- Collected \$486 million in taxes and fees
- Processed a total of 4,992,220 transactions which included 3,149,021 vehicle registrations
 - Trains staff of contracted counties to administer motor vehicle programs state
- Provides vehicle identification services to law enforcement, financial institutions and individuals throughout the State

Motor Vehicle Enforcement

- Investigates auto theft and other motor vehicle-related crimes throughout Utah
- Recovered 218 stolen vehicles, valued at \$1,605,702
- Handled 5,550 complaints and cases
- Protects Utah citizens from motor vehicle commerce fraud

Tax Commission Mission

Our mission is to collect revenue for the State of Utah and local governments and to equitably administer tax and assigned motor vehicle laws.

Do It Right the First Time

Effectively communicate and build working relationships with all customers

Better Tools for Better Results

Deliver quality products and services

Allow Great People to do Great Work

Revenue

For the eighth consecutive year, Utah continued to post healthy revenue gains as most sectors of the economy continued to expand. Net revenue collections by the Tax Commission rose 9.2 percent in FY 2018, from \$9.35 billion to \$10.2 billion. Major economic indicators such as personal income, wages, and employment remained positive in FY2018.¹

General and Education Fund

Major sources of unrestricted tax revenue in the General and Education funds rose 11.4 percent in FY 2018, exceeding the February forecast of 7.4 percent. The nine major tax revenue sources within the General and Education Funds are sales, income, corporate franchise, insurance, beer, cigarette and tobacco, oil and gas, and mining severance taxes. They comprise 95 percent of revenue (excluding federal funds) in the General and Education Funds.

Individual and Corporate Income Taxes

Revenue from individual income taxes increased 10.8 percent, or \$389.5 million, to \$3,999 million in FY 2018. Withholding revenues, which totaled \$3,225.9 million, grew by 8.4 percent in FY 2018 reflecting Utah's strong labor market. Gross final payments, which are a function of non-wage income, increased 16 percent to \$1,277.7 million. Corporate tax revenues, which tend to be volatile, jumped 36.4 percent to \$447.9 million in FY 2018. Corporate before-tax profits were up 3.2 percent in 2017. However, other factors may have influenced income tax collections including the uncertain impacts of federal tax reform (H.R. 1, Tax Cuts and Jobs Act, enacted on December 22, 2017). This may have led to increased business activity and taxes in the short-term, although it is difficult to isolate this impact from underlying economic conditions. Mineral production withholding revenues rose 42.7 percent as a result of a rebound in Utah's extractive industries.

Sales Tax

State sales and use tax unrestricted General Fund revenue increased 8.7 percent to \$2,018.75 million in FY 2018. Growth in sales tax revenue has been tempered by growth in earmarks including those used to fund transportation, water, and natural resources projects.² Total state sales tax revenue, before earmarks were taken out, rose 9.0 percent, from \$2,442.1 to \$2,662.3 million in FY 2018. This was fueled by total calendar year 2017 gross taxable sales growth of 8 percent. Taxable business equipment purchases and sales, excluding utility sales (which are largely residential energy sales), were particularly strong, increasing 10 percent in calen-

dar year 2017. The retail trade sector rose 8.4 percent in calendar year 2017, enhanced by revenue collections from online retailers. Taxable services rose 4.4 percent, assisted by robust growth in accommodations, and arts, entertainment and recreation.

Severance and Excise Taxes

The recovery in Utah's oil, gas, and mining industry led to a 55.1 percent jump in General Fund unrestricted severance tax revenue for FY 2018 as prices and production rebounded. Total unrestricted beer, cigarette, and tobacco tax revenue fell 3.5 percent in FY 2018. Beer and cigarette tax revenues, not including earmarks, dropped 9.5 and 4.5 percent, respectively, as consumption of these products decline, and consumer preferences shift to other products such as e-cigarettes. Revenues from tobacco products, however, grew 2.8 percent.

Transportation Fund

Utah's major unrestricted Transportation Fund revenues edged up 1.4 percent in FY 2018. While motor fuel taxes increased 1.5 percent, special fuel taxes, including CNG and LNG, were flat. Legislation (House Bill 362) from the 2015 General Session changed the rate from a flat 24.5 cents per gallon to a percentage of the average statewide rack price of a gallon of motor fuel, with the tax rate changed at the beginning of each calendar year. Motor vehicle registration fee revenue rose 4.5 percent in FY 2018.

In addition to the unrestricted revenue mentioned above, the Transportation Fund receives significant revenue from earmarks and other restricted funds. Transportation Fund revenues, including sales tax earmarks, increased 5.1 percent to \$1,275.7 million. In the 2011 General Legislative Session, Senate Bill 229 was passed which earmarked 30 percent of future growth in sales tax revenue for transportation (subject to a cap of 17 percent) starting in FY 2013. In FY 2018, revenue from this earmark totaled \$231.6 million compared with \$195.6 million in FY 2017, an increase of 18.4 percent. In FY 2018 a total of \$569.5 million in sales tax revenue was earmarked for transportation.³ Transportation Fund earmarks accounted for 88.5 percent of all sales tax earmarks in FY 2018, down from an 89.4 percent share in FY 2017.

General Fund

Total Collected - \$2,343,631,862

The Legislature appropriates monies for general state government and high education from the General Fund. Some General Fund revenue is also used to fund the public school system. The largest source of revenue comes from the state sales and use tax.

Education Fund

Total Collected - \$4,520,291,261

The Utah Constitution requires that state income tax be used only to fund the state's public and higher education systems. The Education Fund is largely composed of revenues generated by individual income and corporate franchise taxes.

The Fiduciary Fund includes taxes collected on behalf of public and private entities outside of Utah state government.

The preparation of this report in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts. Actual results could differ from those estimates.

Income Tax

The Utah Constitution specifies that state individual income taxes, corporate income taxes, and franchise taxes be used strictly for public and higher education.

The state income tax rate under the "single rate" is 5 percent and drops to 4.95 percent beginning in tax year 2018. Most taxpayers are able to claim one or more non-refundable credits, including a taxpayer tax credit and retirement tax credit. In addition, some taxpayers may be eligible for other refundable or non-refundable tax credits.

The taxpayer credit calculation incorporates a taxpayer's federal personal exemptions and standard deduction or itemized deductions. The retirement tax credit applies to those age 65 or older or those under age 65 with certain retirement incomes. These credits phase out as income increases above certain income levels.

Corporate Income Tax

The state corporate franchise and income tax rate is 5 percent of Utah apportioned net income, with a minimum \$100 tax per corporation. The tax

rate drops to 4.95 percent beginning tax year 2018.

The gross receipts tax is an in-lieu tax imposed on the gross receipts of corporations - other than religious or charitable institutions - operating in Utah that are not otherwise required to pay income or franchise taxes. The Legislature also imposes the gross receipts tax on electrical corporations whose property tax liability was decreased as a result of property tax reductions authorized by the 1995 Legislature.

A percentage of gross receipts at commercial radioactive facilities is imposed on the specific types of waste. These percentages range from 5 to 12 percent, depending on the specific type of waste received.

Individual Income Tax Withholding

An employer must withhold state income tax from employee earnings if the employer

- 1) does business in Utah or obtains any income from Utah sources; and
- 2) pays wages to individuals who perform services for that employer in Utah.

State Income Tax Data

(Based on 2016 Tax Year)

This chart compares the percentage of taxpayers in adjusted gross income (AGI) groups with the percentage of the total amount of Utah state income tax paid in the 2016 tax year. For example, 33.18 percent of taxpayers earned \$25,000 or less; however, they only paid 1.62 percent of total state income taxes. Only 0.23 percent of Utah taxpayers earned more than \$1 million; however, they paid 11.66 percent of the total state income taxes.

Historical State Income Tax Contributions

This charts shows trends of the total amount of voluntary contributions made annually to approved charities when filing state income tax returns.

Corporate Taxes Paid by Taxable Income Groups

(Non-minimum taxpayers)

This chart compares the percentage of corporate returns with the percentage of corporate franchise tax paid by non-minimum taxpayers for tax year 2016. The non-minimum corporate taxpayers pay over 99 percent of total corporate franchise tax. Companies with a net apportioned income larger than \$1 million paid nearly 91 percent of the tax and accounted for only 11.9 percent of total returns. Those with income \$100,000 or less paid 1.6 percent of the tax but accounted for 62.9 percent of the returns.

Minimum Corporate Tax

For tax year 2016, the state corporate franchise and income tax rate is 5 percent of Utah apportioned net income, with a \$100 minimum tax per corporation.

For the 2016 tax year, approximately 71 percent of corporate returns paid the \$100 minimum tax. This accounted for less than 1 percent of total corporate tax paid.

This table includes all corporate taxpayers with the number of returns and total tax for 2016. Manufacturing; management of companies and enterprises; and professional, scientific, and technical services are the largest taxpaying industries. Each paid over \$46 million in corporate franchise tax. See pie chart on following page for additional information.

These amounts reflect the tax liabilities shown on 2016 returns. Because of payment due dates, refunds, and other timing differences, these amounts do not equal the tax received in 2016. Returns are generally filed on a calendar year basis, whereas the receipts reported in this report are based on the State's fiscal year.

Federal Income Taxes Paid

(By Adjusted Gross Income groups for 2016 tax year)

This chart compares the percentage of Utah taxpayers in adjusted gross income groups with the percentage of the total amount of federal income tax paid in Utah for the 2016 tax year. For example, over 34 percent of total Utah federal income tax filers earned \$25,000 or less; however, they paid only 1.12 percent of the federal income taxes paid in Utah. Only 0.22 percent of total Utah federal tax filers earned over \$1 million; however, they paid 23.71 percent of the total federal income taxes paid in Utah.

The average amount of adjusted gross income (AGI) varies significantly among Utah's 29 counties. Historically, Summit County residents have the highest average AGI, and for the 2016 tax year it was over \$15,000 higher than Morgan County, the second highest. The five lowest AGI Counties are all located in rural Utah.

Sales Tax

In 1933 the Utah sales tax was first introduced as a revenue source after property tax collections dropped dramatically during the Great Depression. The use tax was added in 1937 to compliment the existing sales tax.

The Utah State Tax Commission administers all state and local sales and use taxes. The state sales and use tax rate of 4.7 percent applies to sales of tangible personal property made within the state, certain products transfered electronically, sales of meals, admissions to places of amusement, intrastate communication, gas and heat utility service, commercial electrical service, hotel and motel accommodations, and certain other services.

Retailer licenses are issued with a fee. Retailers are required to collect the tax from customers and remit to the Tax Commission.

Charges for residential use of electricity and fuel are taxed at a rate of 2 percent. The state sales tax rate on food and food ingredients is 1.75 percent. The total sales tax on food, including local taxes is 3 percent.

Use tax is imposed on taxable transactions where the purchaser remits the tax directly to the Tax Commission. The two taxes are compensating taxes, one supplementing the other, but cannot be applicable to the same transaction. The rate of the tax is the same.

Local Sales and Use Tax

All counties, cities, and towns in Utah have adopted ordinances to impose a 1 percent option of the local sales and use tax. This tax applies to the purchase price on the same transactions as the state sales and use tax and is collected in the same manner as the state sales tax.

Municipal Highways Sales Tax

A municipality that does not levy the public transit tax may impose a sales and use tax of 0.30 percent of the purchase price on transactions subject to the state sales tax. Voter approval may be required under certain circumstances. Revenues from this tax must be used for the construction and maintenance of highways under the jurisdiction of the municipality.

Retailers are responsible to collect the tax under the same conditions as the sales and use tax. The Tax Commission collects and distributes this tax for participating localities. Since this option tax was first approved in 1998, 25 cities and towns have imposed the tax.

Arts And Zoological Sales Tax

The botanical, cultural and zoological tax, often referred to as "ZAP" (zoo arts and parks), "RAP," PAR," and various other acronyms, may be imposed at the rate of 0.10 percent (1/10th of 1 percent) of the purchase price on transactions taxed under the state's sales and use tax law.

This tax may be adopted in any county or city in which voters have approved the tax to fund recreational facilities, and botanical, cultural and zoological organizations. Retailers are liable to collect the tax under the same conditions as applicable for sales and use tax.

Tourism, Recreation, Cultural, Airport Facilities, and Convention Sales Tax

The tourism, recreation, cultural, convention, and airport facilities tax permits counties to impose any or all of the following options:

- 1) Restaurant A tax of up to 1 percent on all sales of prepared foods and beverages sold by a restaurant for immediate consumption.
- 2) Motor Vehicle Leasing A tax of up to 3 percent of all short-term leases and rentals of motor vehicles not exceeding 30 days. There is an exception when the rental vehicle replaces a motor vehicle that is being repaired due to a repair or insurance agreement. Counties that haveimposed the motor vehicle short-term lease and rental tax may impose an additional 4 percent tax on these vehicles.
- 3) Room Rental A tax of up to 0.50 of 1 percent (one-half of 1 percent) of the rent for every occupancy of a suite, room or rooms in motels or similar public accommodations. Only Salt Lake County imposes this tax.

Rural Hospital Sales Tax

A county of the fourth, fifth, or sixth class (or a city within those classes of counties) may impose a sales tax of up to 1 percent to fund rural county or city health care facilities. Facilities located in fourth (population 11,000 to 31,999), fifth (population 4,000 to 10,999), or sixth class (population less than 4,000) that are not in Standard Metropolitan Areas are eligible to impose the tax. Daggett, Garfileld, Grand, Kane counties, and Beaver City impose this tax.

Note 1: Effective 04/01/2010, Uintah County repealed the Rural Hospital tax.

A municipality may levy the resort communities tax if the transient room capacity of the municipality is greater than or equal to 66 percent of its U.S. Census population.

Qualifying municipalities may impose a tax of up to 1.1 percent of the purchase price on a transaction subject to the state sales tax. An additional 0.50 percent may be imposed upon voter approval, or if a municipality imposed a license fee or tax based on gross receipts under Section 10-1-203 on or before Jan. 1, 1996. Those municipalities may impose the additional 0.50 percent with voter approval if they meet certain statutory criteria. Retailers are liable for the collection of the taxes. The Tax Commission collects and distributes the tax for local government units.

State-Wide Motor Vehicle Rental

Total Statewide Motor Vehicle (amount distributed)

Statewide Motor Vehicle Rental Tax

The motor vehicle rental tax is a statewide 2.5 percent tax on all short-term leases and rentals of motor vehicles not exceeding 30 days. There is an exception for rental vehicles to replace a motor vehicle that is being repaired due to a repair or insurance agreement or a motor vehicle rented as a personal household goods moving van. It does not apply to rentals of vehicles registered by gross vehicle weight in excess of 12,000 pounds.

County Highways and Public Transit

In 2015, the Legislature passed a bill raising the state gas tax by five cents per gallon. They also gave authority to local governments to hold an election for voter input on whether cities and counties should enact a quarter-cent sales tax increase for local transportation projects and transit.

In November 2015, voters of Carbon, Davis, Duchesne, Grand, Rich, San Juan, Sevier, Tooele, and Weber approved the measure. The tax was implemented in all those counties - with the exception of

Tooele - on April 1, 2016. Tooele County imposed this tax beginning July 1, 2016.

In Davis, Weber, and Tooele, of the 0.25 percent increase, 0.1 percent goes to cities, 0.1 percent to the Utah Transit Authority, and 0.05 percent to the respective county. In counties that do not have a transit district, 0.1 percent goes to the cities and 0.15 goes to the counties.

Sales Tax Exemptions

Utah law exempts certain purchases from the sales and use tax. The following presents fiscal year 2018 estimated state revenue impacts for each of the sales tax exemptions under Utah Code Ann. §59-12-104. These estimates are based on the best information available; however, in some cases data is limited or unavailable. Exemptions are grouped into the same categories identified in the joint

report from the Utah State Tax Commission and the Legislative Fiscal Analyst's Office on fiscal year 2017 sales tax exemption revenue impacts.

Exemptions are grouped into two major categories: 1) business inputs and 2) non-business inputs. Non-business inputs are further categorized into charitable/government, economic development, economic efficiency, healthcare, and other.

^{*} There is no known state revenue impact from these exemptions in FY 2018. However, there could be exempt amounts in other years depending on taxpayer behavior.

^{**} These exemptions were passed in the 2017 General Session. These exemptions have no impact on state revenues in FY 2018. The fiscal note estimates that combined state revenue impact from these two exemptions is \$10 million in 2020.

Property Tax

Property taxes are levied in Utah at the local level based on valuations set by county assessors and - in the case of certain properties - by the State Tax Commission.

The Tax Commission values centrally assessed property, which includes mines, railroads, utilities, and telecommunications that cross county lines. All monies collected from property tax are distributed to school districts, local government entities, and special districts.

Real and Personal Property Taxes

Property tax rates are set by local entities,

such as counties, cities, towns, school districts, and special taxing districts. A statewide rate is also levied to help finance schools in Utah.

Motor Vehicle Fees

Utah motor vehicles - including most boats, recreation vehicles, and trailers - are subject to a fee-in-lieu of the personal property tax. Passenger vehicles are assessed using a fee schedule based on the age of the vehicle. Boats, trailers, and recreational vehicles are subject to fees based on age, length, and other factors.

Distribution of 2017 Property Taxes Charged

Property Tax Values and Rates

With exception of state-assessed properties, county assessors value all taxable real property, personal property, and motor vehicles which are referred to collectively as "locally assessed" property.

All taxable property in Utah is valued at 100 percent of its fair market value, based upon its location and status as of January 1, of each year.

Fair market value, less any exemptions, equals taxable value and is expressed as a percentage of fair market value. Taxable value is the value against which the tax rate is applied to compute

taxes charged.

Currently, primary residential properties receive a 45 percent exemption. Primary residential property is any dwelling used as a person's primary residence, including condominiums, apartments, and rental property, and includes up to one acre of land. The taxable value of all other properties, except some agricultural land, is assessed at 100 percent of fair market value.

Utah motor vehicles are charged a fee-in-lieu of property taxes based on age of the vehicle.

Property Taxes Charged by Class

Prior to 1930, the property tax served as the major source of revenue for both state and local governmental operations in Utah.

Although the property tax has become progressively less important in Utah finances, it still remains the number one source of revenue for most local governments.

In some of the larger cities, however, the property tax is gradually being replaced by the local sales tax as the principal revenue producer.

With the exception of property exempted by the State Constitution or federal laws, all tangible property is subject to the property tax. After property is valued for tax purposes either by the State Tax Commission or the local county assessor, local governments using the values establish the rate to be applied to the property. Thus, property taxes imposed on specific properties are the result of the following two main elements:

- 1) the value that is placed on the property for taxing purposes, and
- 2) the combined tax rates that are charged by the various units of local governments empowered to levy the tax. The assessment or valuation of property for tax purposes is performed either by the State Tax Commission or by local county assessors.

Centrally Assessed Property

The Property Tax Division of the State Tax Commission is responsible for the valuation of mines, utilities, airlines, telecommunications, railroads, and rail cars.

The market value of multi-state utilities is determined by unit value. This approach values all intra-state or interstate properties as a unit.

The value is allocated to the State of Utah and then to the counties where the property is located.

Properties of mining, gas and oil companies are physically valued to arrive at fair market value or by capitalizing net revenue. Listed below are the 20 largest centrally-assessed companies for the 2015 assessment year based on values established by the State of Utah. The ranking of these property owners is as of May 1, 2016, and the values may change following an appeal.

Property Tax Relief

The State of Utah and county governments provided \$28,520,415 in property tax relief to 38,230 individuals in 2017. Tax relief is administered by county governments.

County governments provide tax relief to the indigent, blind, and veterans. The State funds property tax relief through the Circuit Breaker program. In 2017 the State provided \$5,583,962 property tax relief.

Brief summaries of the property tax relief categories are discussed on this page. Details of the law are found in Utah Code Annotated §59-2-1104 to 1109 and §59-2-1202 to 1202.

Blind

For 2017, up to \$11,500 taxable value of real and/or personal property owned by blind persons, their unmarried widow or widower, surviving spouse, or minor orphan is exempt from property taxation.

Indigent

An indigent abatement may be granted in an amount of 50 percent of taxes levied, not to exceed

\$939 for 2018. An indigent deferral may also be granted for all or any portion of the tax; however, interest accrues.

Military Service

An exemption of up to \$260,370 in taxable value on a primary residence or non-business personal property may be granted to a disabled veteran, to the unmarried widow or widower of the veteran or to minor orphans. An exemption may also be granted to the widow, widower, or minor orphan of a veteran who was killed in action or died in the line of duty.

Tax relief is given to active duty or reserve military members who have been deployed outside of the state for at least 200 days.

Low-Income Elderly

Elderly and low income or widowed homeowners and mobile homeowners may apply through the county for Circuit Breaker relief of up to \$984 for 2018. Elderly, low income renters may also be eligible and may apply for relief to the State Tax Commission.
