## **ORGANIZATIONAL OVERVIEW**

#### ORGANIZATIONAL OVERVIEW

The Utah State Tax Commission is a constitutional body composed of four commissioners appointed by the Governor with Senate consent. The Governor designates one of the four commissioners as chairman. Commissioner terms are set by statute for four years with one term expiring each year. The commissioners appoint an executive director in consultation with the Governor and the Senate's consent. Salaries for the commissioners and executive director are set by the Legislature.

The Commission's primary responsibility is the administration and supervision of Utah's tax laws. Through the executive director, the Commission administers a department of over seven hundred staff members organized in seven divisions. The commissioners set policy and promulgate rules to guide the staff in interpreting and carrying out the state's tax statutes.

The Commission also functions as the State Board of Equalization to equalize real and personal property valuations. The board may issue orders to correct valuations on property that has been improperly assessed and hears appeals from decisions of county boards of equalization. In addition, the commissioners perform quasi-judicial functions in hearing formal and informal appeals, concerning centrally assessed properties, requests for waiver of penalty and interest, and sales tax license revocations.

Highlights of the 1986 Fiscal Year:

There were changes in the Tax Commission following the resignations of Mark Buchi, chairman, and Gary Cornia to pursue their careers in the private sector. Joe B. Pacheco and G. Blaine Davis were appointed to join Roger Tew and the new chairman, R. H. (Hal) Hansen on the Tax Commission.

A major revision of the Administrative Rules of the Tax Commission, as required by Governor Bangerter's Executive Order, was completed. This revision updated the rules to reflect statutory changes, deleted unnecessary rules and renumbered the rules to be uniform with the state's system.

A community relations director was hired. This is a new position that will coordinate media relations and press releases, as well as newsletters, brochures and other information going to the public.

The Internal Audit Office reorganization was completed with the hiring of an internal audit manager experienced in electronic data processing audit functions. The Internal Audit Office has also started management audits.

The Tax Commission and members of the Appeals Unit acted on approximately 2,200 appeals and expect to handle more next year. Although all appeals must be decided by the commissioners, many hearings are conducted by trained hearing officers. In addition, the commissioners reviewed and decided approximately 5,000 requests for waiver of penalty and interest imposed on late or deficient tax returns.

In carrying out provisions of the management plan, the executive director implemented the following changes:

Administration: The Administrative Division nearly doubled in size to keep pace with the administrative support functions of the department. Many of these personnel and functions were drawn from existing divisions. The budget and accounting functions were separated and a new personnel manager was hired to provide in-house expertise on personnel matters. Administrative managers have been placed in the Tax Commission's Ogden and Provo branch offices to coordinate administrative support.

**Auditing:** A new director of the Auditing Division was appointed and has put emphasis on audit selection as addressed by the Legislative Auditor. In keeping pace with the expanding workload of the division, 22 auditors, including 2 supervisors, were added to the staff. The division also transferred 5 employees who were not directly involved in audit functions to the Operations Division.

The division implemented a new roster system on tax assessment information to better manage the audit workflow. This system allows management to more precisely monitor individual procedures for cost effectiveness. It also greatly enhances staff efficiency.

**Motor Vehicle:** Several programs were initiated by the Motor Vehicle Division, including issuance of newly designed license plates. The "Ski Utah" plate brought an enthusiastic response from the motoring public, creating an increase in license plate replacements sales of 274.6 percent. The unique

Canyonland design, replacing all Utah Highway Patrol plates, had similar acceptance. The division is currently involved in testing a new front-end cash register system that will eventually provide daily communications on transaction and accounting data to a central location.

A new assistant director, who was hired to enhance management efficiency, is spearheading the division's involvement with the insurance audit that does a random selection of motor vehicle records to verify required insurance coverage in order to identify uninsured motorists. Now that the audit is operating as designed, a new front-line manager will administer this program.

**Property Tax Division:** The implementation of "Truth in Taxation" laws was the division's greatest challenge in 1986. A great deal of time was spent orienting county auditors, county assessors and other local governmental officials to the requirements of the new laws. Computerization of the audit and approval process significantly reduced the time and resources that would otherwise have been devoted to this function.

The division continues to improve and enhance its capabilities through automation. The use of portable computers for personal property auditing, computerization of appraisal and assessment functions in centrally assessed property, and automation of data collection in conjunction with the annual assessment/sales ratio study have increased the division's ability to perform quality work.

Operations Division: The purchase of document sorting, extracting and filming equipment has accounted for a 20 percent increase in productivity while reducing supplies and salary expenses by more than \$100,000. A concentrated effort to modify the automated systems has enhanced the accurate timely billings for delinquent taxes. This, along with a restructuring of the collection section, has netted the collection of \$34 million from delinquent taxpayers during the past fiscal year. In addition, the public has been served more efficiently by providing timely response to telephone calls and correspondence. Phones are now answered promptly, resulting in a 99 percent connection rate and the 75,000 pieces of correspondence received annually are being answered in a timely manner.

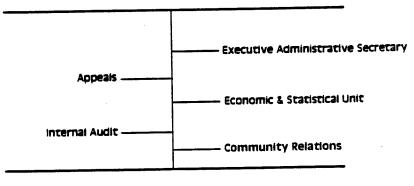

Motor Vehicle Business Adminstration: Automobile dealer and salesman files were automated along with dealer plate, impound yard, investigation, and temporary permit files. The automation allowed the division to transfer clerical positions into investigation, without sacrificing clerical productivity. Investigators were able to handle a 63 percent increase in caseload and still produce a 102 percent increase in criminal counts filed over fiscal year 1985. Several major auto theft rings were broken up and legislation was passed that will make it much easier to locate and prosecute violators of the state's odometer laws.

A major effort has been made to orient the work of the divisions into a team effort. Close coordination continues between the Property Tax and Audit Divisions to take advantage of auditors' skills to determine the income streams used in the valuation of mines, railroads and public utilities. Computer programs analyzing retail sales growth developed by the Economic and Statistical Unit have been modified to provide timely information to the Operations Division regarding large sales tax payers who fail to file returns as well as information regarding payments of bankrupt taxpayers. Additionally, personal property auditors are being trained to check for compliance with all tax laws when conducting field audits. Likewise, auditors from the Auditing Division are adding personal property to the ad valorem tax rolls during regular audits.

Notable progress has been made in the use of computer systems. Personal computers have increased auditor efficiency and plans have been made to expand this capability. Several new software systems are in various stages of design, programming and/or implementation. A system to control the progress of appeals and their status is operational in addition to a document control and tracking system. Some major systems will not be complete for about three years, but when these are finalized there will be a significant increase in efficiency and effectiveness.

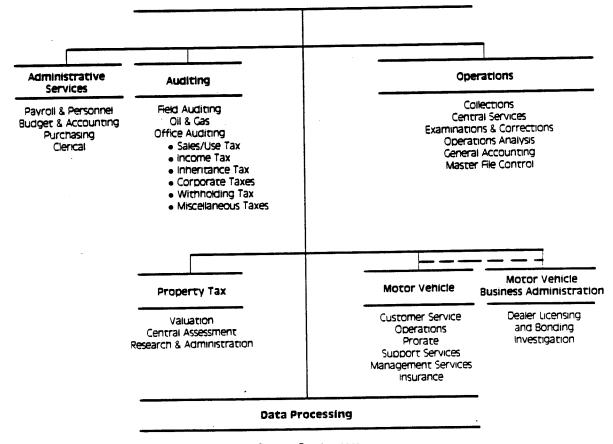

This year a successful motivation and tempo has been established throughout the Tax Commission. Commission employees have a better knowledge of the procedures necessary to perform their jobs in a productive and professional manner and they are also receiving recognition from management for exemplary performance. Emphasis will continue to be given to employee training programs as well as the special recognition of outstanding job performance as a means of enhancing the efficiency and effectiveness of employees in the Tax Commission.

## OVERVIEW OF COLLECTION AND DISTRIBUTION OF REVENUE

Summaries of historical data are useful in estimating future revenues and analyzing impacts of past legislation, as well as being indicative of how the economy fared. Figure 1 in this section shows the distribution of state revenues among the major funds. Table 1 compares major sources of revenue collected by the Tax Commission for the past ten years. Figure 2 charts the percentage of revenues collected by major funds from each tax source. Individual income, sales and use, and motor fuel taxes dominate the four major funds. Table 2 separates gross from net collections, identifying refunds and adjustments. Refunds are a major factor in estimating the individual and corporate income (franchise) taxes. Finally, Table 3 lists Utah population by county in order to assist researchers in computing per capita tax collection data.

### ANNUAL REPORT OF THE ECONOMIC AND STATISTICAL UNIT

The Economic and Statistical Unit of the Tax Commission compiles and publishes statistical reports reflecting the history of tax revenues in Utah and also projects future tax revenues based on models and simulations. These reports are prepared and published under the general powers and duties granted to the Tax Commission by the Legislature to provide information that will assist efforts to equalize the burden of taxation in the state. \( \frac{1}{2} \)

Several major research reports were published in fiscal year 1985-86. The first of these reports, 1986 Forecast Utah Retail Sales, Services and Business Equipment Purchases, utilized an econometric model constructed by the Economic & Statistical Unit to forecast taxable retail sales, services and business equipment purchases in Utah. The second publication, Initial Tax Burdens on Business and Households in Ten Western States, 1984-85, analyzes major state and local tax burdens paid by business and households in ten of the western states. The third study, Federal Tax Reform in Utah, analyzes the impact of impending federal tax code changes on Utah. A fourth report, Utah Statistics of Income Return Year 1984, was also completed this year. This report compiles data from IRS records of taxpayers with Utah addresses who filed 1984 federal returns (refer to the individual income tax section of this report).

<sup>§59-5-46(21),</sup> Utah Code Ann. 1953

## INITIAL TAX BURDENS ON BUSINESS AND HOUSEHOLDS IN TEN WESTERN STATES

This biennial study examined the burden of major state taxes on businesses and households in Arizona, California, Colorado, Idaho, Montana, New Mexico, Oregon, Utah, Washington and Wyoming during 1984-85. Nevada was excluded since a significant portion of their tax revenue is derived from the gambling industry, much of which is passed on to individuals living outside the state. The report focused primarily on major taxes (property, income, general and selective sales, unemployment and severance), though brief attention was paid to smaller taxes. Selective sales taxes such as motor fuel, tobacco, liquor, insurance premium, and public utility taxes were included with major taxes since revenue collections from this source are often significant. In addition, this year, local sales taxes were included in the study.

Since determination of final incidence is often difficult, this study dealt primarily with initial tax burdens (who initially pays the tax). One assumption implicit in the methodology is that the extent and composition of tax shifting is uniform throughout the western states studied. Tax shifting can play a significant role, especially in states that are heavily dependent upon natural resources. These states are often able to shift severance and property taxes on to nonresidents.

The distribution of taxes between business and households was analyzed based on data obtained from Department of Commerce, Bureau of the Census, other states' revenue departments or tax commissions, and annual reports.

The study ranked Utah sixth among the western states with 41.2 percent of major taxes paid by business. Ahead of Utah were, in descending order, Wyoming (highest), Montana, and New Mexico (all natural resource states), Washington and Arizona.

Utah, however, ranked first in household taxes, both in terms of tax per household and effective tax rates (which take into account household income). Utah's tax per household was \$2,480, 29 percent above the western states' average of \$1,926. Other states ranking above the average were California, Colorado, Arizona and Oregon (in descending order of rank). When household income is taken into account, Utah still ranked first with an effective tax rate of 7.27 percent of income, 33 percent above average.

Following Utah was Oregon (20 percent above average), Arizona, Colorado, Idaho and California. As expected, high yield severance tax states, which are able to pass off more of their household tax burden to nonresidents, had both low household taxes and effective tax rates. Washington also had low household taxes and effective tax rates, primarily because of its reliance on the business and occupation tax, in lieu of the personal income tax.

Utah's high household taxes come as no surprise, given the demographic composition of its population. The average age in Utah is younger than other western states which has two effects: 1) a smaller proportion of taxpayers to total population and 2) a greater demand for infrastructure, particularly education. In addition, Utah had the highest average number of persons per household (3.25), which means that average annual household income, which in Utah was only \$34,109 (4 percent below average), must support more people.

## 1986 FORECAST UTAH RETAIL SALES, SERVICES AND BUSINESS EQUIPMENT PURCHASES

The Economic & Statistical Unit, using an econometric model constructed in 1984, forecasts taxable retail sales, services and business equipment purchases in several key sectors of the Utah economy. The model performed fairly well in 1984. The 12 percent growth forecast by the model was only 2.7 percent less than actual 1984 growth of 14.7 percent. Seasonal adjustment factors, the Utah misery index (Utah unemployment plus U.S. inflation) and projected Intermountain Power Project expenditures were incorporated into the 1985 model. Given these adjustments, the model forecast a dramatic slowdown in 1985 retail sales, services and business equipment purchases. Overall a 3.4 percent growth rate was forecast, a 1.1 percent overestimate of actual growth of 2.3 percent. This was largely due to our overestimate of taxable services which grew at only 3.2 percent in 1985 (15.3 percent growth was forecast by our model).

For 1986 the model forecasts a 5.5 percent rate of growth in Utah retail sales (with consumer price increases of 2.5 percent and real retail sales of 3 percent). Business equipment purchases and utility sales are expected to decline by about 2 percent in 1986. Declines in this area come from Utah's "primary industries," legislated exemptions which have narrowed the tax base and commodity price deflation. Taxable services (admissions to places of amusement, room rents and services performed on tangible personal property) are expected to rise by 10 percent in 1986.

Since complete information on actual performance for calendar year 1986 is not yet available, we are unable to evaluate the success of the model in predicting retail sales, services and business equipment purchases for all four quarters. So far, however, taxable sales are not performing as well as our 5.5 percent forecast. During the first quarter of 1986, retail sales grew by only 3.6 percent compared with predicted growth rates of 8 percent. Particularly weak sales occurred in the motor vehicle category which actually fell by 1.8 percent (they were expected to increase by 9.7 percent). Taxable services, which were expected to increase by 3.8 percent, declined by 4 percent. Business equipment purchases declined 11.5 percent. A decline of 7.6 percent had been forecast. Total sales, services, and business equipment purchases fell 3.1 percent in the first quarter compared with the 1 percent increase forecast by our model.

Second quarter 1986 total retail sales, services and business equipment purchases declined by 1 percent instead of increasing by 5 percent as predicted. A substantial overestimation occurred in taxable services, which declined by 5.6 percent. The model had forecast a 14.5 percent growth rate for this sector. Retail sales were somewhat slower than expected. Actual retail sales of 2.9 percent were 3.7 percent lower than that forecast. In this sector an overestimation of 8 percent occurred in motor vehicle sales. Business equipment purchases, which were expected to rise slightly at 0.5 percent, fell by more than 7 percent.

Third quarter, 1986 data indicate that total retail sales, services and business equipment purchases did not grow the anticipated 4 percent. Instead, a zero growth rate was reported for this quarter. The retail sales sector, however, grew by 7.2 percent, indicating that we were a bit pessimistic in our estimate of 3.2 percent. Major overestimations occurred in the service and business equipment sectors. Services only grew by 2.1 percent, 13.8 percent lower than expected. Business equipment purchases were down 12.6 percent, compared to our forecast for 1.7 percent growth.

### FEDERAL AND STATE INCOME TAX REFORM

Income tax reform, at both the federal and state levels, will have a significant impact on Utah taxpayers over the next several years. Though reform will have differential impacts according to each individual's unique profile, for most taxpayers, federal taxes will fall while state taxes will increase. At the federal level, low income taxpayers will pay less taxes due to increases in the "poverty level," the income level below which no taxes are paid. The poverty level is the sum of the standard deduction and personal exemption amounts a taxpayer is allowed.

### I. Statewide Results

The Economic and Statistical Unit, using a sample of over 10,000 taxpayers, simulated the effect that federal income tax reform will have on Utahns. It is estimated that federal income tax reform will save Utahns \$156 million in 1987 and \$189 million in 1988. If no legislative action is taken, taxpayers' state income tax liability will rise due to lower adjustments and deductions from income and from lower federal taxes paid. Our model estimates that state revenues will increase by \$64 million in 1987-88 from federal reform. For the taxpayer, the net result of federal reform will be an increase in take-home-pay of \$92 million in 1987 and \$119 million in 1988 (Table 4).

These figures reflect our best estimate of the way the major elements of reform will influence taxpayers as well as our assumptions about economic growth and employment. For budgeting purposes, more cautious views could warrant reducing these figures by \$10 million.

### II. <u>Typical Taxpayer Results</u>

The large taxpayer sample we use for our analysis permits us to assess the impact on typical Utahns according to their adjusted gross income (AGI). Our typical taxpayers do not represent a hypothetical individual, as in most press reports, but an actual average of Utah taxpayers by AGI. For example, on Table 5 the family with an adjusted gross income of \$22,494 represents all families with an AGI between \$20,000 and \$25,000.

In addition, this typical family has 3.77 exemptions, \$6,297 in deductions and \$1,242 in federal taxes. This may not be as "neat" as a hypothetical family, but it is more representative of average Utah taxpayers in this income group.

The estimates on Table 5 also report the impact of federal tax reform on various AGI groups. The total effect of federal tax reform is somewhat less than the change in federal taxes since current law essentially makes the state a "partner" in paying taxes by allowing taxpayers to deduct state taxes as a compensation for federal taxes paid. Since most taxpayers pay less federal taxes under reform, the cost to the state and benefit to the individual of that "partnership" is reduced.

## III. The Need For State Income Tax Reform

The Legislature has not significantly revised income taxes since the mid-1970's, but inflation has been quietly undermining the intent of the earlier law. The "poverty level", which is based on 1974 federal exemption and standard deduction magnitudes, has been badly eroded in the past twelve years. Figure 3 shows the "current" Utah poverty level for various family sizes; the "adjusted" Utah line shows what the poverty level would need to be to compensate for inflation since 1974. For purposes of comparison, Figure 3 also shows the new federal poverty level and the floor proposed in the Governor's reform proposal. Neither the new federal law, nor the Governor's proposal, completely restores the poverty level to its 1974 purchasing power.

Inflation, by eroding the poverty level and by pushing most taxpayers into the top bracket, has turned a system that was mildly progressive into one that is slightly regressive after \$35,000 of income. Figure 4 shows the effective tax rate (the ratio of taxes paid to AGI) for married taxpayers. The lower line shows the current tax law and the upper line uses the Governor's proposal to illustrate a system closer in intent to the mid-70's legislation, without the effects of inflation. The current system has steep progressivity in the lower incomes, but after about \$30,000 or \$35,000 becomes regressive, with rates falling slightly as income increases. In fact, under the current system about 65% of all families are in the highest bracket.

Rate of Sales Tax: 4% (effective April 1, 1969), 4-1/8% (July 1, 1983 through September 30, 1983), 4-5/8% (October 1, 1983 through June 30, 1986), and 4-38/64% from July 1, 1986 through December 31, 1989 and 4-1/2% thereafter of retail sales and rentals of tangible personal property.

The same rates apply to retail sales of meals, admissions to places of amusement, intrastate communication and passenger service, electric, gas, and heat utility service, hotel and motel accommodations, and certain other services; extensive exemption provisions; retailer license issued without fee.

<sup>\*</sup> Includes \$55.3 million windfall due to change in reporting requirements.
Figure for fiscal year 1984 has been revised.

Charges for residential use of electricity and fuel are taxed at a rate 3% less than above.

Applicable to: Retailers liable for collection of tax; purchaser liable for

tax on vehicles bought from other than a licensed dealer at

the time of vehicle registration.

Rate of Use Tax: 4% (effective April 1, 1969), 4-1/8% (July 1, 1983 through

September 30, 1983), 4-5/8% (October 1, 1983 through June 30, 1986), 4-38/64% (July 1, 1986 through December 31, 1989) and 4-1/2% from January 1, 1990 and thereafter of tangible personal property purchased for use, consumption or storage in Utah; includes rentals in lieu of purchase, and services or repair, renovation and certain

installations of tangible personal property.

Applicable to: Licensed vendors liable for collection of tax; purchasers

liable if not taxed by vendor

Disposition of Revenue: General Fund

Legal Citations: §§59-15-1 through 59-15-22, Utah Code Ann. 1953

As amended by Chapter 140, Laws of Utah 1969; Chapter 14, First Special Session, Laws of Utah 1969; Chapter 153, Laws of Utah 1971, 1975, 1976; Chapter 220, Laws of Utah 1977.

Legislative Changes:

HB 28 Sales and Use Tax Allocation - Reduces the state's share of the sales tax and increases the local option sales tax without increasing the overall tax paid by consumers, unless the governor determines by July 1, 1987, that local government participation is necessary for flood mitigation costs. The rates under this bill will be 58/64% for localities and 4-38/64% for the state, between July 1, 1986 and June 30, 1987.

Legislative Fiscal Note: Passage of this bill will shift 6/64 percent of the sales tax rate to local government. This shift will result in a loss of \$10,624,000 to the General Fund Restricted - Executive Reserve Account in fiscal year 1988 and a gain of \$10,624,000 for local government in the same year. This bill would also change the timetable for increasing the amount of sales tax distributed based on population and decreasing the amount distributed based on point of sale.

Amends §§11-9-5, 59-15-4, and 59-16-3, Utah Code Ann. 1953. Effective date: July 1, 1986.

HB 67 <u>Federal Sales Tax Exemption Repeal</u> - Eliminates the express exemption from state sales tax on sales to the federal government.

Legislative Fiscal Note: Impossible to estimate.

Amends §59-15-6, Utah Code Ann. 1953.

Effective date: July 1, 1986.

HB 135 <u>Sales and Use Tax Phase I Recodification</u> - Makes technical changes in the sales and use tax statutes according to "Phase I" guidelines of the Utah Tax Recodification Commission.

Legislative Fiscal Note: None required.

Amends  $\S 59-15-1$  through 59-15-3, 59-15-5, 59-15-5.1, 59-15-6, 59-15-9, 59-16-2 through 59-16-5, 59-16-7, 59-16-7.1, 59-16-9 and 59-16-16; repeals  $\S 59-15-4.6$  and 59-16-3.6, Utah Code Ann. 1953. Effective date: July 1, 1986.

HB 250 Sales Tax Exemption for Purchases of Food with Federal Food Stamps - Exempts from sales tax all purchases made with food stamps in conjunction with superceding federal legislation to that effect.

Legislative Fiscal Note: This bill reduces revenue for fiscal year 1987 by \$1,352,000 and for fiscal year 1988 by \$2,354,000. The following table will show which funds will lose revenue.

General Fund General Fund Restricted	FY 1987 (\$1,069,000) (22,000)	FY 1988 (\$1,861,000) (39,000)
Dedicated Credits	(7,000)	(11,000)
(Tax Comm.)	(254,000)	(443,000)
Local Funds	(\$1,352,000)	(\$2,354,000)

If this bill had not been enacted, the U.S.D.A. would have restricted food stamp funding in Utah which would have had significant impact.

Amends §59-15-6, Utah Code Ann. 1953. Effective date: July 1, 1986 but exemptions will not be allowed until October 1, 1986.

SB 39 Sales and Use Tax Exemption for Federal Government-Owned Tooling and Equipment - Exempts from Utah sales and use taxes the purchase of tooling, support equipment, and special test equipment used or consumed exclusively in the performance of any aerospace or electronics industry contract with the U.S. Government or any subcontract thereunder, provided that title to the tooling and equipment is vested in the U.S. Government.

Legislative Fiscal Note: It is estimated that if the State Tax Commission's plan to assess taxes on federally-owned equipment and machinery in the aerospace and electronics industry is held to be legal, the state will gain approximately \$1,940,000 in revenue to the General Fund in fiscal year 1987 and \$1,125,000 in fiscal year 1988.

It is noted that these revenues are not in current revenue projections and consequently would not constitute a loss in projected revenue, however they do represent a loss in potential revenue.

Also, these figures are based on current contracts and do not include machinery and equipment which may be acquired by new contracts with the federal government.

It is further estimated that the loss of potential tax revenue from the proposed exemption may be offset by revenue gains associated with employment and profits derived from government contracts by those firms that are able to compete successfully against firms in other states for such contracts because of the advantage of the sales and use tax exemption.

Amends §§59-15-6 and 59-16-4, Utah Code Ann. 1953. Effective Date: July 1, 1986.

SB 144 <u>Sales Tax Exemption Reporting</u> - Requires the reporting of certain sales before the exemption for them is allowed.

Legislative Fiscal Note: None required.

Amends §59-5-6, Utah Code Ann. 1953. Effective date: July 1, 1986.

Rules adopted by the Tax Commission:

#### Sales Tax

R865-41S, Sales to the United States Government and its Instrumentalities pursuant to §59-15-6, Utah Code Ann. 1953: This rule deletes references to postal employee uniform allowance since the Postal Service changed their method of furnishing uniforms to employees. Effective March 24, 1986.

<u>R865-83S</u>, <u>Pollution Control Facilities pursuant to §59-15-6</u>, <u>Utah Code Ann. 1953</u>: This rule explains the procedure to apply for a refund of tax overpayment on pollution control facilities. Effective March 19, 1986.

R865-85S, Machinery and Equipment Exemption for Use in Certain Manufacturing Facilities pursuant to §§59-15-6 and 59-16-4, Utah Code Ann. 1953. This rule provides for the exemption of machinery and equipment for use in certain manufacturing facilities. Effective September 30, 1985.

R865-86S, Prepayment of State and Local Sales and Use Taxes pursuant to  $\frac{5}{5}$   $\frac{$ 

#### Use Tax

R865-6U, Liability of Purchasers of Tangible Personal Property to Account for the Tax Liability pursuant to Utah Code Ann. §59-16-6. This rule establishes the procedures for purchasers of tangible personal property to account for their tax liability. Amendment effective May 30, 1986.

#### PROPERTY TAX

#### Locally Assessed Property Responsibilities

The Property Tax Division is responsible for training, assistance and general supervision of county assessors and other local property tax administrators. It ensures accurate and equitable assessment of real and personal property by auditing local assessment practices. It conducts an annual assessment/sales ratio study to monitor intercounty equity. Personal property audits are conducted on an ongoing basis. Over the past 5 years these audits have produced approximately \$10,000,000 in property tax revenues to counties, cities, towns, schools and other special taxing entities. The division also annually conducts an extensive audit for the purpose of approving the tax rates set each year by the 548 taxing entities in Utah.

Another duty of the division is to conduct appraisal certification programs for county assessors and their appraisal staffs. A person must be certified through the Tax Commission program in order to work as an appraiser for a county assessor or the Tax Commission. The education program also includes regional workshops and an annual assessor's school. In 1986, the Tax Commission provided training to county auditors and local administrators in conjunction with the implementation of the "Truth in Taxation" laws.

#### Centrally Assessed Property Responsibilities

In addition, the Division is responsible for the valuation of "centrally assessed property" such as mines, utilities, airlines and motor and rail carriers.

In many cases valuations of these properties are very complex. For example, the market value of multi state utilities is determined by the "unit value" approach which values the entire interstate operation as a unit and then allocates the value to the several states.

A 1983 constitutional amendment allowed for the taxation of property of a municipally owned utility located outside the legal boundaries of the entity. No enabling legislation has been enacted.

The tax base of utility assessments will increase dramatically in 1988 when the Intermountain Power Project becomes fully taxable. Currently, only the Uniform School levy and the levy for the Delta Sutherland Oasis Cemetery Maintenance District are applied against the value of the project. Other taxing entities have been receiving impact alleviation payments in lieu of property taxes.

Property of mining operations, gas and oil companies are physically appraised to arrive at fair market value. In addition, metalliferous mines are assessed on net proceeds, non-metalliferous on net income and oil and gas wells on "value at the well." Oil and gas assessments dropped by 2.5% from 1985 to 1986. A more significant decline is expected for 1987. Patented mining claims are valued at \$50 per acre. The valuation of patented claims at \$50 per acre, and the assessment of net proceeds have been repealed effective January 1, 1988.

#### Truth in Taxation

In 1986, the Property Tax Division focused on implementing the "Truth in Taxation" laws passed by the 1986 legislature. In 1985, the legislature passed House Bill 388, the Tax Increase Disclosure Act, and House Bill 328, the 100% Assessment Law. House Bill 328, changed the assessment rate from 20% of reasonable fair cash value to 100% of reasonable fair cash value. At the same time, mill levies were converted to tax rates which lowered statutory tax rate limits by a factor of five, thereby making the law revenue neutral (a mill levy of 80 mills equals a tax rate of 1.6%).

In addition, House Bill 388 required taxing entities to provide specific public notice and hold public hearings when they intend to increase their property tax revenues (see Exhibits 1 and 2). County auditors are then required to send tax increase disclosure notices to all persons affected by an intended tax increase. The bill also provided for the repeal of the 106% revenue limitation effective January 1, 1987.

The purpose of truth in taxation is to provide notice to taxpayers of intended tax increases prior to adoption of final budgets. These laws make property taxation more understandable by converting to 100% assessment and percentage tax rates (eliminating complicated asssessment level and mill levy terminology). The hope is that with more timely and understandable information, people will get more involved in the budget process and exercise their appeal rights at the county board of equalization.

Preliminary analysis appears to indicate that the new laws did what was intended. More people appealed their property values to the county boards of equalization. For example, appeals in Weber County increased by over 300%. In many counties, 1986 was the first year the property owner saw the market value that is used as the basis for taxation. Attendance at budget hearings increased significantly for most of the entities that advertised a proposed tax increase.

The fact that only 77 of the approximately 548 taxing entities (14%) proposed tax rates that exceeded the certified tax rate, seems to indicate that the laws are working. The certified tax rate gives a taxing entity the same amount of property tax revenue that it levied for last year plus tax revenues from new growth. Of these 77 entities, 11 lowered their rates as a result of the public hearings (see chart 1). While other economic factors are involved, a good indication of the success of the new laws is a comparison of changes in property tax revenues in 1985 and 1986. Property taxes rose approximately 12% between 1984 and 1985 as compared to 5% from 1985 to 1986 (Charts 2, 3 and 4).

During the course of this first year of implementation a number of administrative problems have been identified. Confusion over the form, content and time constraints associated with the public notice and hearing requirements will be clarified in 1987. Minor statutory changes are being proposed to clear up ambiguity regarding a number of issues.

# NOTICE OF TAX INCREASE

The Town has proposed to increase its property tax revenue by 104 percent, and to increase its total budget by 54 percent.

All concerned citizens are invited to attend a public hearing on the tax increase and budget to be held on August 9, 1986, at 8:00 p.m.,

Town Hall.

A final decision on the proposed tax increase will be made at that time.

All taxing districts operating under the January 1 through December 31 fiscal year shall, by March 1, notify the county of the date, time, and place of the public hearing at which the budget for the following fiscal year will be considered. The county shall include that information with the tax notice.

#### Assessment/Sales Ratio

In addition to Truth in Taxation, 1986 was a factoring year. §59-5-109.6, Utah Code Ann. 1953, provides that annual assessment/sales ratio studies be conducted by the Tax Commission to measure compliance with statutory assessment levels and promote intercounty equity, particularly with regard to the Uniform School Fund. A brief overview of the study follows with preliminary summary statistics.

The property tax burden can be shared equitably only if assessments are uniform. Current law requires all property to be assessed at 100% of its "reasonable fair cash value." For locally assessed real property, Utah law defines "reasonable fair cash value" to be 80% of appraised value by allowing a 20% reduction for intangibles.

In 1969, the Utah State Legislature passed legislation (§59-5-109, Utah Code Ann. 1953) which required a periodic revaluation of all taxable property in each county every five years. This was based upon information that county assessments were not current or uniform; that in some cases values set in the 1950's were still on the assessment roll. Experience showed that, given the resources allocated, revaluation of every county every five year's could not be accomplished.

Salt Lake County was revalued in 1978, resulting in significant tax increases. The 1979 legislature repealed the periodic revaluation law.

The 1981 legislature passed §59-5-109-6, Utah Code Ann. 1953, which provides that the Tax Commission conduct annual assessment/sales ratio studies to measure intercounty equity and to insure that residents of each county are paying their fair share towards the Uniform School Fund. Studies are conducted annually with orders to adjust the assessment roll being issued every even numbered year by the fourth Tuesday in November.

Current studies are conducted as follows:

The Tax Commission identifies all warranty deed transactions that have occurred over an 18 month period. The study is limited to warranty deeds in order to reduce the amount of analysis required to determine if a transaction is an arms-length sale.

In most counties, questionnaires are mailed to the buyer for all transactions (Exhibit 3). In larger counties the residential transactions are sampled before mailing the questionnaires. Follow up questionnaires are mailed where no response is received.

The questionnaires are reviewed and sales accepted or rejected based upon "arms-length transaction" criteria. (A real estate transaction between two knowledgeable parties neither of whom is related to or under abnormal pressure from the other.)

Assessment information is then collected for all accepted sales and statistical results are computed and analyzed.

A weighted average assessment/sales ratio is used as the estimate of a county's assessment level. In addition to a countywide average, ratios are computed for each class of property for which sales information is available. The order to adjust a county's assessment roll is based on the countywide ratio.

As of 1986 the Tax Commission has adopted standards recommended by the International Association of Assessing Officers which provide for an acceptable range of ratios. If the countywide ratio is within 10% of the legal assessment level, the legal level is deemed to have been satisfied. Utah's legal assessment level is 100% of "reasonable fair cash value." Therefore, any county with an overall ratio of 90 to 110 satisfies the legal level.

Another important statistic is the coefficient of dispersion. It indicates the amount of variation in assessments and provides a measure of assessment uniformity. Generally, an overall coefficient of dispersion less than or equal to 20 is considered acceptable. Chart 5 shows preliminary results for the 1986 ratio study.

Thank you for taking a moment to answer these questions. Your help in obtaining thorough and accurate sales information is appreciated.

#### Exemptions

The 1986 Utah State Legislature passed two resolutions relating to the exemption of property taxes. The first resolution, SJR 18, provided for the exemption from taxation of any property owned by a non-profit entity used exclusively for hospital or nursing home purposes. This action was in response to a Utah State Supreme Court decision denying exemption based on the claim that a non-profit hospital is by its nature charitable. The proposed exemption was defeated in the November election. This action does not mean that all non-profit hospitals and nursing homes will be taxed. It will require that hospital and nursing homes meet criteria for "exclusive charitable use" that are applied to other non-profit entities. 1987 should see extensive hearings on this issue at the local boards of equalization.

The second resolution, HJR 18, provided for the exemption of "farm equipment and farm machinery as defined by statute." This resolution was approved in the November election and the 1987 legislature will be faced with defining farm equipment and farm machinery. While the law provides that the exemption may be implemented over a period of time, counties appear to support a one step, 100%, implementation. The loss of property tax revenues would be approximately \$1,750,000, depending upon the legislative definition, with approximately half the loss being borne by the schools.

### Other issues

Several other property tax issues have received continuous attention of the Utah State Legislature over the past five years: property tax relief measures and redevelopment. Brief overviews and summary statistics follow.

### Property Tax Relief

Several types of property tax relief are granted under Utah law. In recent years, the interest in tax relief has increased nationwide in response to some of the perceived social ills of rising property taxes. Tax relief legislation has been enacted in response to the numerous property tax limitation measures that have sought to cure the negative impacts of property taxation. The following is a brief overview of Utah tax relief statutes.

- A) Veterans Exemption A veteran's exemption was first granted in 1931. Currently an exemption of up to \$30,000 in taxable value on real or personal property may be granted to a disabled veteran, the veteran's unmarried widow(er) and/or minor orphans. The disability must be at least 25% and annual income may not exceed \$12,000. For veterans whose service was subsequent to 1920, the disability must be service related. Applications must be submitted to the county by May 1st each year (§§59-2-5 through 59-2-6.7, Utah Code Ann. 1953, as amended).
- B) Blind Exemption The real and tangible property owned by blind persons, their unremarried widow(er) and/or minor orphans, is exempt from property taxation up to an amount of \$10,000 in taxable value of real property and \$1,500 of personal property. Eligibility depends upon specific vision impairment as attested by a registered ophthalmologist. Applications must be filed annually with the county by May 1st (§59-2-12, Utah Code Ann. 1953, as amended).

- Indigent Abatement/Deferral An indigent abatement may be granted in an amount of 50% of the taxes levied not to exceed \$300. To be eligible, a person must own and live in the property and be 65 years of age or older. A person under 65 years of age may qualify if disabled or if circumstances of extreme hardship exist. In addition, yearly income can not exceed \$7,500 for a single applicant and \$8,000 for a married couple or household. The market value of the property may not exceed \$80,000. Applications must be filed each year on or before July 1st with the Board of County Commissioners. An indigent deferral may be granted based upon the same eligibility requirements as the indigent abatement. The deferral must be approved by the holder of a trust deed or mortgage. The deferral becomes a lien upon the property and must be satisfied upon sale or any other transfer of title. The deferred taxes bear interest at 6% (§§59-2-14, 59-2-15, Utah Code Ann. 1953, as amended).
- Circuit Breaker The Circuit Breaker law was enacted by the 1979 Utah State Legislature and provides a property tax credit to homeowners. To be eligible a person must be 65 years of age or a widow or widower and the annual income can not exceed \$10,000. The credit granted varies in relation to the income and ranges from \$25 to \$300. Application for the homeowner's credit must be filed with the county by May 1st. In order to receive the credit after May 1st, applications must be filed with the State Tax Commission by December 31st and, upon proof of payment of the taxes, a refund will be issued (§59, Chapter 25, Utah Code Ann. 1953, as amended).

A person may be eligible for more than one form of tax relief; however, current practice may vary from county to county.

#### Redevelopment - Tax Increment Financing

The <u>Utah Neighborhood Development Act</u> was originally adopted by the first Special Session of the Utah Legislature in 1969, as Title 11 Chapter 19, Utah Laws of 1969, Chapter 5. It was subsequently amended in 1970, 1971, 1974, 1977, 1980, 1983, 1984 and 1986. The major changes occurred in 1974, providing for division of tax revenues, and in 1983, providing for greater accountability, placing limits on the size of project areas from which tax increment financing can be drawn, and time limits applicable to project planning and execution.

The number of Utah cities utilizing the Neighborhood (or Community) Development Act has grown from one city with one project to thirty cities with a total of 44 projects, as of January 1, 1986. Waiting in the wings for eventual approval are additional cities, and additional projects. Several new projects will have been added during 1986 for tax increment impact in 1987, with more still on the drawing boards.

Tax increment financing allows a redevelopment agency to take the property tax revenues from all taxable value added to the assessment roll after the year in which the agency is established (the base year). Tax increment financing of redevelopment activity has grown from a modest \$ 8,148 during the first year to a total of \$ 11,591,972 for the calendar year 1985, the latest year for which figures are available. A year by year listing of tax increment funds taken by the various redevelopment agencies appears on the attached chart.

HISTORY OF TAX INCREMENT FUNDS TAKEN BY REDEVELOPMENT AGENCIES

45,504   69,132   85,000   145,200   344,836   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515   4,515

#### General Statistics

The following tables and graphs display 1985 and 1986 property valuation and tax information, and used to be published as the <u>Statistical Study of Assessed Valuations in Utah</u>. These statistics are based upon reports submitted by county auditors and county assessors. In some cases the 1986 value and taxes have been estimated from preliminary data received in June 1986. In addition, personal property values include estimates to year end which were not used in previous years' studies.

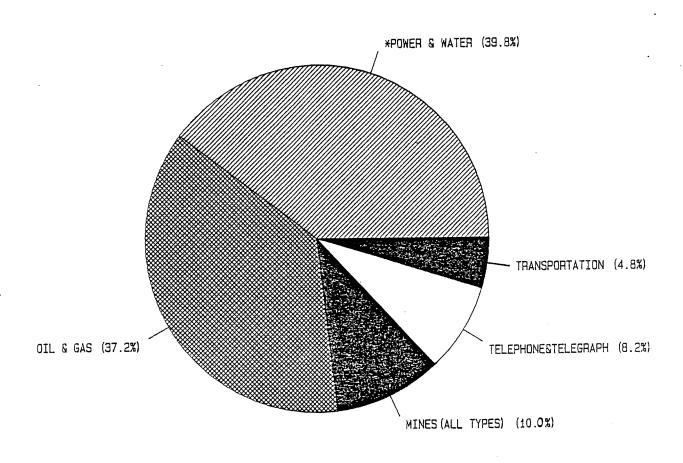

In comparing 1985 and 1986 valuations, the 1985 values must be multiplied by five. (In 1985 the legal assessment rate was 20 percent of reasonable fair cash value. In 1986 it was 100 percent.)

### 5 YR. HISTORY OF TAXABLE VALUE

### Legal Citations:

 $\S\S59-1-1$ , 59-2-7 through 10, 59-3-1, 59-4-1, 59-5-3, 59-5-4.5(2)(a), 59-5-7, 59-5-32, 59-5-46, 59-5-48, 59-5-49, 59-5-51 through 53, 59-5-57 through 60, 59-5-68, 59-5-86, 59-5-90, 59-5-101 through 102, 59-5-106 through 112, 59-5-114, 59-6-1 through 2, 59-7-10 through 14, 59-8-4, 59-9-1 through 2, 59-9-4, 59-9-8 through 9, 59-10-20, 59-10-23 through 25, 59-10-30, and 59-20-1, Utah Code Ann. 1953.

### Legislative Changes:

Property Tax Assessment of Metalliferous Mines - Provides for the assessment of metalliferous mines at 100 % of their reasonable fair cash value; establishes methods for determining reasonable fair cash value; and establishes a primary use test for determining whether certain property is appurtenant to the mines for taxation purposes.

Legislative Fiscal Note: It is estimated that this bill would have no fiscal impact during the next two years. If metalliferous mining economies change or production increases, there may be less property tax revenue collected under this bill than under the net proceeds method currently in effect.

Amends §59-5-3, §§59-5-56 through 59-5-57, and §59-5-61 Utah Code Ann. 1953.

Repeals §§59-5-58 through 59-5-60 Utah Code Ann. 1953. Effective Date: January 1, 1988.

SB 151 County Collection Costs - Requires each county to budget for all costs incurred in the assessment, collection and distribution of property taxes; provides for a review of the budgets by the State Auditor; and provides for a method by which a uniform statewide tax rate for the costs of property tax collection can be determined.

Legislative Fiscal Note: Passage of this bill would entail additional responsibilities for the State Auditor and Tax Commission; however, it is estimated that the additional workload can be handled within the existing budget and structure of those offices.

Fiscal impact on county budgets will depend on the costs certified by the State Auditor and the subsequent authorized tax rate.

Repeals and reenacts §17-19-15, Utah Code Ann. 1953. Repeals §§17-19-16 and 17-19-17, Utah Code Ann. 1953. Effective Date: January 1, 1987.

SB 236 Tax Sale of Property - Amends procedures for tax collection and redemption, establishes property proceeds of sales in excess of taxes and costs as unclaimed property; requires notice of sale to all lien holders and allows the county commissioners to determine what is an acceptable bid for the sale of delinquent property.

Legislative Fiscal Note: This bill may increase administrative costs for the counties, but does allow counties to recover these costs. The bill may result in some increased collections to the state's unclaimed property account.

Amends §§59-10-53, 50-10-56 and 59-10-64, Utah Code Ann. 1953. Effective Date: January 1, 1987.

SJR 4 Extension of Charitable Exemption - A constitutional amendment which extends the property tax exemptions to include an exemption for non-profit hospitals and nursing homes.

Legislative Fiscal Note: It is estimated that the printing costs associated with the submittal of this resolution to the electorate can be handled within the elections budget of the Lt. Governor's Office.

HB 137 Property Tax - Phase I Recodification - Makes technical changes in the property tax statutes according to "Phase I" guidelines of the Utah Tax Recodification Commission, corrects significant problems of readability, clarity, and consistency; repeals archaic and unconstitutional language; provide definitions; and clarifies duties of those involved in tax administration.

Amends  $\S\$59-1-1$ , 59-2-1 through 59-2-3, 59-2-5 through 59-2-11, 59-2-14, 49-2-17 through 59-2-21, 59-2-23 through 59-2-28, 59-2-32, 59-3-1, 59-5-2, 59-5-4, 59-5-30, 59-5-32, 59-5-43, 59-5-48, and 59-5-56, Utah Code Ann. 1953. Repeals  $\S\$59-2-22$ , 59-2-29 through 59-2-31, 59-5-19, 59-5-21 through 59-5-29, Utah Code Ann. 1953. Effective Date: April 28, 1986 - Retrospective Operation to January 1, 1986.

HB 142 <u>Property Tax Assessment Change Amendments</u> - Corrects errors and omissions from HB 328, 1985 General Session, relating to the oil and gas levy and the voted leeway program levy.

Legislative Fiscal Note: This bill would increase the state's General Fund revenues by \$833,000 for fiscal year 1986. This bill set the levy on oil and gas at .002. The fiscal impact of the .002 levy will increase fiscal year 1987 General Fund revenues by \$1,600,000.

Tax Commission Fiscal Note: This bill merely corrects errors in the 1985 legislation and, therefore, does not change expected property tax revenues.

Amends §§40-6-14 and 53-7-24, Utah Code Ann. 1953. Effective Date: April 28, 1986 - Retrospective Operation to January 1, 1986.

HB 169 <u>Aircraft Registration and Uniform Tax</u> - Requires state registration of aircraft in the county in which the aircraft is located; implements a uniform tax on aircraft in place of the ad valorem property tax; and provides penalities for failure to register.

Legislative Fiscal Note: This bill generates the following revenues:

	<u>FY 1987</u>	FY 1988
General Funds	\$ 62,500	\$ 65,000
Local Funds	216,000	220,000
TOTAL	\$278,500	\$285,000

The local funds come from property taxes on aircraft. The General Fund revenue is from the \$25 registration fee charged by the Tax Commission.

Amends §§2-1-7 and 59-5-1, Utah Code Ann. 1953. Enacts §§2-1-7.7 and 59-5-1.5, Utah Code Ann. 1953. Effective Date: January 1, 1987.

HB 216 Property Tax Amendment on Timeshare Properties - Removes the requirement that the county recorder keep present ownership plats of condominiums and timeshare units and estates; requires the declaration to place timeshare estate owners on notice that tax notices will be sent to the management committee, and not to each individual timeshare owner; requires timeshare estates to be valued, assessed, and taxed at the unit level; and provides a definition of timeshare estate.

Legislative Fiscal Note: Fiscal impact is negligible.

Amends §§17-21-21, 57-8-3,57-8-10, 57-8-27, and 57-11-2, Utah Code Ann. 1953.

Effective Date: March 17, 1986.

HB 225 <u>Transitory Personal Property</u> - Provides for transitory personal property to be assessed on the basis of the time the property remains within the state.

Legislative Fiscal Note: The fiscal impact will probably be negligible. The amount local revenues would increase is not ascertainable since most transitory personal property escapes taxation under the present law. The expenditure impact is hard to estimate, however, it is likely that existing resources could absorb this function at the state and local levels.

Amends §59-5-7.1, Utah Code Ann. 1953. Effective Date: April 28, 1986 - Retrospective Operation to January 1, 1986.

HB 272 Tax Increase Disclosure Amendments - Amends the notice requirements to be given to taxpayers when tax rates are increased, dependent upon the fiscal years under which the taxing district operates; provides for use of joint public notice; amends the county fiscal year; and corrects for problems of clarity and consistency.

Legislative Fiscal Note: None required.

Amends  $\S\S17-36-3$ , 59-5-6, 59-9-6.3, 59-9-7, 59-9-14, 59-9-15, and 59-10-10, Utah Code Ann. 1953. Effective Date: April 28, 1986, except Section 1 which will take effect on July 1, 1987, and Section 7 which will take effect on January 1, 1988.

HB 352 Intangible Property Costs Date Change - Extends to January 1, 1988, the date by which the Tax Commission is to develop and implement comparable sales and cost appraisal methods which adjust for intangible transaction costs.

Legislative Fiscal Note: None required.

Amends §59-5-4.5, Utah Code Ann. 1953. Effective Date: April 28, 1986.

HJR 18 Property Tax - Farm Exemption Amendment - This proposed constitutional amendment would provide an exemption from property tax for farm equipment and farm machinery; provides for implementation period.

Fiscal Note: Revenues would decrease as follows:

FY 1988 FY 1989
Local Funds
(Property Tax) \$4,500,000 \$4,680,000

This constitutional amendment was approved by the electorate. If prior school funding levels remain constant, property taxes from the minimum basic tax levy (currently 22.18 mills) would fall \$1.605 million. The basic levy could be increased to offset this loss or the Legislature could appropriate from the General Fund to cover the loss.

Rules adopted by the Tax Commission:

R884-12P, Reduced Value for the Greater Altamont/Bluebell for Ad Valorem Assessments pursuant to Utah Code Ann. §59-5-11: This rule describes how the value for the Greater Altamont/Bluebell fields should be assessed. Effective August 26, 1985.

R884-18P, 106 Percent Revenue Limitation pursuant to Utah Code Ann.  $\underline{\$59-5-111}$ : When this rule was originally adopted, references to sections were incorrect. This filing corrects those references. Effective November 26, 1985.

R884-20P, Construction Work in Progress pursuant to Utah Code Ann.  $\underline{\$59-1-1}$ ,  $\underline{59-5-1}$ : This rule describes how all construction work in progress should be valued. Effective August 30, 1985.

R884-22P, Property Tax Collection Costs Levy pursuant to Utah Code Ann.  $\underline{\S17-19-15(2)}$ : This rule describes the method for computing the costs of property tax collection. Effective October 30, 1985.

R884-24P, Form for Notice of Property Valuation and Tax Changes pursuant to §59-9-15, Utah Code Ann. 1953: This rule sets out procedures and form to be used by county auditors for notification of tax changes to property owners. Effective May 13, 1986.

R884-25P, Procedures for Abeyance of 1986 Property Tax Exemption Hearings for Nonprofit Hospitals and Nursing Homes pursuant to §59-5-46, Utah Code Ann. 1953 (Emergency): Sets out procedures for nonprofit hospitals and nursing homes to follow for abeyance of 1986 property tax exemption hearings.

R884-31P, Personal Property Valuation Guides and Schedules pursuant to §59-5-46, Utah Code Ann. 1953: This rule sets out guidelines for using the personal property valuation guides and schedules in the statewide equalization and assessment of personal property. Effective June 6, 1986.

- Figure includes \$4,392,302 from the mineral production withholding tax. Figure includes \$5,324,940 from the mineral production withholding tax. C.

Rate of Tax:

The following rates are effective for taxable years beginning on or after January 1, 1981:

(a) FOR SINGLE TAXPAYER (exempt head of household) and FOR MARRIED FILING SEPARATE RETURNS:

If state taxable income is Not over \$750

Over \$750 to \$1,500

Over \$1,500 to \$2,250

Over \$2,250 to \$3,000

Over \$3,000 to \$3,750

Over \$3,750

The tax is

2-3/4% of state taxable income

\$21, plus 3-3/4% of amount over \$750

\$49, plus 4-3/4% of amount over \$1,500

\$84, plus 5-3/4% of amount over \$2,250

\$128, plus 6-3/4% of amount over \$3,000

\$178, plus 7-3/4% of amount over \$3,750

(b) FOR MARRIED FILING JOINT RETURN AND HEAD OF HOUSEHOLD

If state taxable income is The tax is

 Not over \$1,500
 2-3/4% of state taxable income

 Over \$1,500 to \$3,000
 \$41, plus 3-3/4% of amount over \$1,500

 Over \$3,000 to \$4,500
 \$98, plus 4-3/4% of amount over \$3,000

 Over \$4,500 to \$6,000
 \$169, plus 5-3/4% of amount over \$4,500

 Over \$6,000 to \$7,500
 \$255, plus 6-3/4% of amount over \$6,000

 Over \$7,500
 \$356, plus 7-3/4% of amount over \$7,500

Exemptions and standard deductions are the same as allowed by federal law as of December 31, 1974 (\$750 for each exemption); for single, married filing jointly and head of household a standard deduction of \$1,300 minimum or 15% of adjusted gross income with a \$2,000 maximum; and for married filing separately, \$650 minimum or 15% of adjusted gross income with a \$1,000 maximum.

Applicable to:

All resident individuals and fiduciaries who are required to file returns under federal rules and any nonresidents or part-year residents having income from Utah sources. Employers are liable for withholding a percentage (set by the Tax Commission) of federal withholding or from Tax Commission optional tables. Quarterly returns are required plus monthly prepayments of withholding averages over \$500 per month. The percentage of Utah tax to be withheld as of February 1, 1979 to July 1, 1982 is 26% of the federal withholding; 28% from July 1, 1982 to June 30, 1983; 31% from July 1, 1983 to December 31, 1984; 32% from January 1, 1985 to March 30, 1986; and 33% from April 1, 1986.

Disposition of Revenue: Uniform School Fund

Legal Citation: §59-14A, Utah Code Ann. 1953

Legislative Changes:

HB 134 <u>Individual Income Tax Phase I Recodification</u> - Makes technical changes in the individual income tax statues according to "Phase I" guidelines of the Utah Tax Recodification Commission.

Amends  $\S\S59-14A-4$ , 59-14A-10, 59-14A-26, 59-14A-27, 59-14A-37, 59-14A-38, 59-14A-53, 59-14A-83, 59-14A-89, 59-14A-98, and 59-14B-1, Utah Code Ann. 1953. Repeals  $\S\S59-14A-3$ , 59-14A-8.1, 59-14A-8.2, and 59-14A-97, Utah Code Ann. 1953.

Legislative Fiscal Note: None Required. Effective Date: April 28, 1986 - Retrospective Operation to January 1, 1986.

Rules adopted by the Tax Commission:

None

### LOCAL OPTION SALES AND USE TAX

Fiscal Year	Collections	<u>Fiscal Year</u>	Collections
1967	\$ 9,085,848	1977	\$ 42,148,484
1968	9,491,961	1978	49,177,918
1969	10,589,553	1979	55,949,450
1970	11,174,642	1980	62,736,929
1971	12,402,057	1981	67,002,776
1972	14,369,001	1982	75,053,672
1973	16,604,886	1983	75,552,049
1974	19,036,945	1984	104,750,161*
1975	21,735,782	1985	107,977,933**
1976	33,333,154	1986	109,329,460***

Rate of Tax:

7/8 of 1% from July 1, 1983 through June 30, 1986; 29/32 of 1% from July 1, 1986 through December 31, 1989; 1% January 1, 1990. -

<sup>\*</sup>Includes \$10,715,350 of accelerated sales tax collections, not distributed until September, 1984.

<sup>\*\*</sup>Includes \$10,651,038 of accelerated sales tax collections, not distributed until September, 1985.

<sup>\*\*\*</sup>Includes \$10,842,335 of accelerated sales tax collections, not distributed until September, 1986.

#### Applicable to:

The purchase price on the same transactions as the state sales and use tax laws and must be adopted by ordinance; retailers are liable for the tax collection, purchasers liable under same conditions; as for the local sales and use taxes, the Tax Commission acts as agent for local governmental units.

#### Disposition of Revenue:

Returned to participating local government units. For the last three quarters of the 1984-85 fiscal year, 70 percent of local option sales taxes were returned on the point of sale basis, while 30 percent were distributed on a prorated population basis. The first fiscal quarter was distributed on the basis of 75 percent point of sale and 25 percent population.

#### Legal Citations:

§§11-9-1 through 11-9-11, Utah Code Ann. 1953.

#### Legislative Changes:

Refer to legislative changes under state sales and use tax.

Rules adopted by the Tax Commission:

Refer to regulations/rules under state sales and use tax.

Contact: Herb Hopes, Operations Division, Phone 530-6060

#### Notes:

All localities participate in the population and point of sale distribution formula and have 7/8 of one percent rates except the following 15 which tax sales at 3/4 of one percent:

Beauer County	Randolph
Beaver County	· '
Beaver City	Lyman
Bear River	Vernon
Altamont	Naples
Alton	Vernal
Lynndyl	Wallsburg
Kingston	Loa
Laketown	

<sup>\*</sup>Collections and distributions may differ due to accelerated sales tax collections from large taxpayers for April and May sales, which are due June 15th, but not distributed until September.

### MOTOR FUEL TAX

<u>Fiscal Year</u>	Collections	Fiscal Year	Collections
1967	\$23,512,533	1977	\$45,694,373
1968	24,690,974	1978	48,808,152
1969	26,728,963	1979	61,371,556
1970	32,744,736	1980	60,451,305
1971	35,207,994	1981	56,567,749
1972	38,223,558	1982	67,733,812
1973	41,124,133	1983	68,697,076a
1974	39,971,348	1984	68,978,640b
1975	40,484,784	1985	89,337,163 <sup>c</sup>
1976	43,514,958	1986	92,164,304d

a \$559,532 of this amount was from tax on gasohol at 6¢ per gallon.

Rate of Tax: 14¢ per gallon (effective July 1, 1984); limited governmental exemption; \$10.00 one-time license fee for distributors; 2% evaporation allowance; refunds for off-highway agricultural use.

b \$2,427,198 of this amount was from tax on gasohol at 6¢ per gallon.

c \$838,423 of this amount was from tax on gasohol at 14¢ per gallon. d \$793,545 of this amount was from tax on gasohol at 14¢ per gallon.

#### Applicable to:

Importers, refiners and distributors are liable to report this tax. Refunds for off-highway agricultural use can be claimed as a credit on income or corporation franchise tax returns after July 1, 1977.

#### Disposition of Revenue:

After appropriations to certain state government departments, the revenue is spread 75% to the State Department of Transportation and 25% to city and county B and C road funds. The aviation fuel tax is distributed 75% to airports and 25% to the Aeronautics Division for improving airport facilities. The estimated amount of tax collected on gasoline used in motorboats is transferred annually from the Transportation Fund to the boating account of the Division of Parks and Recreation for improving boating facilities within the state.

#### Legislative Changes:

SB 138 <u>Delinquent Motor Fuel Tax Collection</u> - Allows the Tax Commission rather than the Attorney General's Office to issue warrants for the collection of delinquent motor fuel taxes and establishes procedures for the Tax Commission to follow.

Legislative Fiscal Note: It is estimated that the provisions of this bill would increase the motor fuel tax collection effort by an undetermined amount. By issuing warrants for past due collectibles, reduced write-offs from delinquent accounts and increased compliance are expected.

Repeals and reenacts §41-11-14, Utah Code Ann. 1953 Effective Date: July 1, 1986

SB 140 Motor Fuel Licensing Amendments - Clarifies the applicability of motor fuel licensing statutes, allows the Tax Commission to increase the maximum bond amount to \$100,000 from \$50,000, and repeals the requirement of permits for transporting motor fuels in excess of 50 gallons.

Legislative Fiscal Note: It is estimated that the provisions of this bill would have minimal fiscal impact on tax collections or administrative costs.

Amends §§41-11-3 through 41-11-5, Utah Code Ann. 1953 Repeals §41-11-10, Utah Code Ann. 1953 Effective Date: July 1, 1986

Rules adopted by the Tax Commission:

R865-8M, Definition of Non-Highway Agricultural Use pursuant to Utah Code Ann. §§41-11-6(3): This rule clarifies the method to qualify for an agricultural exemption. Effective November 1, 1985.

1976	24,501,925	1986	84,048,0274

- 1. This figure includes \$2,170,435 from the mineral production withholding tax.
- 2. This figure includes \$8,191,439 from the mineral production withholding tax.
- 3. This figure includes \$13,727,754 from the mineral production withholding tax.
- 4. This figure includes \$17,597,746 from the mineral production withholding tax.

<sup>\*</sup>Collection figures for years prior to 1977 are gross. Refunded amounts are minimal.

Rate of Tax:

5% of net income allocated to Utah for tax years beginning on or after January 1, 1984; 4.65% for years beginning in 1983; \$100 minimum for years beginning on or after January 1, 1984; \$50 minimum tax for all years beginning in 1983. For all years beginning prior to 1983 (including fiscal years), the rate is 4% with a minimum of \$25.

Applicable to:

Corporations having income allocable to Utah or exercising corporate franchise in the state. The tax is prepaid for the privilege of doing business in Utah if incorporated or qualified prior to January 1, 1973. Corporations are taxed on a current earnings basis if incorporated or qualified on or after January 1, 1973.

Disposition of Revenue: Uniform School Fund

Legal Citations: §§59-13-3 to 59-13-65, Utah Code Ann., 1953, 1984

Supplement, Chapters 54, 58, 61 and 66, Laws of Utah 1984.

Legislative Changes:

HB 136 <u>Corporate Franchise Tax Phase I Recodification</u> -- Makes technical changes in the corporate franchise tax statutes according to "Phase I guidelines of the Utah Tax Recodification Commission.

Legislative Fiscal Note: None required.

Amends  $\S 59-13-4$ , 59-13-7, 59-13-8, 59-13-11 through 59-13-13, 59-13-16, 59-13-19, 59-13-23, 59-13-25, 59-13-28, 59-13-35, 59-13-59, 59-13-62, 59-13-79, and 59-13-80, Utah Code Ann. 1953. Effective date: April 28, 1986 - retrospective operation to January 1, 1986.

HB 141 <u>Corporate Tax - Small Business Corporation Nonresident Tax Payments -- Provides optional methods for payment of tax on nonresidents' shares of Utah income from small business corporations.</u>

Legislative Fiscal Note: The estimated fiscal impact will be an increase in appropriations from the Uniform School Fund of \$2,000.

Amends  $\S\S59-13-4$ ,  $\S9-14A-16$ , and  $\S9-14A-42$ , Utah Code Ann. 1953. Effective date: April 28, 1986 - retrospective operation to January 1, 1986.

HB 178 Corporate Franchise Tax Water's Edge Combination -- Provides a "water's edge" approach to the computation of corporate franchise tax when a combined report is required.

Legislative Fiscal Note: This bill reduces the Uniform School Fund between \$2 million and \$4 million during fiscal year 1987-88. If federal legislation currently supported by the President of the United States and the National Association of Tax Administrators passes, increased federal auditing and state-by-state spread sheets will be available reducing the impact of this bill to the \$2 million figure.

The following analysis is an estimate of the revenue impact of this legislation:

	June 30, 1987	June 30, 1988
Eliminate income of foreign corporations	\$1,000,000	\$3,000,000
Eliminate 50 percent of the income of 80/20 corporations (domestic corporations operating in foreign countries)	750,000	2,500,000
Eliminate 50 percent of dividend income from foreign subsidiaries TOTAL	750,000 \$2,500,000	2,000,000 \$7,500,000
Compliance by corporations filing combined under new law	\$(2,500,00)	(3,500,000)
Effect of federal legislation providing full accountability and increased auditing		(2,000,000)
Estimated loss of Uniform School Fund revenue	\$0	\$2,000,000

<sup>\*</sup>Returns beginning January 1, 1986 for calendar year 1986 will be filed no sooner than April 15, 1987. Most larger corporations will file about October 15, 1987 on extension.

Amends  $\S\S59-13-5$ , 59-13-7, 59-13-78, and 59-13-93; enacts  $\S59-13-79.5$ ; repeals and reenacts  $\S59-13-79$ , Utah Code Ann. 1953. Effective date: April 28, 1986 - retrospective operation to January 1, 1986

Rules adopted by the Tax Commission:

R865-8F, Allocation and Apportionment of Net Income and Uniform Division of Income for Tax Purposes Act pursuant to Utah Code Ann. §§59-13-78 through 59-13-97: Two paragraphs of this rule were inadvertently left out, they are now included. Effective September 13, 1985.

1976	8,384,435	1986	26,077,060

<sup>1</sup>The collection figures include self-insurers tax plus insurance premium tax amounts going into the General Fund but does not include the amounts going into Second Injury Fund and Firemen's Pension Fund.

Rate of Tax:

2-1/4% of net premiums upon property and risks located in Utah, subject to retaliatory provisions; 3-1/4% of workmen's compensation insurance premiums.

<sup>\*</sup>Includes extra windfall payment when collection period switched to quarterly.

Applicable to: All insurers, including hospitals, health services and the

State Insurance Fund (workmen's compensation). Tax also

includes self-insurers for workmen's compensation.

Legal Citations: §§31-14-4, 31-37-8, 35-1-53, 31-37-9, Utah Code Ann. 1953

Legislative Changes:

SB 91 <u>Insurance Recodification Amendments</u> -- Amends the Insurance Code, including provisions relating to premium and retaliatory taxes (refer to appendix).

Insurance Department Fiscal Impact: \$1.2 million.

Amends §31A-3, Utah Code Ann. 1953 Effective date: July 1, 1986

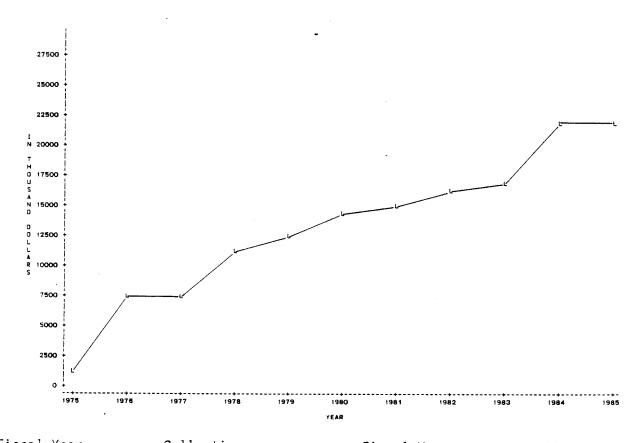

Rules adopted by the Tax Commission:

None

## **LOCAL TRANSIT AUTHORITY TAX**

## LOCAL TRANSIT AUTHORITY TAX

<u>Fiscal Year</u>	<u>Collections</u>	Fiscal Year	Collections
1975	\$ 1,383,395	1981	\$15,088,745
1976	7,707,244	1982	16,306,933
1977	9,560,527	1983	16,873,281
1978	11,170,144	1984	21,975,337
1979	12,807,371	1985	21,701,966
1980	14,324,414	1986	24,033,505

Rate of Tax:

1/4 of 1%.

#### Applicable to:

Applies to the purchase price on transactions under the state's sales and use tax laws. This tax, however, applies only in localities where voters have approved the tax to finance local bus service. Retailers and purchasers are liable under the same conditions as applicable for sales and use tax. The Tax Commission acts as agent for the participating localities.

#### Disposition of Revenue:

Returned to participating county or city as applicable.

Legal Citations: §§11-9-4 and 11-9-6, Utah Code Ann. 1953

Contact: Herb Hopes, Operations Division, Phone 530-6060

## SUMMARY OF DISTRIBUTION OF LOCAL TRANSIT AUTHORITY TAX TO PARTICIPATING UNITS FOR FISCAL YEARS 1984-85 AND 1985-86

	After Adminis	ribution trative Costs	Percentage Increase
<u>Unit</u>	7-1-84 to 6-30-85	7-1-85 to 6-30-86	<u>(Decrease)</u>
Davis County Orem Park City Provo Salt Lake County Weber County	\$ 2,143,688.32 238,970.57 289,875.98 209,921.13 15,628,588.21 2,755,500.60	\$ 2,218,763.75 1,116,576.45 327,149.14 949,820.76 15,769,907.63 2,843,570.78	3.50 367.24 12.86 352.47 .90 3.20
GRAND TOTAL	\$21,266,544.81	\$23,225,788.51*	9.21

#### NOTE:

This tax can be adopted by a county or municipality after proper procedures are followed, including voter approval. The tax rate is 1/4 of 1% of net taxable sales and is remitted on the regular quarterly sales tax return. At present only three counties; Salt Lake, Davis and Weber and three cities; Park City, Orem and Provo have adopted this tax. The tax is distributed to the cities and counties which in turn, except for Park City, transfer the funds to the Utah Transit Authority.

\*Collections and distribution may differ due to accelerated payments received in June but not distributed until September.

### SPECIAL FUEL TAX

Fiscal Year	<u>Collections</u>	Fiscal Year	Collections
1967	\$ 2,286,983	1977	\$ 6,865,182
1968	2,473,100	1978	7,391,145
1969	2,717,639	1979	9,851,605
1970	3,301,780	1980	10,469,670
1971	3,677,912	1981	10,107,098
1972	4,398,081	1982	12,672,251
1973	5,141,349	1983	12,637,102
1974	5,667,002	1984	14,448,900
1975	5,753,299	1985	17,790,559
1976	6,240,646	1986	19,368,750

Rate of Tax:

14¢ per gallon (effective July 1, 1984) for fuel (other than gasoline) used in propelling motor vehicles upon highways in Utah; governmental exemption; \$10.00 entrance permit required for non-registered vehicles; operators and dealers licensed without fee. Effective May 8, 1973, propane exemption certificate may be purchased for vehicles using propane for an annual fee of \$36 for vehicles under 33,000 pounds gross laden weight and \$70 for vehicles 33,000 pounds or more gross laden weight.

Applicable to:

Dealers required to collect tax on fuel placed in service tanks of users who do not present a valid user permit. Licensed users pay all of their tax on a use basis; returns required of all users and user-dealers.

Disposition of Revenue:

After appropriations to certain state government departments, the remainder is spread 75% to the Utah Department of Transportation and 25% to city and county B and C road funds.

Legal Citations:

§§41-11-1 (2), (6); 41-11-6; 41-11-49; 41-11-50, Utah Code Ann. 1953.

Legislative Changes:

SB 26 <u>Special Fuel Permit Exemption</u> - Exempts some users of motor vehicles powered by special fuels from the permit requirements of this fuel tax; allows the filing of an affidavit that payment of special fuel taxes was made at the pump under certain circumstances.

Legislative Fiscal Note: This bill would have no impact on revenue, since it only amends the section requiring filing for a permit. Persons driving vehicles powered by propane would still need to purchase annual "exemption permits."

Amends §41-11-53, Utah Code Ann. 1953. Effective Date: March 6, 1986

SB 139 <u>Special Fuel Permit and Fee Amendments</u> – Removes the requirement that there be a special fuel vehicle permit number for each vehicle using special fuel, requires the user of special fuels to obtain a single permit for all vehicles.

Legislative Fiscal Note: This change does not have a fiscal impact, but provides for the Tax commission to set fees. If the Tax commission increases the fees after the effective date, there would then be a slight fiscal impact to the Transportation Fund.

Amends §41-11-52, Utah Code Ann. 1953 Effective Date: July 1, 1986

Rules adopted by the Tax Commission:

R865-2SF, Nature of Tax Exemption Certificate - Off Road Use pursuant to Utah Code Ann. §41-11-52: The change in this rule regulates the method of taxing compressed natural gas and the conversion to gallons. Effective November 1, 1985.

R865-3SF, User-Dealer's License pursuant to Utah Code Ann. §41-11-51: This rule changes the yearly licensing requirement so that licenses will remain in effect until the holder ceases to act as a user-dealer. Effective November 1, 1985.

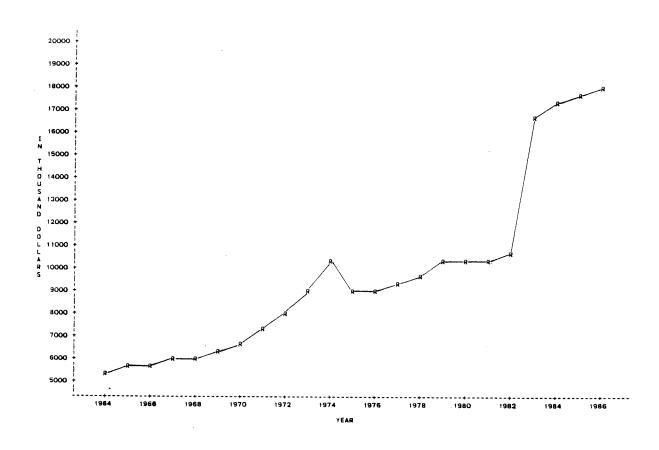

R865-5SF, Issuance of Special Fuel Entrance Permits pursuant to Utah Code Ann.  $\S\S41-11-52$  and 41-11-53: This rule increases the fee for special fuel permits to compensate for the tax rate increase. Effective November 1, 1985.

R865-7SF, Returns pursuant to Utah Code Ann. §§41-11-52: This rule deletes the mileage schedule requirement and adds interest. Effective November 1, 1985.

Contact: Ray Jorgensen, Managing Auditor, Miscellaneous Taxes, 530-6289

## **MOTOR VEHICLE REGISTRATION TAX**

## MOTOR VEHICLE REGISTRATION FEES

Fiscal Year	Collections	Fiscal Year	Collections
1967	\$ 5,855,552	1977	\$ 9,254,984

Renewal of Personalized Plates	§41-1-49.17, Utah Code Ann. 1953	5.00 +
		Reg. Renewal
Transfer of Personalized Plate	s §41-1-49.18, Utah Code Ann. 1953	7.00 +
	-	Reg. Trans.

#### Applicable to:

Every vehicle which is self-propelled or propelled by electric power in, upon, or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power, or used exclusively upon stationary rails or tracks.

#### Disposition of Revenue:

After appropriations to certain state government departments, the balance is spread 75% to the State Department of Transportation and 25% to city and county B and C road funds.

#### Legal Citations:

§§41-1-127 and 41-1-141, Utah Code Ann. 1953.

As amended by Chapter 79, Laws of Utah, 1967, effective July 1, 1967. For registration and taxation of campers, see Chapter 105, Laws of Utah, 1971; and Chapters 9 and 10, Laws of Utah, 1972.

Legislative Changes:

SB 77 <u>License Plate Fee - Dedicated Credits</u> - Provides for the collection of reflectorized plate fees to cover plate cost, validation, storage, distribution and other expenses rounded up to the nearest 50¢. All fees collected are to be deposited as non-lapsing dedicated credits.

Legislative Fiscal Note: This bill makes fees for license plates a dedicated credit and allows the Tax Commission to spend the funds for costs associated with production and distribution of plates and for other expenses. The dedicated credits are made non-lapsing and, as a dedicated credit, the Tax Commission is able to spend up to the amount collected.

Amends §41-1-43, Utah Code Ann. 1953 Effective date: April 28, 1986

SB 119 <u>Uniform Probate Code Amendments</u> - Increases the value of the decedents estate transferable by affidavit from \$20,000 to \$25,000. Increases the number of transferable vehicles from three to four and includes boats which are now titled under the Motor Vehicle Code.

Legislative Fiscal Note: None required.

Amends §§75-6-201 and 75-3-1201, Utah Code Ann. 1953 Effective Date: April 28, 1986

SB 130 <u>Taking of Vehicle Amendment</u> - Makes minor changes in phraseology and establishes the offense as a Class A misdemeanor.

Legislative Fiscal Note: It is estimated that any costs associated with the passage of this bill can be handled within the current budgets of the law enforcement agencies, courts and corrections.

Amends §41-1-109, Utah Code Ann. 1953 Effective Date: April 28, 1986

HB I (Second Special Session) Off-Highway Vehicle Amendments - Makes several changes in definitions of off-highway vehicles; enacts a definition of a off-highway implement of husbandry; provides for the issuance of an off-highway implement of husbandry sticker at no additional fee in conjunction with the issuance of regular off-highway vehicle registration and enacts the provisions under which an off-highway implement of husbandry can operate on the highway.

Legislative Fiscal Note: The increase in the amount of property tax credit afforded to low-income homeowners and renters under this bill would result in a loss of \$949,000 to the General Fund in fiscal 1987, and a loss of \$1,100,000 to the General Fund in fiscal 1988.

Amends  $\S\S41-22-1$  through 41-22-21 and enacts  $\S\S41-225.5$ , 41-22-10.1 through 10.5, and 41-22-28, Utah Code Ann. 1953. Repeals  $\S\S41-22-6$  and 41-22-20 through 41-22-27, Utah Code Ann. 1953. Effective Date: Upon approval of the Governor. Signed June 20, 1986.

HB 19 <u>Transporter License Plates</u> - Provides for financial institutions to obtain special license plates for the operation of a repossessed vehicle by a prospective purchaser.

Legislative Fiscal Note: This bill had no fiscal impact.

Amends §41-3-30, Utah Code Ann. 1953 Effective Date: April 28, 1986

HB 86 <u>Disabled Persons Parking Amendments</u> - Changes the required location for display of transferable identification cards and provides for the recognition of distinctive handicapped license plates or transferable identification cards issued by another state if the vehicle is used by a handicapped person.

Legislative Fiscal Note: None required.

Amends §§41-1-49.8 and 41-1-49.9, Utah Code Ann. 1953 Effective Date: April 28, 1986

HB 158 Vehicle Safety Inspection Amendments - Provides for a vehicle safety inspection certification as a prerequisite to the registration or renewal of registration as of January 1, 1988. The inspection must be within sixty (60) days prior to registration. The vehicle registration will be proof of inspection. Certain vehicles must still display a certification of inspection, such as commercial vehicles and vehicles bearing "EX" license plates. The bill also provides for the issuance of a restricted title without a valid inspection provided no license plates are issued. The amendments also made other changes with respect to the licensing of official inspection stations, increased the charge to the inspection station from 25¢ to \$1.00. It also increased inspection fees to \$5.00 or less for motorcycles, \$9.00 or less for passenger cares and 3/4 ton trucks, and \$12.00 or less for four-wheel drive or large trucks.

Legislative Fiscal Note: The Department of Public Safety presently sells 1,400,000 safety inspection stickers and supplies to the stations for \$.25 each. That amounts to \$350,000 in revenue to the state. The increase of \$.75 for inspection supplies will generate \$1,400,000 annually. This would represent an increase of \$1,050,000 in revenue to the state. Currently, inspection sticker revenue is deposited into the Transportation Fund. Enactment of this legislation would deposit all receipts with the Department of Public Safety as a dedicated credit. There would be no appreciable increase in costs to operate the program.

Amends §§41-1-51, 41-6-158 through 161 and 41-6-163, Utah Code Ann. 1953 Effective Date: April 28, 1986

HB 263 Motor Vehicle Amendments - Provides definitions and requires an odometer statement to the transferee upon sale of a vehicle. Provides for the odometer reading to be printed on the Utah Certificate of Title when issued and for a class of offenses, Class A misdemeanor or third degree felony, depending on the act performed. Provides for the issuance and display of a renewal decal on the license plates issued to dealers, dismantlers, manufacturers and transporters.

Enacts  $\S\S41-1-187$  through 194, subsequently renumbered  $\S\S41-1-167$  through 41-1-174, Utah Code Ann. 1953 Amends  $\S\S41-3-34$  and 41-3-35, Utah Code Ann. 1953

Legislative Fiscal Note: To administer the provisions of this bill, the Motor Vehicle Division needs an additional \$7,000 from the Transportation Fund to pay for needed data entry equipment. Effective Date: April 28, 1986

Rules adopted by the Tax Commission:

R873-17V, State Impound Yards pursuant to Utah Code Ann. §§41-6-44.30 and 41-6-116.10: This rule divides the state into manageable geographic areas to better serve the needs of peace officers; establishes guidelines and criteria for the selection of state impound lots; and provides an equitable system for rotation of calls to areas where more than one impound lot is selected. Effective January 1, 1986.

R877-10VB, Uniform Vehicle Identification Numbering System for License Manufacturers, pursuant to Utah Code Ann. §41-3-6 1953: This rule administers the provision of the National Highway Traffic and Safety Administration's Motor Vehicle Safety Standard No. 115, regarding 17 character Vehicle Identification Number (VIN) requirements. Effective April 22, 1986.

R877-11VB, Licensee Current Information Update, pursuant to Utah Code Ann.  $\S41-3-12$  1953: This rule requires every licensee to notify the Motor Vehicle Business Administration of changes in ownership, address, etc.; and authorizes the division to review files and requires updates as necessary. Effective May 30, 1986.

Contact: Edward Berry, Motor Vehicle Division, 533-5311

1976	7,504,408	1986	13,134,473

Rate of Tax:

12 cents per pack (6 mills per cigarette), effective July 1, 1982, previously 5 mills (provision for taxing cigarettes weighing more than 3 pounds per thousand cigarettes is not in use as such cigarettes are not on market); \$10.00 license for retailers and dealers; tobacco products other than cigarettes are taxed at rate of 25% of manufacturers sale price delivered into Utah prior to July 1, 1986 and 35% thereafter.

Applicable to:

Wholesalers and distributors purchase stamps or use cigarette stamping machines for payment of the tax for cigarettes, 4% discount on stamp purchases or authorized machine use in excess of \$25.00; quarterly returns required of dealers liable for payment of tax on other tobacco products.

Disposition of Revenue: General Fund.

1975	623,219	1985	4,925,930
1976	1,031,466	1986	5,565,058

Rate of Tax:

Up to 3% as fixed by county ordinance. As of June 30, 1985, rates are 1 1/2% in San Juan and Tooele Counties; and 3% in all other counties. Effective April 1, 1986, Rich County increased to 3%

Applicable to:

The rental charge for any suite, room or rooms in a motel, hotel, motor court, inn or similar public accommodation for fewer than 30 consecutive days. This tax is over and above the applicable sales tax. The Tax Commission acts as agent for the counties.

#### Disposition of Revenue:

Returned to the 29 Utah counties.

Rate of Tax:

4¢ per gallon

Applicable to:

The sale or use of gasoline or special fuel sold at airports for airplane use.

Disposition of Revenue:

Transportation Fund. Three-fourths (75%) of the amount allocated to the aeronautics restricted revenue account is expended at the airport where the fuel is sold.

The remaining one-fourth (25%) is expended as the Department of Transportation, or other designated authority, may determine for the promotion, supervision and regulation of aeronautics and for the construction, improvement and maintenance of airports in the state.

1979	2,238,762	1985	3,851,087
1980	2,497,909	1986	4,331,801

#### Rate of Tax:

Full annual registration fees and highway use fees are proportionally computed according to the applicant's prorate percentage. The prorate percentage is determined as a fraction, the numerator of which is an amount equal to fleet mileage traveled in Utah and the denominator is total miles operated by the fleet in all jurisdictions. The cab card fee for tractors and trailers is \$3.00.

#### Applicable to:

Any resident or nonresident may proportionally register and license each fleet for operation in this state, where a fleet is one or more commercial vehicles which supply motive power and contain a compartment for the driver. "Fleet" also means not less than ten commercial vehicles which are trailers or semitrailers. Vehicles which exclusively travel in Utah are not included in any application for proportional registration.

Disposition of Revenue:

Transportation Fund

# **HIGHWAY USE TAX**

# HIGHWAY USE TAX

#### Rate of Tax:

Every owner of proportionally registered vehicles who has not presented the certificate required by  $\S41-1-32$ , or qualified under  $\S41-1-34$ , Utah Code Ann. 1953, and who has been approved by the department for proportional registration shall pay, at the time of proportional registration, a proportional part of an equalized highway use tax computed as follows:

(a) Multiply the number of vehicles or combination vehicles registered in each weight class by the equivalent tax figure from the following table:

Vehicle or Combination Registered Weight	Equivalent Tax
6,000 - 18,000 pounds	\$ 100
18,001 - 33,000 pounds	200
33,001 - 48,000 pounds	300
48,001 - 63,000 pounds	450
63,001 pounds and over	600

(b) Multiply the value for the total fleet determined under (a) above, by the fraction computed for proportional registration of the applicant's fleet for the registration year.

Fees for vehicles not previously registered or otherwise qualified for operation in the state shall be reduced as provided in  $\S41-1-130$ , Utah Code Ann. 1953; provided that such vehicles have not been illegally operated on the highways of this state prior to application for proportional registration.

#### Applicable to:

Every owner of proportionally registered vehicles who has not presented the certificate required by  $\S41-1-32$ , Utah Code Ann. 1953 (i.e., has not paid personal property tax to the county assessor), and who has been approved by the department for proportional registration shall pay, at the time of proportional registration, a proportional part of an equalized highway use tax. This tax is in lieu of a personal property tax.

		1986	1,270,208

#### Rate of Tax:

The 96-hour temporary permit fee for commercial vehicles is \$20.00 for single units and \$40.00 for multiple units.

#### Applicable to:

Commercial vehicles meeting the registration requirements of another jurisdiction and subject to registration, but not entitled to exemption from registration or licensing under this chapter, may, as an alternative to either registration or proportional registration, secure a temporary permit for a period not to exceed 96 hours for a fee of \$20.00 for single units and \$40.00 for multiple units; provided, that no fee is required for any trailer or semitrailer being towed by a power unit of a proportionally registered fleet for which an interchange permit is issued. No temporary permit or registration fee is required from non-resident owners or operators of vehicles or combination of vehicles having (a) a gross laden weight of not more than 26,000 pounds for each vehicle operated as a single unit, or for each combination of vehicles if operated as such, or (b) an unladen weight of not more than 7,000 pounds for each vehicle if operated as a single unit, or for each combination of vehicles if operated as such.

<sup>\*</sup> These distributions are actual distributions on a cash basis. They do not equal net collections, which include taxes from accelerated sales in May and June and are not distributed until the next fiscal year.

# APPENDIX: HISTORICAL RATE AND BASE CHANGES

### STATE SALES AND USE TAXES

#### Rate of Tax Changes and Effective Dates:

May 1, 1933 - §59-15-4(a) through (d), Utah Code Ann. 1953, increased rates from 3/4 to 2% and malt 5% to 10%.

July 1, 1961 - Raised the tax to 2-1/2% for subsections (a) through (g).\*

July 1, 1965 - Raised the tax to 3% for subsections (a) through (g).

April 1, 1969 - Substituted 4% for 3% (a) through (g).

July 1, 1977 - Reduced the tax from 4% to 1% on all amounts paid for residential or domestic utilities.

July 1, 1983 - Increased to 4-1/8% from 4% until June 30, 1987, then back to 4%.

October 1, 1983 - Temporarily increased to 4-5/8% from 4-1/8% until September 30, 1984, then scheduled to revert back to 4-1/8%.

October 1, 1984 - "Temporary" 1/2% increase made "permanent."

March 18, 1985 -  $\S\S59-15-4$  and 59-16-3, Utah Code Ann. 1953, set the state tax rate at 4-5/8% from October 1, 1983, through June 30, 1986; 4-38/64% from July 1, 1986 through December 31, 1989 and 4-1/2% from January 1, 1990, and thereafter.

#### Tax Base Changes and Effective Dates:

1937 - Amendment added sale of newspapers in (a); inserted "club" in (c).

March 18, 1943 - Exempted sales of fuel in (a).

July 1, 1959 - Added subsection (e) including taxes on service repairs of tangible personal property.

May 14, 1963 - Exchanges of property redefined.

July 1, 1965 - Redefined again.

July 1, 1965 - Deleted (b) (2) which exempted electrical power plants owned by non-profit corporations from paying sales tax.

April 1, 1969 - Inserted "cleaning or washing" in subsection (e); added sub (h) which taxes leases or rentals of tangible personal property.

\*All other citations refer to §59-15-4, Utah Code Ann. 1953.

- May 8, 1973 Exempted tangible property or services incorporated or used in the construction of pollution control facilities.
- May 13, 1975 Allowed a sales tax credit for taxpayers who prepay sales tax under the Resource Development  ${\sf Act}$  to finance state-related public improvements.
- May 13, 1975 Deleted exemption for coin-operated laundry and dry cleaning services from subsection (e).
- April, 1976 exempted sales of "medicine" i.e., prescription drugs. Reexempted sales from coin operated laundry or dry cleaning services.
- July 1, 1979 phased in exemption of sales of tangible personal property used or consumed primarily and directly in farming operations, specifically denying exemption to equipment, etc. used incidentally on farms. The exemption from sales tax was phased in as follows:
  - 1) One percent on July 1, 1979
  - 2) Two percent on July 1, 1980
  - 3) Three percent on July 1, 1981
  - 4) Total exemption on July 1, 1982
- July 1, 1980 Extended sales and use tax exemption for air and water pollution control facilities to January 31, 1985.
- May 10, 1981 Provided for an exemption from sales and use tax on the sale of oxygen and stoma supplies used in medical treatment.
- May 10, 1981 Defined "motion picture exhibitor" and provided for exemption of sales of "commercials, motion picture films and video tapes by a producer, distributor or studio to a motion picture exhibitor, distributor or commercial television broadcaster."
- April 1, 1983 Provided an exemption from tax for certain items (food, beverages, candy, etc.) sold and dispersed from vending machines when proceeds do not exceed one dollar if the vendor or operator of the vending machine reports an amount equal to 120% of the cost of such items as "goods consumed" on their sales tax return.
- May 10, 1983 §59-15-4, Utah Code Ann. 1953 (Sales Tax Act), was amended to exempt from Utah sales and use tax, the sale of "currency and coinage constituting legal tender of the United States or of a foreign nation, all sales of gold, silver, or platinum ingots, bars, medallions, or decorative coins, not constituting legal tender of any nation, with a gold, silver or platinum content of not less than 80%."

The exemption was effected by defining these items as  $\underline{not}$  being tangible personal property. In this way, consumers cannot use a tax-free purchase of these items as a later  $\underline{trade}$  for some taxable purchase.

May 10, 1983 - §59-15-6, Utah Code Ann. 1953 (Sales Tax Act), was amended to provide for an exemption for the sale of "pre-recorded audio program tapes or records" by a producer, distributor or studio when sold to "commercial radio broadcasters." This bill corrects an apparent oversight of the exemption afforded television stations during the 1981 Legislative Session. Blank (virgin) tapes or records purchased by radio broadcasters for in-house use would not be exempt from tax.

May 10, 1983 - §59-15-6, Utah Code Ann. 1953, provided an exemption for "sales of food, beverages, dairy products, similar confections and related services to commercial airline carriers for in-flight consumption."

May 10, 1983 - \$59-16-4, Utah Code Ann. 1953 (use tax law), was amended to qualify and limit the exemption from use tax on items brought into Utah for use by non-residents. The use tax exemption will <u>not</u> apply to property purchased for use in Utah by a non-resident living and working in Utah.

This change was made primarily to prevent non-resident military and construction workers from going out of state (while living and working in Utah) to buy cars and then registering and using them in Utah without paying use tax.

July 1, 1984 - §§59-15-6 and 59-16-4, Utah Code Ann. 1953, were amended to allow a sales and use tax exemption for five years beginning on July 1, 1984 on purchases of materials, equipment, and services used for new construction, expansion, or modernization of any mine, mill reduction works, smelter, refinery (excluding oil and gas), synthetic fuel processing and upgrading plant, rolling mill, coal washing plant or melting facility. This exemption applies only to amounts purchased during the year in excess of the first \$500,000.00 of taxable material and services subject to sales or use tax.

July 1,  $1984 - \S59-15-6$  and 59-16-4 Utah Code Ann. 1953, were amended to provide a sales and use tax exemption for all sales of parts and equipment installed in aircraft used primarily in scheduled interstate or foreign commerce. The exemption does not extend to service or labor charges for repair, cleaning or installation.

July 1,  $1985 - \S\S59-15-6$  and 59-16-4, Utah Code Ann. 1953, were amended to exempt from sales and use taxes machinery and equipment purchased or leased by a manufacturer for use in new or expanding operations in any manufacturing facility in Utah. Normal operating replacement machinery and equipment were specifically excluded from the exemption.

July 1, 1985 - §§26-13-27 and 26-13-28, Utah Code Ann. 1953, extended the sales and use tax exemption for pollution control equipment. The exemption expired on January 31, 1985, and is scheduled to be revived on July 1, 1986, with a new expiration date of January 31, 1991.

Collection Period Changes and Effective Dates:

April 1, 1984 - §§59-15-5 and 59-16-7, Utah Code Ann. 1953, were amended to provide that the sales and use tax liability accrued during April and May must be paid on or before June 15th of each year. This requirement pertains to persons whose tax liability was: (a) \$96,000 for the previous 12 month period; (b) \$24,000 for the previous quarter; or (c) whose estimated tax liability is \$8,000 or more per month. A specific 10% penalty is imposed on underpayment of the required prepayment or to late prepayments.

July 1,  $1985 - \S\S59-15-5$  and 59-16-7, Utah Code Ann. 1953, changed the quarterly tax collection dates for sales and use taxes from the 30th day of the month following the end of each calendar quarter to the last day of the month following each calendar quarter.

July 1,  $1986 - \S59-15-6(1)(a)(ii)$ , Utah Code Ann. 1953, was amended to delete the specific exemption for "sales to the United States Government". Under another unchanged part of this law,  $\S59-15-6(1)(a)(xiii)$ , Utah Code Ann. 1953, direct sales to the U.S. Government remain exempt from Utah sales or use tax. The deletion in the other section was made in order for the state to be poised and ready to tax any sales to the federal government which they might allow to be taxed in the future.

July 1, 1986 - §59-15-6(6) and 59-16-4, Utah Code Ann. 1953, were amended to allow an exemption from Utah sales or use tax for the purchase of tooling, support equipment, and specific test equipment used or consumed exclusively in the performance of any aerospace or electronic industry contract with the U.S. Government or any subcontract thereunder, provided that title to such items vests at time of purchase to the U.S. Government.

October 1, 1986 - §59-15-6(6), Utah Code Ann. 1953, was amended to provide an exemption from sales tax for food purchased with federal food stamps.

### INDIVIDUAL INCOME TAX

Rate or Fee Changes and Effective Dates:

#### TAX RATES

1935 - 1965

	Prior to		
Taxable Income	1935	1935	1965
\$0 - 1000	1.00%	1.0 %	2.0 %
\$1001 - 2000	1.25	2.0	3.0
\$2001 - 3000	1.50	2.0	4.0
\$3001 - 4000	1.75	4.0	5.0
\$4001 - 5000	2.00	5.0	6.0
Greater than \$5000	<del></del>	5.0	6.5
\$5001 - 6000	2.50		
\$6001 - 7000	3.00		
\$7001 - 8000	3.50		
Greater than \$8001	4.00		

Tax Base Changes and Effective Dates:

May 14, 1935 (For taxable year beginning January 1, 1935) - Gross income composed of all gains and profits from salaries, wages, property both real and personal, interest, rent, dividends, and securities. Life insurance payments, gift inheritances, interest from state or U.S. obligations, workmen's compensation and health insurance payments were not included in gross income. Allowable deductions were: business expenses, interest paid, taxes paid, losses, bad debts, depreciation, depletion and contributions. Credits against net income were: \$600 for a personal exemption, \$1200 for a married couple exemption, and \$300 exemption for each dependent.

February 20, 1947 - Special credits against net income for individuals in the military for taxable years 1946-49; \$2700 personal exemption and \$3300 married couple exemption.

May 10, 1955 - (Applicable to taxable years from January 1, 1955) - Standard deductions in lieu of itemizing were instituted granting that the taxpayer may elect to deduct from gross income: the federal income tax, 10% of remaining gross income, and the additional deductions allowable in 1935 cited above.

1955 - The 1955 amendment also allowed additional deductions to gross income: interest on indebtedness; all taxes except social security payments, railroad retirement payments, estate, inheritance, legacy succession and gift taxes and federal income taxes. It also increased the dependent exemption from \$300 to \$600.

May 12, 1959 (Applicable to taxable years beginning January 1, 1959) - Excluded from gross income payments received under federal old age and survivor's insurance program and annuities for services as a federal civil service employee. Also provided that motor fuel taxes may be deducted from gross income of the consumer even though imposed on the refiner.

February 20, 1963 - Included in bysiness expenses to be deducted from gross income are contributions made by an employer to a trust or annuity for the benefit of some or all employees or by self-employed individuals for themselves or employees.

May 9, 1967 - Inserted §59-14-4(6) Utah Code Ann. 1953, asserting that the aggregate of amounts paid by employers for annuity contracts for the benefit of employees is excluded from gross income unless it exceeds the exclusion allowance as set out in the Internal Revenue Code.

January 1, 1973 - Reconstituted taxable income according to federal taxable income definitions. Thus, state taxable income equals federal taxable income less retirement income, interest from U.S. government obligations and other adjustments.

January 1, 1977 - Changed applicability of Internal Revenue Code date which allowed increased low income and standard deductions.

# LOCAL OPTION SALES AND USE TAX

#### Rate or Fee Changes and Effective Dates:

July 1, 1959 through June 30, 1975 - Optional at 1/2 of 1%.

July 1, 1975 through June 30, 1983 - Optional at 3/4 of 1%. All counties, however, did adopt the 0.75% rate.

July 1, 1983 through June 30, 1986 - Rate increase to 7/8 of 1% is optional. Most cities and counties increased to 7/8 of 1%.

July 1, 1986 through December 31, 1989 - Rate increase to 29/32 of 1%.

Beginning January 1, 1990 - 1%.

#### Major Base Changes:

For taxable and exempt items, refer to state sales and use tax. The local tax adopts the state tax by reference. The base for disposition of revenue changes July 1, 1983, from point of sale to a combination population/point of sale going from 25% population for fiscal year beginning July 1, 1983, in multiples of 5% until July 1, 1985. From July 1, 1985, through December 31, 1989, the distribution reverts back to 25 percent population and 75 percent based on point of sale.

### MOTOR FUEL TAX

Rate or fee Changes and Effective Dates:

Year	Rate (cent/gal)	Date
1923	2.5	March 8, 1923
1925	3.5	April 1, 1925
1931	4.0	May 12, 1931
1951	5.0	July 1, 1951
1957	6.0	May 14, 1957
1969	7.0	July 1, 1969
1978	9.0	July 1, 1978
1981	11.0	July 1, 1981
1984	14.0	July 1, 1984

#### Tax Base Changes and Effective Dates:

March 8, 1923 - Originally enacted to include all motor vehicle fuels sold in the state except such fuel brought into the state and sold in original packages as purely interstate commerce sales.

April 1, 1925 - Tax levy on the sale of motor vehicle fuels regardless of use or purpose.

May 12, 1931 - Tax base expanded to include municipalities, counties, school districts, and every other arm or branch of state government.

February 17, 1947 - Exempted sales to the United States and its agencies when purchased in quantities of 1,250 gallons or more.

July 1, 1951 - Imposed excise tax of four cents per gallon upon all gasoline sold at airports exclusively for airplane use.

May 14, 1955 - Tax base adjusted to exclude motor fuels sold or used in this state that have been manufactured by low-temperature carbonization or distillation of coals, oil shales, or hydrocarbons within the state.

May 14, 1963 - Exempted the divisions and agencies of the U.S. Government. Lowered the minimum refund claim to \$10.00.

June 1, 1967 - Reduced the exemptions to the U.S. Government and agencies to purchases of 1,000 gallons or more and reduced quantity limitation on state agencies from 1,250 to 1,000 gallons.

June 1, 1967 - Appropriated from the motor fuel tax fund to the State Tax Commission \$50,000 in addition to any other appropriation provided, to administer the Motor Fuel Tax Act for the first biennium.

September 1, 1967 - Changed farmer gas tax refunds to calendar year filing.

#### (MOTOR FUEL TAX -- continued)

July 1, 1977 - Changed gas tax refunds to a claim on income or corporate franchise tax returns.

July 1, 1979 - Reduced government quantity exemption from 1000 to 750 gallons.

July 1, 1980 - Provided preferential tax treatment (5¢ less per gallon) on qualifying gasohol.

July 1, 1981 - Gasohol treatment extended to gasoline blended with 10% methanol-based synthetic fuel.

September 1, 1983 - Provides for a reduced rate of tax on motor fuel containing "alcohol" as defined in the act. The reduction results in a tax of five cents per gallon less than the eleven cent rate. The reduced rate does not take effect, however, until and unless there is a commercial alcohol manufacturing plant in Utah with an annual production of at least one million gallons of alcohol.

June 30, 1984 - Reduced rate on gasohol expired.

July 1, 1984 - 40¢ per gallon incentive for production of at least one million gallons per year to producers on ethanol produced in Utah and sold directly to blenders of gasohol for blending into gasohol for sale, use or distribution in Utah.

January 1, 1985 -  $30\phi$  per gallon gasohol incentive when federal tax differential increased by  $1\phi$  per gallon.

# CORPORATE FRANCHISE AND INCOME TAX

Rate or Fee Changes and Effective Dates:

May 12, 1931 - 3% of net income

January 1, 1955 - 4% of net income

January 1, 1965 - 6% of net income

January 1, 1968 - Increased the minimum tax from \$10 to \$25.

January 1, 1937 - Amendment deleted a provision relating to tax-free interest upon obligations of the state, the United States, and those issued under act of Congress. Applicable to taxable years beginning January 1, 1937. This revision made these obligations taxable.

January 1, 1967 - Amendment allowed deductions from gross income of contributions or gifts for the use of governments and special associations operated for religious, charitable, scientific, literary, or educational purposes or for the prevention of cruelty to animals under special conditions.

January 1, 1973 - Amendment allowed net loss carryovers and carrybacks to be deducted from gross income.

1973 - Amendment exempted IRS entitled subchapter "S" corporations.

1973 - Amendment made the tax applicable to national banks and deleted a provision relating to installment payments.

January 1, 1977 - Amendment changed the tax rate from 6 to 4% of net income, but also deleted federal, state, or foreign tax deductions when computing net income.

May 10, 1983 - Changes corporation franchise tax from 4 to 4.65% for tax years beginning on or after January 1, 1983, and back to 4% for tax years beginning on or after January 1, 1984; raises the minimum franchise tax from \$25.00 to \$50.00; and changes the depreciation and depletion schedules to those used in the Federal Internal Revenue Code.

1984 - Change of corporation franchise and income tax rate from 4.65 to 5% for tax years beginning on or after January 1, 1984, and minimum franchise and income tax amount increased from \$50.00 to \$100.00; provision made for the inclusion of Utah municipal bond interest income and interest income from securities of the U.S. Government and its agencies in Utah taxable income. The inclusion of the interest income is offset by a direct credit against the tax due.

### (CORPORATE FRANCHISE AND INCOME TAX -- continued)

The credit is one half the tax rate multiplied against the amount of the Utah bond interest income plus the U.S. interest income up to the amount of the Utah bond interest income and this provision is effective for all years against which the statute of limitations had not run as of April 10, 1983; provision made for a tax credit of up to 25 percent of the fair market value of high technology equipment contributed to public and higher education, not to exceed the basis of the property contributed, and this enactment has retrospective operation to January 1, 1984. Exempts nonprofit homeowners associations from state corporate franchise tax under specific conditions.

# MINE OCCUPATION TAX

Rate or Fee Changes and Effective Dates:

May 11, 1937 - 1% tax on gross value of metalliferous ores only; annual exemption - \$20,000.

January 1, 1960 - Increased rates for oil, gas and other hydrocarbonic substances from 1 to 2% of gross value.

Tax Base Changes and Effective Dates:

May 13, 1947 - Raised exemption to \$50,000.

January 1, 1956 - Inserted provisions for tungsten, uranium and other fissionable materials.

January 1, 1984 - Exempted stripper well- production and granted exemption for the first six months of production on new wells spudded after January 1, 1984.

·				
	•			
		,		
				·

# INSURANCE PREMIUM TAX

Rate or Fee Changes, Tax Base Changes, and Effective Dates:

July 1, 1986 - Recodification of the complete insurance law. See listing below of tax changes.

New Tax Rates
Title insurance rate, .45% on premiums received on or after July 1, 1986. County Mutual Fire subject to 2 1/4% on premiums received on or after July 1, 1986. Workers' Compensation, an additional 1/2 of 1% applicable to premiums received for one year period, July 1, 1986 through June 30, 1987. This money goes into the "Uninsured Employers' Fund." Workers' Compensation Premiums received for "Utah Public Agencies" are exempt from the 1/4 of 1% going into the "State General Fund" on or after July 1, 1986. This will make premiums from Utah Public Agencies subject to 3-1/4% for the period January 1 through June 30, 1986, 3-3/4% for the period July 1, 1986 through June 30, 1987 and 3-1/4% thereafter. Dividends are not a deduction in arriving at Taxable Workers' Compensation Premiums.

UNLESS OTHERWISE PROVIDED FOR UTAH'S PREMIUM TAX RATE IS 2-1/4%.

Change in Taxability
Effective July 1, 1986, insurers doing business as county mutuals, cooperatives and mutual benefit associations shall pay premiums received after July 1, 1986 on the same basis as any other mutual insurer.

Exemptions
Premiums received from Utah Institutions of Higher Education (other than Workers' Compensation) received on or after July 1, 1986, are not taxable. This type of premium, however, may still be taxable on a retaliatory tax basis.

All annuity considerations received after July 1, 1986, are exempt.

Qualifying Health Care Premium: Effective July 1, 1986, premiums received on policies providing benefits for qualifying health care services solely on a expense incurred basis are not taxable in computing tax due on the Utah basis. This type of premium may still be taxable on a retaliatory tax basis. Refer to §§31A-1-301 [35] and 31A-3-201 [5], Utah Code Ann. 1953.

(35) "Health care insurance" or "health insurance" means disability insurance providing benefits solely of medical, surgical, hospital, or other ancillary expenses incurred. "Health care insurance or health insurance" does not include disability insurance providing benefits for: (a) replacement of income; (b) short term accident; (c) fixed indemnity; (d) credit disability; (e) supplements to liability; (f) workers' compensation; (g) automobile medical payment; (h) no-fault automobile; (i) equivalent self insurance; (j) or any type of disability insurance coverage that is a part of or attached to another type of policy.

(35.5) "Indemnity" means the payment of an amount to offset all or part of an insured loss.

Estimated Premium Tax Payments:

Quarterly prepayments are due on or after August 1, 1986, only if the prior years tax was \$10,000.00 or more (changed from \$3,000.00). Each quarterly prepayment should be based on the tax due on the premiums received during the quarter or a minimum of 27% of the prior years tax.

Retaliatory Tax Consequences

If the domiciliary state of any insurer imposes greater taxes plus fees than those computed under Utah law, the greater aggregate amount of taxes plus fees must be paid to Utah. Taxes are paid to the Tax Commission and fees are paid to the Insurance Department. A retaliatory tax statement is required with each annual return.

#### GUARANTY FUND CREDIT:

Credits are allowed against the Utah insurance premium tax for assessments paid to the Utah Casualty Insurance Guaranty Association and class B & C assessments paid to the Utah Life & Health Guaranty Association. The credit is allowed at a rate of 20% per year starting the year following the year in which the assessment is paid.

# LOCAL TRANSIT AUTHORITY TAX

#### Rate or Fee Changes:

None. Rate has remained at 1/4 of 1% since first enacted January 1, 1975.

#### Major Base Changes:

See state sales and use tax.

# SPECIAL FUEL TAX

### Rate or Fee changes and Effective Dates:

May 13,	1941	4¢/gallon
July 1,	1951	5¢/gallon
May 14,	1957	6¢/gallon
July 1,	1969	7¢/gallon
July 1,	1978	9¢/gallon

# MOTOR VEHICLE REGISTRATION FEE

Rate or Fee Changes and Effective Dates:

1935 - Law enacted requiring the registration of all motor vehicles (March 9, 1935).

July 1, 1982 - Registration fees for vehicles not operated for hire changed from the following to current applicable rates:

Motorcycle \$2.50
Private Vehicle 5.00
Private Trailer less than 750 lbs. 2.50
All Trailers over 750 lbs. 5.00
Special Plates 5.00

The registration fees for vehicles operated for hire and farm trucks were also raised to current rates from a base of \$7.50 for vehicles with gross laden weight less than 6,000 lbs.

#### Tax Base Changes and Effective Dates:

July 1, 1955 - Registration fees based on weight were repealed.

January 1, 1960 - Added trailers of 750 lbs. or less unladen weight.

May 14, 1963 - Included 4-wheel drive pickup trucks not operated for compensation or hire when the combined gross weight of the truck and trailer does not exceed 10,000 lbs.

			-	
		-		

# CIGARETTE AND TOBACCO TAX

#### Rate or Fee Changes and Effective Dates:

#### <u>Cigarette Tax</u>:

August 5, 1933 - Established tax rate at 2 cents per pack (1 mill per cigarette).

February 18, 1954 - Tax raised to 4 cents per pack (2 mills per cigarette).

May 14, 1963 - Tax raised to 8 cents per pack (4 mills per cigarette).

July 1, 1979 - Tax raised to 10 cents per pack (5 mills per cigarette).

July 1, 1982 - Tax raised to 12 cents per pack (6 mills per cigarette).

#### Tobacco Tax:

1963 - Established tax with rate of 25%.

July 1, 1986 - Tax rate increased to 35%.

Tax Base Changes and Effective Dates:

May 10, 1977 - Eliminated 1 cent tax on cigarette papers and 1-1/2 cent tax on paper tubes.

# SCHOOL LUNCH TAX

Rate or Fee Changes and Effective Dates:

Prior to 1965 4%; 8% (effective 1965); 13% (effective July 1, 1982).

. .

# BEER TAX

Rate or Fee Changes and Effective Dates:

	1935	19 <b>45</b> <sup>2</sup>	19713	1981 <sup>4</sup>	19835
Light beer in 31 gallon barrel Heavy beer in 31 gallon barrel	\$ .80 1.60	\$1.10 4.00	  ¢2 10	  \$4 12	  \$11.00
All beer in 31 gallon barrel			\$3.10	P4.12	\$11.00

lEffective March 25, 1935 2Effective May 8, 1945 3Effective July 1, 1971 4Effective July 1, 1981 5Effective July 1, 1983

Tax Base Changes and Effective Dates:

July 1, 1953 - Amendment deleted "shipped or transported or removed for storage or consumption or sale within this state or possessed or consumed therein," and inserted, "imported or manufactured for sale, use or distribution in this state."

# TRANSIENT ROOM TAX

Rate or Fee Changes:

Rate ceiling increased from 1-1/2% to 3% effective January, 1975.

Tax Base Changes:

None

•				
	•			
		,		
			·	
	•			

# INHERITANCE TAX

Rate or Fee Changes and Effective Dates:

In 1935 the following rate structure was enacted (July 1, 1935): The tax is:

		*** ***	HIC	tax 13
If the net taxable estate but is not over \$25,000	exceeds	\$10,000		3%
If the net estate exceeds not over \$75,000	\$25,000	but is		5%
If the net estate exceeds not over \$125,000	\$75,000	but is		8%

10%

Prior to 1943, only debts of the estate were deducted to derive the net taxable estate.

If the net estate exceeds \$125,000

The 1943 amendment provided certain deductions for certain gifts and for the value of property upon which estate taxes were paid 5 years prior to the decedent's death.

In 1947, a \$40,000 exemption included for property inherited by husband, wife or children of the deceased. The exemptions apply to the 3 and 5 percent brackets. Effective date: May 13, 1947.

The 1969 amendment included deductions for an allowance up to \$5,000 for the surviving spouse or children and inserted the \$40,000 exemption in §59-12-7, Utah Code Ann. 1953. Effective date: July 1, 1979.

The 1971 amendment changed the 1935 rates to those listed on the preceding page. Effective date: Where the date of death is July 1, 1971 or later.

The 1973 amendment increased the exemption to \$60,000, where date of death is on or after July 1, 1973. Therefore:

If the taxable estate was not over \$35,000, the tax was 5 percent. If the taxable estate was over \$35,000, but not over \$85,000, the tax was \$1,750 plus 8 percent of the excess over \$35,000. If the taxable estate was over \$85,000, the tax was \$5,750 plus 10 percent of the excess over \$85,000. Deductions from the gross estate were: 1) debts of the estate, 2) property market value received by the decedent upon which estate taxes were paid within five years prior to the decedents death, 3) all gifts and contributions to the U.S., Utah or other religious, public, charitable, educational, or literary organizations, 4) an exemption of \$60,000.

#### (INHERITANCE TAX -- continued)

The 1977 amendment changed the base and rate of the inheritance tax by basing it on the credit available for state death taxes against the federal estate tax. This new law applies to all transfers of property in which the decedent died on January 1, 1977, or later. The former law applies to all transfers of property wherein the decedent died prior to January 1, 1977.

### For date of death prior to January 1, 1977

#### Rate of Tax:

5% of taxable estate not exceeding \$35,000, 8% over \$35,000 and not exceeding \$85,000, 10% in excess of \$85,000; taxable estate determined after certain deductibles and a \$60,000 exemption effective July 1, 1973.

#### Applicable to:

Information affidavit required of executors or personal representatives.

NOTE: Waivers of lien required to transfer property of decedent.

# AVIATION MOTOR FUEL TAX

Rate or Fee Changes and Effective Dates:

The tax has remained at four cents per gallon since 1951.

# PROPORTIONAL REGISTRATION FEES

Rate or Fee Changes and Effective Dates:

Former law (prior to 1974) for residents and nonresidents was based on a cent per mile fee by weight of the vehicle. For example, vehicles weighing less than 25,000 lbs. were charged 1/2 cent per mile, those weighing 25,001-45,000 lbs. were charged 1 cent per mile and so on to vehicles greater than 60,001 lbs. which were charged at 1-1/2 cents per mile traveled.

March 9, 1935 - Effective date original law enacted.

Tax Base Changes and Effective Dates:

May 12, 1953 - All nonresidents required to secure a temporary permit with exemption to passenger cars and vehicles of 1/2 tons or less, an unladen weight of less than 7,000 lbs., and a declared gross weight of less than 18,000 lbs. Effective date: March 19, 1953.

July 1, 1969 - Increased half-year fee from 50% to 60% of the annual fee.

May 14, 1963 - Increased single unit trip permit fee from \$2.50 to \$3.00. Changed weight limits from 45,500 to 45,000 lbs.
