Utah Taxpayer Advocate Service

The Taxpayer Advocate Service helps taxpayers who have made multiple, unsuccessful attempts to resolve concerns with the Tax Commission. This service helps resolve problems when normal agency processes break down, identifies why problems occurred, and suggests solutions. General Instructions and Information

What's New

- **Market Sourcing of Revenues from Performance of Services by Multi-state Taxpayers:** Corporations performing a service both in and outside of Utah must calculate the sales factor numerator on TC-20, Schedule J by considering the service income to be in Utah if the buyer receives a greater benefit of the service in Utah than in any other state. See *TC-20, Schedule J – Apportionment Schedule* in this book.

Identification Numbers

Utah uses the Federal Employer Identification Number (EIN) as the corporation's identification number with the state. The Utah Department of Commerce also issues a registration number upon incorporation or qualification in Utah. Enter both the EIN and Utah Incorporation/Qualification number in the proper fields on page 1 of form TC-20S. These numbers are used for identification of the corporate tax return.

Corporation Changes

Corporation changes (e.g., name change, physical and/or mailing address changes, merger, or ceasing to do business in Utah) must be reported in writing to both:

UT Division of Corporations and Commercial Code
Department of Commerce
160 E 300 S
PO Box 146705
Salt Lake City, UT 84114-6705

and

Master Records
Utah State Tax Commission
210 N 1950 W
Salt Lake City, UT 84134-3310

Dissolution or Withdrawal

Corporations that cease to do business in Utah must either dissolve or withdraw the corporation.

Corporations incorporated in Utah must file *Articles of Dissolution* with the Department of Commerce.

Corporations incorporated outside of Utah (foreign corporations) must obtain a *Certificate of Tax Clearance* from the Tax Commission before withdrawing from Utah. Foreign corporations must file an *Application for Withdrawal* with the Department of Commerce.

To request a *Certificate of Tax Clearance*, contact the Tax Commission. We will prepare form TC-2001 and send it to you to complete.

Dissolving and withdrawing corporations must also close their other Utah tax accounts (sales, withholding, etc.). To close related tax accounts, send a completed TC-69C, *Notice of Change for a Business and/or Tax Account*, to Master Records at the Tax Commission address above.

S Corporations Not Subject to Tax

An S corporation is not subject to Utah income tax. However, shareholders are liable for Utah income tax in their separate or individual capacities. An S corporation must withhold Utah tax on all nonresident individual pass-through entity taxpayers and all resident or nonresident business pass-through entity taxpayers. See *Pass-through Entity Withholding Requirements* below.

Pass-through Entity

A pass-through entity is an entity whose income, gains, losses, deductions and/or credits flow through to its partners (partnerships), members (limited liability companies), shareholders (S corporations) or beneficiaries (estates and trusts) for federal tax purposes.

Pass-through Entity Taxpayer

A pass-through entity taxpayer is an entity which has income, gains, losses, deductions and/or credits passed to it from a pass-through entity (e.g., an individual who is a shareholder in an S corporation, or a partnership which is a shareholder in an S corporation).

Liability for Filing and Paying

Tax Forms

The Tax Commission does not mail forms for filing corporate taxes. Get Utah forms at tax.utah.gov/forms or by calling the Forms Hotline at 801-297-6700 or 1-800-662-4335, ext. 6700.

Note: See *What to Attach and What to Keep* later in these *General Instructions* for what federal information is required with the Utah return.

Franchise Tax

Every C corporation incorporated in Utah (domestic), qualified in Utah (foreign), or doing business in Utah, whether qualified or not, must file a corporate franchise tax return. C corporation returns are filed on form TC-20. There is a minimum tax (privilege tax) of \$100 on every corporation that files form TC-20, regardless of whether or not the corporation exercises its right to do business.

S Corporation

Every S corporation (as defined in IRC Section 1361(a)) that has filed a proper and timely election under IRC Section 1362(a) must file form TC-20S, so long as the federal election remains in effect. The minimum tax does not apply to S corporations.

Income Tax

Corporations required to file under the income tax provisions are those that derive income from Utah sources, but are not qualified to do business in Utah and have no regular and established place of business in Utah, either owned or rented, and do not maintain an inventory or have employees located at a place of business in Utah.

Example 1:

A trucking company, operated in or through Utah by a foreign corporation not qualified to do business in Utah, is subject to income tax rather than franchise tax.

Example 2:

An institution making loans or issuing credit cards to Utah customers from outside Utah that are not qualified to do business in Utah and have no place of business in Utah is also subject to income tax rather than franchise tax.

A \$100 minimum tax applies to the corporate income tax.

Pass-through Entity Withholding Requirements

S corporations and business entities treated as S corporations are considered pass-through entities (see UC §59-10-1402(10)) and, for tax years beginning on or after Jan. 1, 2009, are required to withhold Utah income tax on all nonresident individual shareholders and on all resident and nonresident business shareholders. These shareholders are collectively referred to as pass-through entity taxpayers (see UC §59-10-1402(11)). An S corporation is not required to withhold on a shareholder that is exempt from tax under UC §59-7-102(1)(a) or §59-10-104.1, or if the pass-through entity is a plan under IRC Sections 401, 408 or 457 and is not required to file a return under UC Chapter 7, or is a publicly traded partnership as defined under UC §59-10-1403.2(1)(b)(iv).

Utah imposes a 5 percent withholding tax on all Utah business and nonbusiness income derived from or connected with Utah sources and attributable to pass-through entity taxpayers. The S corporation may reduce this withholding by any mineral production withholding tax and previous pass-through entity withholding tax allocated to the shareholder. This withholding tax must be paid to the Tax Commission by the original due date of the return, without regard to extensions.

The calculation of the required Utah withholding tax is done on Schedule N. See the instructions for Schedule N in this book for more details.

The S corporation must provide a Utah Schedule K-1 to each shareholder showing the amount of Utah withholding paid on behalf of the shareholder. This withholding tax is then claimed

as a credit by the shareholder on the shareholder's personal return.

If this S corporation has an interest in a partnership (also considered a pass-through entity), that partnership is required to withhold Utah income tax on Utah income allocated to this S corporation. The partnership must provide a Schedule K-1 showing the amount of Utah withholding tax paid on behalf of this S corporation. This withholding tax must be reported on TC-250 and then be allocated to the shareholders of this S corporation to be claimed on their personal returns. Enter this previous pass-through entity withholding tax for each shareholder on Schedules K and K-1.

The S corporation may request a waiver of withholding tax and any associated penalty and interest for all or selected shareholders who filed and paid tax on their personal returns on the Utah income from this S corporation. The tax must be paid on or before the S corporation's return due date, including extensions (see UC §59-10-1403.2(5)). See Schedule N instructions in this book for more details.

Qualified Subchapter S Subsidiary

An S corporation that owns one or more qualified subchapter S subsidiaries, as defined in IRC §1361(b)(3)(B), must:

- Include each subsidiary's assets, liabilities and items of income, loss and deductions as part of the parent S corporation's assets, liabilities and items of income, loss and deductions for Utah tax purposes. The qualified subchapter S subsidiary shall not be treated as a separate corporation.
- Take into account the activities of the qualified subchapter S subsidiaries in determining whether the S corporation parent is doing business in Utah. For purpose of this determination, all of the subsidiary's activities will be attributed to the parent.
- Attach TC-20S, Schedule M identifying the qualified subchapter S subsidiaries incorporated, qualified, or doing business in Utah.

Taxable Year

The taxable year for Utah tax purposes must match the taxable year used for federal tax purposes. When the taxable year changes for federal purposes, the taxable year must be changed for Utah purposes. See *Filing Return When Period Changed* below.

Filing Return When Period Changed

When changes are made to the taxable year, as indicated under *Taxable Year* above, a short-period return is required. The short-period return must cover the period of less than 12 months between the prior taxable year-end and the new taxable year. The pass-through entity withholding provisions as provided in Utah Administrative Rule R865-91-13, apply to short period S corporation returns.

Where to File

Mail your return to:
Utah State Tax Commission
210 N 1950 W
Salt Lake City, UT 84134-0300

You may also pay any tax due at tap.utah.gov.

Due Date

A return must be filed on or before the 15th day of the fourth month following the close of the taxable year. If the due date falls on a Saturday, Sunday or legal holiday, the due date becomes the next business day.

Filing Extension

Corporations are automatically allowed an extension of up to six months to file a return without filing an extension form. **This is NOT an extension of time to pay your taxes – it is only an extension of time to file your return.** To avoid penalty, the prepayment requirements must be met on or before the original return due date and the return must be filed within the six-month extension period.

Note: All pass-through withholding tax from Schedule N, column I **must** be paid by the original due date of the return, without regard to extensions.

Penalties

Utah law (UC §59-1-401) provides penalties for not filing tax returns by the due date, not paying tax due on time, not making sufficient prepayment on extension returns, and not filing information returns or supporting schedules. See more information, plus additional penalties, at tax.utah.gov/billing/penalties-interest and in Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

The Tax Commission will calculate the penalty for underpayment of required prepayments.

Interest (in addition to penalties due)

Interest is assessed on underpayments from the due date until the liability is paid in full. The interest rate for the 2018 calendar year is 3 percent.

For more information, get Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

Rounding Off to Whole Dollars

Round off cents to the nearest whole dollar. Round down if cents are under 50 cents; round up if cents are 50 cents and above. **Do not enter cents anywhere on the return.**

Suspension for Failure to Pay Tax Due

Utah law provides for suspension of a corporation's right to do business in Utah if it fails to pay taxes due before 5:00 p.m. on the last day of the 11th month after the due date.

If you owe tax but are unable to pay the entire amount, you may request a pay plan at tap.utah.gov, or complete form TC-804B, *Business Tax Payment Agreement Request* (tax.utah.gov/forms).

What to Attach and What to Keep

Include the following with your Utah TC-20S. Also, keep copies of these with your tax records.

- **Utah S Corporation Return Schedules:** Attach applicable Utah schedules A, E, H, J, K, M, N, and/or TC-250. Also attach a Utah Schedule K-1 for each shareholder.
- **Federal Return:** Attach **only** pages 1 through 5 of your federal S corporation return, plus Schedule M-3 and IRS form 1125-A, if applicable.

Do not send a copy of your entire federal return, federal Schedules K-1, credit schedules, worksheets, or other documentation with your Utah return unless otherwise stated in these instructions. Keep these supporting documents, you may be asked to provide them later to verify entries on your Utah return.

Federal Taxable Income (Loss)

Utah law defines federal taxable income as “taxable income as currently defined in Section 63, Internal Revenue Code of 1986.” Since Utah's taxable income is based on federal taxable income, a shareholder's ability to carry forward and carry back corporation losses is determined on the federal level. The loss taken by a shareholder in a given year must match the loss taken on the federal return. Losses cannot be independently carried back and carried forward in any given year on the shareholder's Utah return.

Utah Income

Complete Schedule A to determine the Utah income or loss. If the corporation does business both within and outside of Utah, the portion of the corporation income attributable to Utah is determined by first completing TC-20, Schedule J, and then Schedule A.

Business Income

Business income means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitutes integral parts of the taxpayer's regular trade or business operations. See UC §59-7-302(1)(d).

Business income apportioned to Utah is subject to the pass-through entity withholding requirements.

Nonbusiness Income

Nonbusiness income means all income other than business income. See UC §59-7-302(1)(h).

Portfolio Income

Portfolio income listed on federal return schedules may be either business or nonbusiness income.

For Utah purposes, business portfolio income (portfolio income that is business income) is apportionable income. Nonbusiness portfolio income includes gross income, other than income derived in the ordinary course of a trade or business.

Nonbusiness portfolio income may include:

- Interest
- Dividends
- Royalties
- Income from the disposition of property that produces income of a type defined as portfolio income.
- Income from the disposition of property held for investment and not used in the trade or business.
- Income from a real estate investment trust, a regulated investment company, a real estate mortgage investment conduit, a common trust fund, a qualified electing fund, or a cooperative.

Interest, dividends, royalties, etc., earned in the ordinary course of the trade or business of a pass-through entity are business income.

Example:

Interest, dividends, etc., may constitute nonbusiness portfolio income if the pass-through entity holds funds that are not used to further the trade or business. These funds can neither be commingled with the operating funds nor comprise working capital at any time during the tax year, and cannot be used as collateral, to obtain financing, or for any other business purpose.

Include nonbusiness portfolio income on Schedule A and Schedule H of this return, as applicable.

The following are examples of business income:

- Interest income on loans and investments made in the ordinary course of a trade or business of lending money.

- Interest income on accounts receivable arising from the performance of services or sales of property.
- Income from investments made in the ordinary course of a trade or business of furnishing insurance or annuity contracts or reinsuring risks underwritten by insurance companies.
- Income or gain derived in the ordinary course of an activity of trading or dealing in any property if such activity constitutes a trade or business (unless the dealer held the property for investment at any time before such income or gain is recognized).
- Royalties derived by the taxpayer in the ordinary course of a trade or business of licensing intangible property.
- Amounts included in gross income of a patron of a cooperative by reason of any payment or allocation to the patron based on patronage occurring with respect to a trade or business of the patron.
- Other income identified by the IRS as income derived by the taxpayer in the ordinary course of a trade or business.

Apportionable Income

Interest, dividends, royalties, gains, etc., derived in the ordinary course of a pass-through entity's trade or business constitute apportionable business income. Income received from holdings in or the sale of partnership interests also constitute apportionable business income. If an entity's primary business activity is investing funds (such as with a brokerage firm), interest, dividends, gains, etc., also constitute apportionable business income rather than portfolio income.

If you have a Utah sales tax license/account, report the use tax on your sales tax return. If you do not have a Utah sales tax license/account, report the use tax on line 14 of TC-20S, Schedule A.

You may take a credit for sales or use tax paid to another state (but not a foreign country). If the other state's tax rate is lower than Utah's, you must pay the difference. If the other state's tax rate is more than Utah's, no credit or refund is given. If sales tax was paid to more than one state, complete the *Use Tax Worksheet* below for each state. Add lines 8 on all worksheets and enter the total on line 14 of Schedule A.

Sales and use tax rates vary throughout Utah. Use the *Use Tax Rate Chart* below to get the rate for the location where the merchandise was delivered, stored, used or consumed. Use the county tax rate if the city is not listed.

Grocery food bought through the Internet or catalog is taxed at 3 percent. The grocery food must be sold for ingestion or chewing by humans and consumed for the substance's taste or nutritional value. The reduced rate does not apply to alcoholic beverages or tobacco. See Pub 25, *Sales and Use Tax*, at tax.utah.gov/forms.

TC-20, Schedule H – Nonbusiness Income Net of Expenses

Complete TC-20, Schedule H to determine nonbusiness income allocated to Utah and outside Utah.

Nonbusiness income is all income that does not arise from the conduct of a taxpayer's trade or business operations. Intangible income must be properly classified and based upon factual evidence. The burden of proof is on the taxpayer to justify the manner in which the income is claimed on the return.

Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iii).

Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materi-

ally contributes to the production of business income of the trade or business operations. See Rule R865-6F-8(2)(e)(iv).

Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. See Rule R865-6F-8(2)(e)(ii).

Rental income from real and tangible property is business income if the property with respect to which the rental income was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor. See Rule R865-6F-8(2)(e)(i).

TC-20, Schedule J – Apportionment Schedule

Use TC-20, Schedule J to calculate the portion of the taxpayer's income attributable to Utah if the taxpayer does business both within and outside of Utah.

Complete TC-20, Schedule J to determine the apportionment fraction (decimal). The factors express a ratio for tangible property in Utah to total tangible property everywhere, for wages and salaries in Utah to total wages and salaries everywhere, and for sales in Utah to total sales everywhere. These factors or ratios are used to arrive at the Utah apportionment fraction calculated to **six decimals**. This fraction (decimal) is then applied to the apportionable income (or loss) on Schedule A to arrive at the amount of income (or loss) apportioned to Utah. In cases where one or more of the factors is omitted due to peculiar aspects of the business operations, use the number of factors present to determine the Utah apportionment fraction.

Utah provides three different apportionment methods. Your economic activities dictate the apportionment method you may use. See *Sales Factor Weighted Taxpayers*, *Optional Sales Factor Weighted Taxpayers*, and *Other Multistate Taxpayers*, below.

Pass-through Entity Taxpayers

Partners, shareholders and beneficiaries of part of pass-through entities (an entity taxed as a partnership, s-corporation or trust) must include their pro rata share of the pass-through entity's property, payroll and sales in their calculation of the apportionment factor on TC-20, Schedule J, page 1.

If a corporation holds direct and indirect ownership interests in tiered pass-through entities, it must include its pro rata share of the apportionment factors (property, payroll and sales) of the pass-through entities, applying the respective ownership

percentages. For example, a corporation that holds 50 percent interest in Partnership A that in turn holds 20 percent interest in Partnership B would include 50 percent of the factors of Partnership A, and 10 percent (50 percent of 20 percent) of the factors of Partnership B.

Sales Factor Weighted Taxpayers

A sales factor weighted taxpayer may only use the sales factor weighted apportionment formula.

A multistate taxpayer is a sales factor weighted taxpayer UNLESS more than 50 percent of combined sales result from economic activities classified in the 2002 or 2007 North American Industry Classification System (NAICS) within the following excluded NAICS codes:

- Section 21, Mining;
- Section 2212, Natural Gas Distribution;
- Section 31-33, Manufacturing;
- Section 48-49, Transportation and Warehousing;
- Section 51, Information (except for Subsector 519, Other Information Services); or
- Section 52, Finance and Insurance.

To determine if you are a sales factor weighted taxpayer, add together your combined sales from all your lines of business (if you are a unitary group, these are the sales of the entire unitary group, not just the parent company or the companies doing business in Utah). If more than 50 percent of your combined sales result from economic activities classified outside the excluded NAICS codes above, you are a sales factor weighted taxpayer. Enter on line 7 the NAICS code for your principal business activity outside the excluded NAICS codes.

Report property and payroll factors on Schedule J, page 1, but do not use them to calculate the apportionment of sales factor weighted taxpayers.

Sales factor weighted taxpayers must calculate the apportionment fraction on Schedule J, Page 2 using Part 3 - *Sales Factor Weighted Taxpayers Only*.

Optional Sales Factor Weighted Taxpayers

A multistate taxpayer is an optional sales factor weighted taxpayer if more than 50 percent of combined sales result from economic activities classified in the 2002 or 2007 NAICS subsector 334, *Computer and Electronic Product Manufacturing*.

To determine if you are an optional sales factor weighted taxpayer, add together your combined sales from all your lines of business (if you are a unitary group, these are the sales of the entire unitary group, not just the parent company or the companies doing business in Utah). If more than 50 percent of your combined sales result from economic activities within NAICS subsector 334, you are an optional sales factor weighted taxpayer. Enter on line 7 the NAICS code for your principal business activity.

Optional sales factor weighted taxpayers may calculate the apportionment fraction using any of the three apportionment formulas: equally-weighted three factor formula (Schedule J, Part 1), double-weighted sales factor formula (Schedule J, Part 2), or single sales factor (Schedule J, Part 3).

Other Multistate Taxpayers

Taxpayers who are not sales factor weighted taxpayers or optional sales factor weighted taxpayers may calculate the apportionment fraction using the equally-weighted three factor formula (Schedule J, Part 1) or the double-weighted sales factor formula (Schedule J, Part 2).

Business Activity

Briefly describe the nature and location(s) of your Utah business activities in the space provided at the top of this schedule.

Lines 1a - 1f – Property Factor

Show the average cost value during the taxable year of real and tangible personal property used in the business within Utah (including leased property) in column A and overall (including Utah) in column B.

Property you own is valued at its original cost. Property you rent is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate you pay less the annual rate you receive from sub-rentals.

The average value of property must be determined by averaging the cost values at the beginning and end of the tax period. However, monthly values may be used or required if monthly averaging more clearly reflects your property's average value.

Attach a supporting schedule whenever you use monthly averaging.

If you are a pass-through entity taxpayer, add to line 1e any amounts listed on line J of any TC-65 Schedule K-1 you have received.

Enter totals of lines 1a through 1e in the respective columns on line 1f.

Line 2 – Property Factor Calculation

Determine the property factor (decimal) by dividing line 1f, column A by line 1f, column B.

Line 3 – Payroll Factor

Wages, salaries, commissions and other includable compensation paid to employees for personal services must be included in the Utah factor to the extent the services, for which the compensation was paid, were rendered in Utah.

Compensation is paid in Utah if:

1. the individual's service is performed entirely within Utah;
2. the individual's service is performed both within and outside Utah, but the service performed outside Utah is incidental to the individual's service within Utah; or
3. some of the service is performed in Utah and:
 - a. the base of operations or, if there is no base of operations, the place where the service is directed or controlled, is within Utah; or
 - b. the base of operations or the place where the service is directed or controlled is not in any state where some part of the service is performed, but the individual's residence is in Utah.

Amounts reportable for employment security purposes may ordinarily be used to determine the wage factor.

Overall wages, including Utah, are listed in column B.

If you are a pass-through entity taxpayer, add to line 3a any amounts listed on line K of any TC-65 Schedule K-1 you have received.

Line 4 – Payroll Factor Calculation

Determine the payroll factor (decimal) by dividing line 3a, column A by line 3a, column B.

Lines 5a - 5h –Sales Factor

The sales factor is the fraction the sales or charges for services within Utah for the taxable year bear to the overall sales for the taxable year. Gross receipts from the performance of services in Utah are assigned to the Utah sales numerator if the purchaser of the service receives a greater benefit of the service in Utah than in any other state.

Taxpayers that perform a service both in and outside Utah must include service income on line 5g in column A (Inside Utah) if the purchaser of the service receives a greater benefit of the service in Utah than in any other state. The former "cost of performance" method no longer applies. (See UC §59-7-319(3)(a).)

Sales of tangible personal property are in Utah if the property is delivered or shipped to a purchaser within Utah regardless of the F.O.B. point or other conditions of the sale, or if the property is shipped from an office, store, warehouse, factory or other place of storage in Utah and:

1. the purchaser is the United States Government, or
2. the taxpayer is not taxable in the state of the purchaser.

Overall sales, including Utah, are listed in column B.

Note: Securities brokerage businesses must follow the provisions in UC §59-7-319(6).

If you are a pass-through entity taxpayer, add to line 5g any amounts listed on line L of any TC-65 Schedule K-1 you have received.

Enter totals of lines 5a through 5g in their respective columns on line 5h.

Line 6 – Sales Factor Calculation

Determine the sales factor (decimal) by dividing line 5h, column A by line 5h, column B.

NAICS Code for Taxpayer

Line 7 – NAICS Code

This is a mandatory field. Your NAICS code may dictate your apportionment method.

If you are a sales factor weighted taxpayer or an optional sales factor weighted taxpayer, see *Sales Factor Weighted Taxpayers* and *Optional Sales Factor Weighted Taxpayers*, above, for the correct NAICS code to enter on line 7.

If you are NOT a sales factor weighted taxpayer or an optional sales factor weighted taxpayer, enter the six-digit NAICS code from your federal return (form 1120, Schedule K, line 2a; 1120S, box B; 1065, box C; or corresponding line on other federal returns).

► Part 1 – Equally-Weighted Three Factor Formula

If you are **not** a sales factor weighted taxpayer and are **not** electing the double-weighted sales factor (see lines 10 through 13 below), complete lines 8 and 9. If you are a sales factor weighted taxpayer or are electing the double-weighted sales factor, leave lines 8 and 9 blank.

Line 8 – Total Factors

Enter the sum of the factors from lines 2, 4 and 6.

Line 9 – Apportionment Fraction

Calculate the apportionment fraction to six decimals by dividing line 8 by the number of factors used (typically 3 – property, payroll and sales).

- If one or more of the factors are not present (i.e., there is a zero in the denominator on lines 1f, 3a or 5h in column B), divide by the number of factors present.
- If the numerator is zero, but a denominator is present, include that factor in the number of factors present.

Enter the apportionment fraction (decimal) here and on Schedule A, line 10.

► Part 2 – Double-Weighted Sales Factor Formula Election

If you are **not** a sales factor weighted taxpayer, you may elect to give double-weight to the sales factor in the apportionment calculation.

Line 10 – Making the Election

Enter an “X” on line 10 if you elect to double-weight the sales factor.

Line 11 – Double Sales Factor

Multiply the sales factor (decimal) from line 6 by 2. This will result in the sales factor being considered twice in the calculation.

Line 12 – Total Factors

Enter the sum of the factors from lines 2, 4 and 11.

Line 13 – Elected Apportionment Fraction

Calculate the elected, double-weighted sales factor to six decimals by dividing line 12 by the number of factors used (typically 4 – property, payroll and two times the sales factor).

- If one or more of the factors are not present (i.e., there is a zero in the denominator on lines 1f or 3a in column B), divide by the number of factors present (allowing two factors for sales).
- If the numerator is zero, but a denominator is present, include that factor in the number of factors present.

Enter the apportionment fraction (decimal) here and on Schedule A, line 10.

► Part 3 – Sales Factor Weighted Taxpayers

See instructions above for the definition and qualifications of a sales factor weighted taxpayer.

Complete line 14 if you are a sales factor weighted taxpayer or an optional sales factor weighted taxpayer who chooses the single sales factor method of apportionment. Leave line 14 blank if you are an other multistate taxpayer or optional sales factor weighted taxpayer who elected to use Part 1 or Part 2 for your apportionment calculation.

Line 14 – Apportionment Fraction

Enter the sales factor from line 6 of Schedule J, page 1. This is the apportionment fraction for this apportionment method. (Property and payroll factors are not used in the calculation of the apportionment fraction for a sales factor weighted taxpayer.)

Enter the apportionment fraction (decimal) here and on Schedule A, line 10.

Schedule M – Qualified Subchapter S Subsidiaries

An S corporation that has made a Qualified Subchapter S Subsidiary (QSSS) election under IRC 1361(b) must complete Schedule M if any subsidiaries for which such election was made are incorporated, qualified or doing business in Utah. Federal schedules are not acceptable as substitutes.

You may not use any other form as a substitute for Schedule M without prior approval from the Tax Commission. See *Guidelines for Substitute Utah Tax Forms*, at tax.utah.gov/developers/substitute-forms.

List only corporations incorporated, qualified or doing business in Utah. Corporations not listed on Schedule M will not be considered to have met the Utah filing requirements.

Schedule N – Pass-through Entity Withholding Tax

The S corporation, as a pass-through entity, must pay or withhold tax on behalf of each nonresident individual shareholder, each resident or nonresident business shareholder, and each resident or nonresident trust or estate shareholder (collectively referred to as pass-through entity taxpayers) unless a withholding waiver request is made (see below). An S corporation is not required to withhold Utah tax on a shareholder if:

- the shareholder is exempt from taxation under UC §59-7-102(1)(a) or §59-10-104.1;
- this corporation is a plan under IRC Sections 401, 408 or 457 and is not required to file a return under UC Chapter 7; or
- this corporation is a publicly traded partnership as defined under UC §59-10-1403.2(1)(b)(iv).

Ownership Percent: A shareholder's share of taxable income is based on the ratio of stock held by the shareholder to the total outstanding stock on the last day of the corporate filing period, unless there was a change in ownership during the filing period. If there was a change in shareholders or in the relative interest in stock the shareholders owned, each shareholder's percentage of ownership is prorated by the number of days the stock was owned during the filing period.

Shareholders may take a credit for the amount of tax paid by the S corporation on their behalf. To claim the credit, the shareholder must file a Utah income tax return for the taxable year. A shareholder subject to withholding by the S corporation and who has no other Utah source income may elect to forego the credit and not file a Utah income tax return. However, shareholders with income or loss from other Utah sources must file a Utah income tax return. A shareholder who is eligible for Utah tax credits, in addition to the pass-through tax withheld, must file a Utah income tax return to claim those credits.

If the shareholder is a pass-through entity, it must file a Utah return to report its income/loss and withholding allocations to its partners/members/shareholders/beneficiaries.

S corporations having shareholders for whom withholding is required must complete Schedule N showing the amount of Utah income attributable to the shareholders, the amount of Utah tax on such income (5%), any Utah mineral production withholding tax and upper-tier Utah pass-through entity withholding tax credited to the shareholders, and the net amount of withholding tax this S corporation must pay on behalf of such shareholders. Use additional forms TC-20S, Schedule N, if needed.

Withholding Waiver Claim

(UC §59-10-1403.2(5))

You may claim a waiver from the requirement to withhold Utah income tax on pass-through entity taxpayers by entering a “1” in the box if the waiver is for **all** shareholders, or a “2” if the waiver is for only certain shareholders. Also enter an “X” on line B and a “0” in column F for each shareholder for whom the waiver is claimed.

Claiming the waiver for all or specific shareholders does not relieve the S corporation from the responsibility for the payment of Utah tax on the income allocated to shareholders if the shareholders do not pay. If the shareholder or shareholders for whom you claimed a waiver fail to file a return and make the required payment in a timely manner, you will be liable for the withholding on those amounts, plus any associated penalties and interest.

Line A – Name of Shareholder (Pass-through Entity Taxpayer)

Enter the name of each nonresident individual shareholder, resident/nonresident business shareholder, or resident/nonresident trust shareholder (referred to as a pass-through entity taxpayer).

Line B – Withholding Waiver for this Shareholder

If you entered either a “1” or a “2” in the **Withholding Waiver Claim** box at the top of the Schedule N, enter an “X” on line B if this shareholder is included in the waiver claim.

If you check this box, enter a “0” on line F for the shareholder.

Line C – SSN/EIN of Shareholder

Enter the Social Security number (SSN) of each nonresident individual shareholder, the federal employer identification number (EIN) of each resident/nonresident business shareholder, or the EIN of each resident/nonresident trust or estate shareholder.

Line D – Percent of Ownership in S Corporation by Shareholder

Enter the percent of the S corporation the pass-through entity taxpayer owns, to four decimal places.

Line E – Income (Loss) Attributable to Utah

Enter the income (loss) attributable to Utah and taxable to the pass-through entity taxpayer.

Calculate this income for a pass-through entity taxpayer by multiplying the amount on Schedule A, line 12 by each pass-through entity taxpayer’s percentage shown on line D.

Line F – 5% of Income

Multiply the amount of income attributable to Utah for each pass-through entity taxpayer (line E) by 5%. If the amount on line E is a loss, enter “0.” Also enter “0” if the waiver request has been requested for this shareholder (box B checked).

Line G – Mineral Production Withholding Credit

Enter the amount of any mineral production withholding tax allocated by the S corporation to the pass-through entity taxpayer. The credit for mineral production withholding tax reduces the amount of Utah withholding tax that is calculated for this shareholder on Schedule N. The credit should also be reported on line 19 of Schedule K-1 for this shareholder.

Line H – Upper-tier Pass-through Withholding Tax

Enter the amount of any pass-through entity withholding tax paid by an upper-tier (previous) pass-through entity, attributable to this S corporation, and allocated to the pass-through entity taxpayer of this S corporation. The credit for upper-tier pass-through entity withholding tax reduces the amount of Utah withholding tax calculated for this shareholder on Schedule N. The credit should also be reported on line 20 of Schedule K-1 for this shareholder.

Line I – Withholding Tax to be Paid by This Corporation

Subtract the total of the credits on lines G and H from the tax calculated on line F for each pass-through entity taxpayer. Do not enter an amount less than zero.

The withholding tax shown in column I is the withholding tax this corporation must withhold or pay on behalf of the pass-through entity taxpayer. This withholding tax is reported on line 20 of Utah Schedule K-1 given to the shareholder.

This withholding tax is to be paid to the Tax Commission by the original due date of the return. If the return is being filed on extension, this withholding tax must be prepaid by the original due date.

Total Pass-through Entity Withholding

Add the pass-through withholding in column I for all shareholders. Enter this total at the bottom of the Schedule N and carry it over to Schedule A, line 13 and to Schedule K, line 20.

Pass-through Withholding Tax Calculation Summary

The Utah withholding tax for shareholders who are pass-through entity taxpayers and for whom the waiver is not requested is calculated as follows:

1. Line E – Enter the income allocated to Utah for the shareholder.
2. Line F – Multiply the income on line E by the Utah tax rate of 5 percent (.05).
3. Line G – Enter any Utah mineral production withholding tax allocated to this shareholder and which is used to reduce the amount of Utah withholding tax calculated.

Corporate/Partnership Payment Coupon

TC-559
Rev. 11/16

Payment Coupon

Use payment coupon TC-559 to make the following corporate/partnership tax payments:

- 1) Estimated tax payments
- 2) Extension payments
- 3) Return payments

Mark the circle on the coupon that shows the type of payment you are making.

Corporation Estimated Tax Requirements

Every corporation with a tax liability of \$3,000 or more in the current or previous tax year must make quarterly estimated tax payments. A parent company filing a combined report must make the payment when the total tax is \$3,000 or more for all affiliated companies, including those that pay only the minimum tax.

A corporation does not have to make estimated tax payments the first year it is required to file a Utah return if it makes a payment on or before the due date, without extension, equal to or greater than the minimum tax.

Estimated tax payments are due in four equal payments on the 15th day of the 4th, 6th, 9th and 12th months of the entity's taxable year. You may make quarterly payments equal to 90 percent of the current year tax or 100 percent of the previous year tax. A corporation that had a tax liability of \$100 (the minimum tax) for the previous year may prepay the minimum tax amount of \$100 on the 15th day of the 12th month instead of making four \$25 payments.

The Tax Commission will charge an underpayment penalty to entities that fail to make or underpay the required estimated tax.

Extension Payment Requirements

A corporation/partnership has an automatic filing extension if it makes the necessary extension payment by the return due date. The estimated tax payments must equal at least the lesser of:

- 1) 90 percent of the current year tax liability (or the \$100 corporation minimum tax, if greater), or
- 2) 100 percent of the previous-year tax liability.

The remaining tax, plus any penalty and interest, is due when the return is filed.

Note: A pass-through entity (partnership or S corporation) must pay 100 percent of any pass-through withholding by the original due date to avoid penalties and interest.

Penalties and Interest

If your tax payments do not equal the lesser of 90 percent of the current-year tax liability (\$100 minimum tax for corporations) or 100 percent of the previous-year tax liability, we will assess a penalty of 2 percent of the unpaid tax for each month of the extension period. We will assess a late filing penalty if you file the return after the extension due date.

We will assess interest at the legal rate from the original due date until paid in full.

See Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.
