How to Determine the Correct Sales Tax Rate

Sales Tax Sourcing Rules

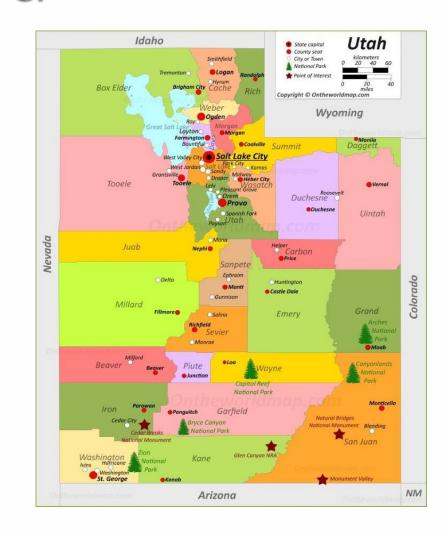

Determining Tax Rate (Point-of-Sale Sourcing)

Sourcing means assigning a sale to a taxing jurisdiction to determine the sales tax rate. Sales are sourced by transaction type.

Tax rates vary from one community to another, depending on the taxes each community imposes. Find tax rates online at tax.utah.gov/sales/rates.

NOTE: There are currently 325 tax jurisdictions in Utah.

Terminology Used

Tangible Personal Property

• Property that can be seen, weighed, measured, felt or touched, or is perceptible to the senses in any manner. Tangible personal property includes electricity, water, gas, steam and prewritten software.

Taxable Service

• Labor to repair, renovate and clean tangible personal property and products transferred electronically. This includes maintenance agreements.

Retail Sale

Fixed Utah Location(s)

Retail sale of tangible personal property in Utah (including vending machine operators and sellers who sell from mobile inventory).

- Seller's fixed place of business (whether or not the goods or services are delivered)
- Location where inventory is warehoused for vending machine operators and sellers who sell from mobile inventory.
 - This includes sales by food trucks that are not included in a special event.

Fixed Location(s)

Example 1:

Sales made at a **Seller's fixed place of business** (one or more locations) are taxable at the rate applicable to the fixed location.

- A jeweler has a store in Salt Lake City and a second store in St. George:
 - Salt Lake City store collects current sales tax rate for Salt Lake City.
 - St. George store collects current sales tax rate for St. George.

Sales from Mobile Inventory

Example 2:

A seller has a restaurant in Salt Lake City and they also have food truck where they sell throughout the state. They keep their food truck inventory at the Salt Lake City restaurant location.

 All food truck sales will be sourced to Salt Lake City regardless of where the food truck is parked and the sales occur.

Exception: If they are attending a registered special event, the food truck sales will be sourced to the special event location.

Determining the Sales Tax Rate Sales at a Special Event

All sales at a registered special event must be sourced to the **location** of the special event.

Special event - A one-time event or an event that runs for 6 months or less where taxable sales occur.

Special events fall under a variety of situations including sporting events, state and county fairs, festivals, antique shows, gun shows, food shows, art shows, auctions, mall kiosks, swap meets, conventions, hobby shows, concerts, seasonal stands in malls, and other similar events.

Taxable Services When Seller Occasionally Sells Tangible Personal Property

Retail sale of **taxable services** in Utah when seller also sells tangible personal property.

Sourced to the seller's fixed place of business OR customer's location (seller's preference) if only a taxable service is occurring.

If the seller sells tangible personal property on the same invoice as the service, the transaction must be sourced to **the seller's fixed place of business.**

Mobile Service or Non-Fixed location

Example 3:

There may be situations where even though a seller has a fixed place of business the tax may be sourced to another location.

Services performed at a non-fixed location:

- A car detailing shop which also provides mobile detailing.
 - If a car is brought to the shop for detailing then the tax would be sourced to the fixed shop location.
 - If the car is detailed at the customer's location then it can be sourced to the location of the service or the fixed shop location. (If only the service was provided)
 - In either situation, if there was tangible personal property that was sold on the same invoice, it will be sourced to the fixed shop location.

Taxable Service with No Sales of Tangible Property

Retail sale of **taxable services** in Utah when the seller **never** sells tangible personal property.

All transactions will be sourced to the customers location.

Order Received Outside of Utah

Retail sale of tangible personal property or taxable services when the **order** is received outside Utah.

Sourced to the Buyer's location (the place the buyer receives the service or property)

This is common on internet, catalog or phone orders where the seller is receiving the order outside of Utah.

Order Received Outside of Utah

Example 4:

Items shipped directly to Utah consumer

Even if the seller has nexus in Utah, the seller may still have to collect tax rate in effect at buyer's location.

- Furniture seller has a location in Utah but also has a website, customer buys a couch on the website and has it shipped directly to customer's home.
 - If the order is received at the seller's Utah location then the sale is sourced to the seller's Utah location.
 - If the order is received at an out of state location then the sale is sourced to the customer's location.

Retail sale by a ready-mix concrete manufacturer, nonmetallic mineral mining and quarrying operation, and asphalt paving mixture and block manufacturer.

Sourced to the fulfilment location from where the product is dispatched.

Lease or Rental of Tangible Personal Property

Lease or rental of tangible personal property (other than motor vehicles, semitrailers, trailers 10,000 pounds or less, and aircraft)

- Source to the location the customer receives the goods or services for down payment and first payment.
- Source to the location of the item for subsequent payments.

- If there are no recurring payments:
 - Source to the location the customer receives the goods or services.
 - Source to the customer's location if shipped from outside the state to a Utah customer.

Lease or Rental of Motor Vehicles

Lease or rental of motor vehicles, semitrailers, trailers 10,000 pounds or less, and aircraft.

- If recurring payments, source to the **customer's address** for all payments, including down and first payments.
- If there are no recurring payments, source to the seller's fixed place of business.

Retail sale of admissions

• Sourced to the location of the activity or event (regardless of ticket purchase location).

Remotely Accessed Software

License fees for remotely accessed prewritten software are taxable if the purchased software is used in Utah and is sourced to the customers location.

- If remotely accessed software is used at more than one location and at the time of the transaction, the buyer provides the seller a reasonable and consistent method for allocating the transaction between those locations, the seller must source the transaction to those locations.
- If the buyer does not provide the seller with a method of allocating a transaction that is used in multiple locations, the seller must source the transaction to the buyer's address.

*Remotely accessed software includes hosted software, application service provider (ASP) software, software-as-a-service (SAAS), and cloud computing applications

Lodging Accommodations

Short-Term Lease or rentals of lodging accommodations.

• Sourced to the location of the rental property.

Guides and Outfitters

Guides, outfitters and providers of similar activities must charge sales and use tax at the current rate in the **locality where the service begins**.

• If the service begins outside Utah, the transaction is not subject to Utah sales tax.

For sales of tangible personal property, the tax rate is based on the guide or outfitter's fixed place of business.

• For rentals of tangible personal property, the tax rate is based on the location the client receives the goods.

Items shipped to a location outside of Utah

Items that are shipped by the seller to a location outside of Utah are not subject to Utah sales or use tax.

- Sales tax will be sourced to the state in which the customer is taking possession of the items.
- Sellers will need to check with each state they are shipping to determine sourcing rules and whether or not they will be required to collect sales tax for that state as each states rules may be different.

• Rates can change quarterly and are posted 60 days before the effective date.

Sales Tax Check Up

Register at salestaxcheckup@utah.gov

Let us help with your sales and use tax reporting by conducting a Sales Tax Check Up. A tax examiner will visit you to educate you on how to properly account for and report your sales and use taxes. You will receive instructions specific to your business and accounting software regarding:

- Which report(s) to use to file sales and use tax returns
- · What documentation is needed for exempt sales
- Identify transactions subject to sales or use tax
- What tax rates and correct taxing jurisdiction to use
- How to correctly accrue and report use tax
- What appropriate adjustments to make

Sales Tax Check Ups are meant to be educational only, and no tax assessments are made. A tax examiner can answer your specific questions. To register for a Sales Tax Check Up, contact us at salestaxcheckup@utah.gov.
